Theology and Survival Movies Ioan Buteanu,2023-03-03 This book provides an innovative analysis of the survival movie genre from an Orthodox Christian anthropological perspective Grounded in the Orthodox tradition the approach builds from the first chapter of Genesis where man is described as made in the image and after the likeness of God It offers a nuanced theological exploration of the concept of the survival movie and examines a number of significant cinematic creations illustrating how issues of survival intersect romantic Western science fiction and war films The author reflects on

how survival movies offer a path for the study of human nature given they depict people in crisis situations where they may reveal their true characters As well as discussing the role of a limit situation as a narrative element the book highlights the spiritual aspect of survival and points to the common hope in survival movies for something more than biological survival It is valuable reading for scholars working in the field of religion and film

The Sacred and the Cinema Sheila J. Nayar, 2012-03-29 For more than half a century now scholars have debated over what comprises a genuinely religious film one that evinces an authentic manifestation of the sacred Often these scholars do so by pitting the successful films against those which propagate an inauthentic spiritual experience with the biblical spectacular serving as their most notorious candidate This book argues that what makes a filmic manifestation of the sacred true or authentic may say more about a spectator or critic s particular way of knowing as

influenced by alphabetic literacy than it does about the aesthetic or philosophical and sometimes even faith based dimensions of the sacred onscreen Engaging with everything from Hollywood religious spectaculars Hindu mythologicals and an international array of films revered for their transcendental style *The Sacred and the Cinema* unveils the epistemic pressures at the heart of engaging with the sacred onscreen The book also provides a valuable summation of the history of the sacred as a field of study particularly as that field intersects with film
