where we have been and where we currently are Knowing this as our Notable Ancestor and Grandmaster Teacher Baba Dr John Henrik Clarke has said will tell us who we are and where we must get to Who we are is dependent on who we were Who we were should determine who we should be To emphasise the point Marcus Garvey another of our most important Notable Ancestors frequently reiterated this advice when he reminded us that our first obligation is to know ourselves He told us that we should make our knowledge about us so complete so as to make it impossible for others to take advantage of us He told us that in order to know ourselves we must know who our Ancestors were and what they achieved We would then realize who we are and what we are capable of achieving This is the meaning of the African adage and Sankofa symbol of looking back in order to go forward The importance of knowing our ancestors has been summed up in an old Native American saving that It is the spirit of our ancestors that should guide our path There is a sense however that Africans have forgotten our ancestors Because of this there is no spirit to guide us and so Africans are lost and confused The roots of African spirituality and culture have been made redundant Yet as Dr Clarke points out the unbilicord that tied Africans to our spiritual and cultural roots have only been stretched It has never been broken It is for Africans to come to this realization and to rediscover the spirit of our ancestors This volume lists some of our Notable Ancestors in the hope that knowledge about them and their achievements will aid some of us in understanding where we have been who we presently are and consequently who we must become Ultimately it is hoped that we may use this knowledge to reconnect with the spirit of our Ancestors and let them be our guide This volume is based on the truth about Africans and therefore correcting what is told about us This corrective knowledge of us is important because as Imhotep said Know the truth and the truth shall set you free This means being free to interpret our own story and to define who we are This is crucial because although history is a witness to the truths history has been stolen by others who have hidden the truths about us History has never been true or kind to Africans and therefore it cannot tell us about us Yet as Peter Tosh intimated we cannot come to a consciousness of ourselves of who we are if we do not know the truths about us History has been described as the Queen of the academic subjects So important is History that it is said that whoever controls history controls the future In one sense education in general and history in particular is about teaching us who we are History teaches who we are so as to help us to know where we belong in our community or society Africans cannot know where we belong in society however because our story has been told by others those who own history Africans are therefore unaware of who we are because what is known about us is not the truth about us The story of Africans the oldest people on earth like the history of the world is taught by others Yet these others came into the world thousands of The Living Church ,1957 years after Africans had already established great civ **Complete Jewish** Bible-PR-Cjb/NIV Hendrickson Publishers, 2011-08 Introducing an exciting volume featuring the Messianic Complete Jewish Bible and the newly revised New International Version side by side For the first time readers who seek to compare the Evangelical Christian and Messianic Jewish Bibles need not buy them separately The CJB and the 2011 NIV version may both

Astarius,2019-07-16 Hermead of Surazeus is an epic poem about the development of philosophy over 600 years in the lives and ideas of 26 of the greatest philosophers who contributed to the growth of civilization This single volume edition presents in 126 680 lines of pentameter blank verse the tales of Hermes Prometheus Kadmos Asklepios Zethos Hesiodos Thales Anaximandros Pythagoras Herakleitos Parmenides Anaxagoras Empedokles Leukippos Philolaos Demokritos Aristokles Platon Aristoteles Demetrios Phalereus Epikouros Arkhimedes Ktesibios Eratosthenes Krates Hipparkhos Philodemos and Lucretius

Religious Telescope ,1901 Philadelphia Methodist ,1902 Visconti and the German Dream David Huckvale,2014-01-10 Luchino Visconti s trilogy of films Ludwig Death in Venice and The Damned explore the complex relationship between the themes and ideals of German Romanticism and their impact on the catastrophe of the Third Reich The personality and works of Richard Wagner to a large extent epitomize German Romanticism as a whole while the writings of Thomas Mann and Friedrich Nietzsche provide the greatest critique of this dark and troubled but sublime and emotionally overwhelming culture Along with contrasting approaches to this subject by other filmmakers such as Hans Jurgen Syberberg Ken Russell and Tony Palmer this book explores how the preoccupations of the German Romantic movement led to Nazism and contrasts the ways in which filmmakers have presented this continuum The book also discusses the impact of Wagner's musical dramas on the art form of the cinema itself
