Irfan Faqeer Noor Muhammad, 2021-01-04 Intentionally or otherwise the world today is engulfed in a strange intellectual strife and insoluble mental enigma To overcome this conflict we must take practical steps toward creating a true conception of God in the minds of the people and to impress on their memories the necessity of religion enabling religion and spiritualism to attain once more the preeminence that they previously enjoyed In pursuit of that renaissance of religion Irfan presents the exposition of two secret rare and closely guarded sciences and offers a vivid description of their philosophy The first focuses on knowledge of concentration on the personal name of God Allah centralizing human thought and occult spiritual energies on one point to attain willpower and spiritual strength The second invokes the inmates of the graves calling on departed souls for wisdom Irfan demonstrates that humanity's worldly life is not everything rather there is a world after death and dying is just a part of life It seeks to remove the fear of death and reveal it to be a beloved entity Written by Faqeer Noor Muhammad in the early twentieth century this spiritual study provides a valuable compendium and unique record of religion spiritualism and the secrets of Sufiism
