Security Interdependence In The Asia Pacific Region:

Security Interdependence in the Asia Pacific Region James William Morley,1986 Asia-Pacific Security

Cooperation: National Interests and Regional Order See Seng Tan,2014-12-18 New developments in the Asia Pacific are forcing regional officials to rethink the way they manage security issues The contributors to this work explore why some forms of security cooperation and institutionalisation in the region have proven more feasible than others This work describes the emergence of the professions in late tsarist Russia and their struggle for autonomy from the aristocratic state It also examines the ways in which the Russian professions both resembled and differed from their Western counterparts

Regional Security Structures in Asia Ashok Kapor, 2018-10-24 Kapor argues that explanations of international relations in Asia in the post Second World War period have relied too much on the Cold War as a key explanatory factor and have not given enough emphasis to the useful concepts of regional power formation conflict formation and conflict resolution The author outlines these concepts and goes on to elaborate on them and to apply them to three key Asian regions northeast southeast and south Asia discussing practical strategic issues in an historical perspective and arguing that these concepts and other concepts which he discusses are extremely helpful in making sense of the complex pattern of international The New Security Agenda in the Asia-Pacific Region Denny Roy, 2016-07-27 The field of security relations in Asia studies is undergoing a major re evaluation in the post Cold War era and this has important implications for the region The security dangers of the 1990s and beyond are different and more complex than those of the Cold War and strategic thinkers both in the academic and policy making spheres must begin to understand the new environment lest they fall into the old trap of planning for the next conflict based on the conditions of the last conflict This book is designed to survey the new environment assessing what has changed and what remains the same and suggesting what types of demands future strategists will face Constructing a Security Community in Southeast Asia Amitav Acharya, 2014-03-26 In this third edition of Constructing a Security Community in Southeast Asia Amitav Acharya offers a comprehensive and critical account of the evolution of the Association of Southeast Asian Nations ASEAN norms and the viability of the ASEAN way of conflict management Building on the framework from the first edition which inspired the establishment of the ASEAN Political Security community this new edition has been extensively updated and revised based on new primary sources that are not publicly available Updates for this edition include Expanded and updated coverage of the South China Sea Conflict and how it affects regional order and tests ASEAN unity Analysis of new developments in the US role in the region including ASEAN s place and role in the US pivot rebalancing strategy and the evolution of the East Asian Community the newest summit level multilateral group Extensive analysis of the ASEAN Political Security community An examination of US China relations and China ASEAN relations Coverage of ASEAN s institutional development and the controversy over reform of the ASEAN Secretariat An updated outlook on ASEAN s future as a security community and the issue of ASEAN Centrality in the regional

security architecture The new edition will continue to appeal to students and scholars of Asian security international relations theory and Southeast Asian studies as well as policymakers and the media Japan and the Security of Asia Louis D. Hayes, 2001-01-01 In Japan and the Security of Asia Louis Hayes studies modern Japan's frustrated search for national security The book charts Japan's attempts to fashion its own place in the sun in the face of Great Power interventionism and national demands for regional hegemony first through nascent internationalism and later disastrous totalitarianism that culminated in war in the Pacific Hayes expertly tracks Japan's shifting foreign policy goals up to the present day moving from the preservation of the nation state by force to the drive for economic self aggrandizement as a Cold War client of the United States The book reveals to the student of modern Asian history a twenty first century Japan that has rejected unarmed neutrality and is reasserting its security independence in post Cold War Asia The Transformation of Security in the Asia/Pacific Region Desmond Ball, 2013-10-14 The security architecture of the Asia Pacific region is in a profound transformation Such changes are not without problems which are discussed here **Regional Security in South** Asia and the Gulf Umer Karim, Saloni Kapur, 2023-02-24 As we move towards a world without superpowers the dynamics within and between regions are of growing significance Against this backdrop this book explores the links between South Asia and the Gulf which have existed for centuries but are undergoing important shifts in the transition to multipolarity With a special focus on India Pakistan Iran Bangladesh Saudi Arabia the United Arab Emirates Sri Lanka and Oman this volume brings together scholars from across these regions to investigate what the decentring world order means for the relationship between South Asia and the Gulf It employs Regional Security Complex Theory to examine the changing global patterns of power and their impact on the inter regional patterns of amity and enmity between states in South Asia and the Gulf It employs both constructivist and realist approaches seeking to understand how power and social processes influence the political and security linkages between these regions Oxford Handbook of the International Relations of Asia Saadia M. Pekkanen, John Ravenhill, Rosemary Foot, 2014 This Handbook examines the theory and practice of international relations in Asia Building on an investigation of how various theoretical approaches to international relations can elucidate Asia's empirical realities authors examine the foreign relations and policies of major countries or sets of countries North Korea and Security Cooperation in Northeast Asia Tae-Hwan Kwak, Seung-Ho Joo, 2016-05-23 Relations between the two Koreas continue to be hostile volatile and unpredictable with North Koreas nuclear issue remaining as untamed as ever As such there is a growing urgency for security cooperation in Northeast Asia to be given immediate attention The key players in the region the US China Japan and Russia are keenly aware of the security threat of an armed clash between North and South Korea and are committed to denuclearization of the Korean peninsula This book explores the domestic factors of the two Koreas and the four major powers that influence their security policies towards North Korea and Northeast Asia This well thought out and consistently analysed volume has huge potential to frame the conversation on Northeast Asian relations

in the coming years ASEAN and the Security of South-East Asia (Routledge Revivals) Michael Leifer, 2013-10-14 Problems of internal and external security in South East Asia have persisted as one set of competing global alignments has been succeeded by another with major impact on regional relationships This book first published in 1989 examines how the states of The Association of South East Asian Nations ASEAN have attempted to confront the problems of regional security It considers the nature and role of the Association intended to promote economic growth social progress and cultural development traces its institutional development from 1967 and identifies a basic structural weakness arising from the differing strategic perspectives held by member governments Leifer explores in particular ASEAN s response to conflicts over Kampuchea renamed Cambodia in 1990 which was critical in exposing those differing perspectives and the limited role of a diplomatic community in coping with regional security problems. This comprehensive work will be of particular value to students and academics with an interest in South East Asian diplomacy history and regional security and Economic Dependence on China and the United States Keisuke Iida, 2017-07-06 With the rise of China Japan and many East Asian countries are caught between maximizing profit from economic ties with her and strengthening alliances with the United States to prevent China from overpowering them Liberals and realists thus debate over the likelihood of either security tensions easing up or economic interdependence getting reduced eventually On the other hand Iida introduces a new theory that reinterprets the relationship between state security and economic interdependence among countries in the Asia Pacific region Based on case studies of recent episodes in East Asia and especially on the experiences of Japan this book highlights an interesting dynamic between security and economic interdependence risk avoidance By understanding how risk avoidance affects the behavior of these countries in terms of security and economics it becomes evident how they eventually settle into what Iida calls Cool Politics and Lukewarm Economics Asia-Pacific Security Joanne Wallis, Andrew Carr, 2016-10-01 This new textbook gathers an international roster of top security studies scholars to provide an overview of Asia Pacific's international relations and pressing contemporary security issues It is a suitable introduction for undergraduate and masters students use in international relations and security studies courses Merging a strong theoretical component with rich contemporary and historical empirical examples Asia Pacific Security examines the region s key players and challenges as well as a spectrum of proposed solutions for improving regional stability Major topics include in depth looks at the United States relationship with China Security concerns presented by small and microstates the region s largest group of nations threats posed by terrorism and insurgency the region s accelerating arms race and the potential for an Asian war the possible roles of multilateralism security communities and human security as part of solutions to regional problems Regional Security in Southeast Asia Mely Caballero Anthony, 2005 The book examines ASEAN s mechanisms in managing challenges and threats to regional security Its extensive analyses of the ASEAN story of managing regional security cover the different phases of ASEAN s development as a regional organization and explore the perceptible

changes that have occurred in regional mechanisms of conflict management The book also examines the roles of relevant actors beyond the states of ASEAN and the key interactions that have evolved over time which have been instrumental in moving regional mechanisms beyond the ASEAN way The book argues that the ASEAN way has not been impervious to change As the association finds its way through periods of crises and continues to confront the many challenges ahead ASEAN and its mechanisms are already being transformed beyond the narrow confines of the modalities associated with the ASEAN way The changes in the political and security landscape of the region as well as the democratic transitions taking place in some member states have set the stage for a much more dynamic set of regional actors and processes that bring into question the kind of regionalism that is now taking place in the region the way regionalism is changing in Southeast Asia

The Oxford Handbook of the International Relations of Asia Saadia M. Pekkanen, John Ravenhill, Rosemary Foot, 2014-08-19 In the past quarter century the importance of Asia in international relations has grown exponentially This Handbook gathers the most important scholars in the field of Asia's international relations to address this momentous change in world politics The editors and contributors focus on three basic themes assessing appropriate theories for explaining the evolution of the international relations of Asian countries within the region and with the rest of the world tracing the recent history of Asia in world politics and focusing on emerging trends The Handbook brings readers the latest scholarship on the bilateral regional and global relations of Asian countries in the fields of political economy national security and human security Comprehensive in theme breadth and methodology this Handbook is a timely addition to the existing literature on the changes currently underway in Asian countries that promise to have significant implications for world politics the 21st Century Michael D. Bellows, 1995-10 Part I Grand Strategy U S goals China s grand strategy Japan s grand strategy Russian strategy ASEAN national security Part II Economic Dimensions challenge of geoeconomics interdependence on Northeast Asia Part III Regional Military Strategy Japanese self defense forces Korean military forces Russia s new military doctrine China's strategic concepts Part IV Regional Strategic Structures in the 21st Century post cold war security structures and strategic architecture for the Pacific **East Asia in Transition**, This text examines the implications of two strategic and economic transformations in the East Asia region the demise of the Soviet Union and the emergence of new East Asian economic powers that have transformed regional economic relations **East Asia in Transition:** Robert S. Ross, 2015-03-26 Has uniformly good essays on economic and political change the policies of the great and local powers and the prospects for building a new regional order Foreign Affairs **Contested Multilateralism 2.0 and Asian Security Dynamics** Kai He, 2020-04-28 In the 1990s there was a wave of multilateralism in the Asia Pacific led primarily by ASEAN Since the Global Financial Crisis of 2008 however many non ASEAN states have attempted to seize the initiative including the USA Japan China South Korea and Australia Kai He and his contributors debate the reasons for this contested multilateralism and the impacts it will have on the region s security and political challenges Will the Indo Pacific turn be a

blessing or a curse for regional stability and prosperity Using a diverse range of theoretical and empirical perspectives these leading scholars contribute views on this question and on the diverse strategies of the great and middle powers in the region This collection will be of great interest to scholars and students of international relations in the Asia Pacific and of great value to policy makers in the region and beyond **Power and Prosperity** Susan L. Shirk, Christopher P. Twomey, 1996-01-01 Power and Prosperity brings together senior scholars policy officials and international journalists to provide diverse perspectives on regional dynamics and domestic intricacies in the Pacific Rim countries and to examine the effects of changing security patterns on economic relations and growth The contributions highlight the degree to which economic and security policies are connected and show how policymakers can build upon the positive dimensions of regional and international ties to increase trust and limit the development of security dilemmas
