James R. Lewis,2004-08-30 In the late 1980s the New Age movement became the focus of both media attention and widespread ridicule as some of the more outlandish aspects of the movement such as channeling and the use of crystals for healing briefly piqued the public s curiosity While the movement was at its height scholars of religion generally sneered at what was perceived to be a daffy shallow craze and ignored it as a subject of serious study Professor James R Lewis was

among the first to examine this growing religious phenomenon scientifically In previous books he has investigated the New Age as the most visible manifestation of a significant spiritual subculture the roots of which reach back to Theosophy Spiritualism and New Thought The present collection pursues this theme bringing together some of the best recent scholarship on new religions Since the height of its popular influence the New Age has declined in strength but has given rise to a plethora of new denominations all shaped by New Age ideas and spirituality Reflecting the emergence of this new denominational structure the core chapters of this book focus on specific groups Other chapters examine the movement s historical roots A unique feature of Dr Lewis s work is his inclusion of extensive selections from New Age literature thus allowing readers to experience firsthand the unusual perspectives of the various groups This is a fascinating examination of a significant and persistent religious and social phenomenon

The New Age of Soul Ray S. Anderson,2001-11-27 In *The New Age of Soul* the broad appeal of new age spirituality is identified and defined with special attention to the claim that the soul may be understood as both the repository of divine energy and a source of spiritual healing and hope Through dialogue with sources and perspectives on the spiritual nature of the soul the book attempts to win the respect and appreciation of the reader already persuaded by the claims and benefits of new age spirituality while at the same time convincing the reader who has suspicions and concerns about new age spirituality that a better alternative may be found The book thus has a two fold purpose first to expose the inadequacy indeed the superficiality of new age spirituality through this dialogue and discussion attracting the attention and interest of the reader already influenced by this genre Second the author makes a case for a more traditional orthodox and biblical view of the soul and human spirituality so that the reader who is inclined toward new age spirituality will rediscover the more traditional biblical content of the soul and spirituality while providing the committed more traditional Christian reader a tool by which to communicate a biblical faith with the growing segment of our population attracted toward new age spirituality In its own way this book is an apologetic for a more traditional Christian theology of human spirituality and self identity presented in a positive dialogue with new age spirituality *Revised Land and Resource Management Plan* United States.
