Superintendent of Documents, 1896      **Museum Informatics** Paul F. Marty, Katherine Jones, 2012-07-26 Museum Informatics explores the sociotechnical issues that arise when people information and technology interact in museums It is designed specifically to address the many challenges faced by museums museum professionals and museum visitors in the information society It examines not only applications of new technologies in museums but how advances in information science and technology have changed the very nature of museums both what it is to work in one and what it is to visit one To explore these issues Museum Informatics offers a selection of contributed chapters written by leading museum researchers and practitioners each covering significant themes or concepts fundamental to the study of museum informatics and providing practical examples and detailed case studies useful for museum researchers and professionals In this way Museum Informatics offers a fresh perspective on the sociotechnical interactions that occur between people information and technology in museums presented in a format accessible to multiple audiences including researchers students museum professionals and museum visitors      [Museums in Motion](#) Juilee Decker, 2024-08-06 This book explores the histories and functions of museums while also looking at the current standing of museums and their ongoing efforts toward relevance resiliency and future proofing Section I examines the beginnings of museums with chapters dedicated to art and design museums natural history and anthropological museums science museums museums focused history and the past and gardens zoos and children s museums Emphasis is on museums in the United States with some historical framing beyond the U S Section II explores the primary functions of museums including conservation exhibition interpretation engagement and service Section III examines museums from within by exploring critical issues and contemporary movements facing museums and our society transparency and openness labor and equity belonging and coalition building risk taking and risk aversion and sustainability and empathy Advocating for change rather than death to museums Museums in Motion demonstrates the very premise that museums have been in motion all along as they have shifted from their rather simple form of a treasury storehouse and tomb to something much more complex by deeply considering where museums have come from where they are today and where they are going Entirely new to this edition Section III Museum Aspirations features five new chapters each centered around topics rather than a museum type or museum function Each topic is meant to be a micro narrative and springboard for a conversation about museums today and their sustainability in the future The chapters examine museums

from the inside museum workers and their voices especially as well as power held by people and institutions and DEIA without using those individual words as chapter headings On their own or in conjunction with the chapters in the previous sections of this book these chapters serve as vignettes that can help readers to understand where how and why we need to apply critical lenses to institutions and articulate how doing so helps us to understand this historical moment and ultimately how we can realize resiliency and sustainability for museums and those who make their existence possible

Riches, Rivals, and Radicals Marjorie Schwarzer, 2020-10-07 Since it was first published in 2006 Riches Rivals and Radicals has been the go to text for introductory museum studies courses It is also of great value to professionals as well as museum lovers who want to learn the stories behind how and why these institutions have evolved since the day the first mastodon bones royal portraits and botanical specimens entered their halls For this third edition Marjorie Schwarzer has mined new resources previously unavailable archives and contemporary trends to provide a fresh look at the challenges and innovations that have shaped museums in the United States Schwarzer argues that museums are fundamentally optimistic institutions They build and preserve some of the nation s most extraordinary architecture They showcase the beauty and promise of new scientific discoveries historical breakthroughs and artistic creation They provide places of inspiration and repose At the same time museums have succeeded in exposing some of the nation s most painful legacies racism inequity violence as they strive to be places for healing and reckoning This too one could argue is an act of optimism for it expresses the hope that museum visitors will gain empathy and understanding from the evidence of others

struggles Schwarzer shows us how museums are rooted in a contentious history tied to social technological and economic trends and ultimately changing ideas of what it means to be a citizen Along the way we meet some notorious and eccentric characters including business tycoons architects collectors designers politicians political activists and progressive educators all of whom have exerted their influence on what is a complex yet nonetheless enduring institution Major additions since the last edition include material on digital curation emergent exhibitions about civil rights immersive museum environments continuing efforts to diversify the field how museums role in our increasingly digital society and a new foreword by American Alliance of Museums President and CEO Laura L Lott Museums new to this edition include the National Museum of African American History and Culture the National Memorial for Peace and Justice and the 9 11 Memorial and Museum Beautifully written and lavishly illustrated the third edition of this accessible award winning book brings the reader up to date on the stories behind the people and events that have transformed America s museums from their beginnings into today s vibrant cultural institutions
