Seeking Stability In Space:

Seeking Stability in Space Ashton B. Carter, 1987 To find more information on Rowman Littlefield titles please visit us at www.rowmanlittlefield.com

The Militarization and Weaponization of Space Matthew Mowthorpe, 2004-01-01 The militarization of space began as a rivalry between the United States and the Soviet Union and grew to enormous proportions during the height of the Cold War Satellite reconnaissance navigation and weapons guidance and electronic intelligence comprise only a few of the efforts taken to militarize and dominate space Today as the prominence of information technology computing and telecommunications advances so does the concept of space as a battlefield In *The Militarization and Weaponization of Space* Matthew Mowthorpe diligently analyzes the military space policies of the United States the Soviet Union Russia and the People's Republic of China from the Cold War period to the present day Mowthorpe focuses on the development of the ballistic missile defense and other anti satellite systems and aptly assesses to what degree space will become armed This work cogently addresses an issue of increasing urgency to scholars of international politics

[Seeking stability in space; Anti-satellite weapons and the evolving space regime](#), 1987

Space and Security Peter L. Hays, 2011-03-03 This thorough examination of the roots and motivations for U S national security space policy provides an essential foundation for considering current space security issues During the Cold War era space was an important arena for the clashing superpowers yet the United States government chose not to station weapons there Today new space security dynamics are evolving that reflect the growing global focus upon the broad potential contributions of space capabilities to global prosperity and security *Space and Security A Reference Handbook* examines how the United States has developed and implemented policies designed to use space capabilities to enhance national security providing a clear and complete evaluation of the origins and motivations for U S national security space policies and activities The author explains the Eisenhower Administration's quest to develop high technology intelligence collection platforms to open up the closed Soviet state and why it focused on developing a legal regime to legitimize satellite overflight for the purposes of gathering intelligence

[Peaceful and Non-Peaceful Uses of Space](#) Unidir United Nations Institute For Disarmament Research, 2021-01-26 This book first published in 1991 is the cumulative result of a long period of research by qualified experts in an attempt to analyse the legal and scientific problems of arriving at definitions in the task of preventing an arms race in outer space Problems of definition confront the negotiator at the very outset of any discussion on preventing a space arms race this book sets out to remove these problems by examining the possible definitions

Space and Nuclear Weaponry in the 1990's Carlo Schaerf, Giuseppe Longo, David Carlton, 1992-06-18 A collection of papers that were the result of meetings held in Italy under the auspices of the International School on Disarmament and Research on Conflicts ISODAROC The primary aim of the meetings was to explore the prospects for space and nuclear weaponry in the coming decade

Weapons in Space Aaron Bateman, 2024-05-07 A new and provocative take on the formerly classified history of

accelerating superpower military competition in space in the late Cold War and beyond In March 1983 President Ronald Reagan shocked the world when he established the Strategic Defense Initiative SDI derisively known as Star Wars a space based missile defense program that aimed to protect the US from nuclear attack In Weapons in Space Aaron Bateman draws from recently declassified American European and Soviet documents to give an insightful account of SDI situating it within a new phase in the militarization of space after the superpower détente fell apart in the 1970s In doing so Bateman reveals the largely secret role of military space technologies in late Cold War US defense strategy and foreign relations In contrast to existing narratives Weapons in Space shows how tension over the role of military space technologies in American statecraft was a central source of SDI's controversy even more so than questions of technical feasibility By detailing the participation of Western European countries in SDI research and development Bateman reframes space militarization in the 1970s and 1980s as an international phenomenon He further reveals that even though SDI did not come to fruition it obstructed diplomatic efforts to create new arms control limits in space Consequently Weapons in Space carries the legacy of SDI into the post Cold War era and shows how this controversial program continues to shape the global discourse about instability in space and the growing anxieties about a twenty first century space arms race

Space Weapons Earth Wars Robert Preston, Dana J.

Johnson, Sean J. A. Edwards, Michael D. Miller, Calvin Shipbaugh, 2002-02-13 This overview aims to inform the public discussion of space based weapons by examining their characteristics potential attributes limitations legality and utility The authors do not argue for or against space weapons nor do they estimate the potential costs and performance of specific programs but instead sort through the realities and myths surrounding space weapons in order to ensure that debates and discussions are based on fact

Norm Antipreneurs and the Politics of Resistance to Global Normative Change Alan

Bloomfield, Shirley V. Scott, 2016-10-04 Over recent decades International Relations scholars have investigated norm dynamics processes at some length with the norm entrepreneur concept having become a common reference point in the literature The focus on norm entrepreneurs has however resulted in a bias towards investigating the agents and processes of successful normative change This book challenges this inherent bias by explicitly focusing on those who resist normative change norm antipreneurs The utility of the norm antipreneur concept is explored through a series of case studies encompassing a range of issue areas and contributed by a mix of well known and emergent scholars of norm dynamics In examining the complexity of norm resistance particular attention is paid to the nature and intent of the actors involved in norm contestation the sites and processes of resistance the strategies and tactics antipreneurs deploy to defend the values and interests they perceive to be threatened by the entrepreneurs and whether it is the entrepreneurs or the antipreneurs who enjoy greater inherent advantages This text will therefore be of interest to scholars and students of International Relations International Law Political Science Sociology and History

International Regimes for the Final Frontier M. J.

Peterson, 2012-02-01 Neither rational choice theory with its emphasis on interest calculation nor sociological institutionalist

theory with its emphasis on identity defined rule following indicates how governments determine which of their multiple interests or identities are at stake in a particular situation or how they develop mutual comprehension of each other's goals

International Regimes for the Final Frontier addresses these gaps by tracing how governments approach an unfamiliar issue in this case international agreements regulating human activity in outer space between 1958 and 1988 and examines three ways situation definitions channel governments' approaches to issues or problems

Harnessing the Heavens Elwood L. White, 2006

Space, 1990

The Strategic Defense Initiative Edward Reiss, 1992-07-23

This history of the Strategic Defense Initiative ranges across politics economics strategic studies and international relations and provides the latest research into the SDI interest groups the distribution of contracts and the politics of influence It discusses the wider contexts of Star Wars such as alliance management marketing and domestic politics and its military spin offs especially for anti satellite ASAT and space control programmes The author tests the theoretical literature on the dynamics of the arms race by using SDI as a case study and draws evidence from sources such as congressional hearings interviews the trade press restricted briefing papers and documents obtained under the US Freedom of Information Act The book follows the fortunes of strategic defence into the changed global conditions of the 1990s following the collapse of the Soviet bloc the Gulf War and President Bush's announcement of a refocused SDI the Global Protection Against Limited Strikes GPALS

Borders and Border Politics in a Globalizing World Paul Ganster, David E. Lorey, 2005

Borders represent an intriguing paradox as globalization continues to leap barriers at a vigorous pace merging economies and cultures through world trade economic integration the mass media the Internet and increasingly mobile populations At the same time the political boundaries separating peoples remain pervasive and problematic

Borders and Border Politics in a Globalizing World offers a carefully selected group of readings to enhance student understanding of the complexities of border regions The reader brings together key writings on the histories of borders their social development their politics and the daily life that characterizes them The authors place their analyses of these issues in an international context stressing how borders influence and how they are influenced by global processes The selections provide a window on our current understanding of human interactions at and along national and interethnic boundaries interactions that will characterize borders and border politics for decades to come Drawing on a worldwide set of case studies this text divides border issues into seven thematic categories borders as barriers borders migrants and refugees borders and partitioned groups borders perceptions and culture borders and the environment borders goods and services and maritime and space borders

An excellent text for courses on boundaries ethnicity and international relations this collection of cutting edge information and analysis on borders and border politics in the context of ongoing globalization will shed light both upon international and subnational boundaries and upon the unfolding processes of globalization or decades to come Drawing on a worldwide set of case studies this text divides border issues into seven thematic categories borders as barriers borders migrants and refugees borders and partitioned groups

Space and Time under Persecution Guy Miron, 2023-09-19 A new history of how the Nazi era upended German Jewish experiences of space and time from eminent historian Guy Miron In *Space and Time under Persecution* Guy Miron considers how social exclusion economic decline physical relocation and later forced evictions labor and deportation under Nazi rule forever changed German Jews experience of space and time Facing ever mounting restrictions German Jews reimagined their worlds devising new relationships to traditional and personal space new interpretations of their histories and even new calendars to measure their days For Miron these tactics reveal a Jewish community's attachment to German bourgeois life as well as their defiant resilience under Nazi persecution

The ABM Treaty Walther Stützle, Bhupendra Jasani, Regina Cowen Karp, 1987 The current debate on the Anti Ballistic Missile Treaty a matter of considerable significance for East West relations and international security is examined by thirteen authors selected from the international community for their expertise In the introduction the three editors from the Stockholm International Peace Research Institute highlight the complexities of the problems involved and identify possible solutions Ambassadors Gerard Smith and Vladimir Semenov the two negotiators of the 1972 Treaty give their views and subsequent papers address the significance of the current US and Soviet interpretations of such issues as space based defences The grey areas in the Treaty are highlighted and the much neglected implications for

the international community in general and the small nuclear powers and alliances in particular are presented **Special Panel on the Strategic Defense Initiative** United States. Congress. House. Committee on Armed Services. Special Panel on the Strategic Defense Initiative,1989 *Government Birds* Martin Staniland,2003-09-16 Usually described as state industries European airlines have been criticized as uncompetitive overmanned and subsidized But this view begs the question of why and how the state became involved in air transport as well as the question of whether airlines could have succeeded in Europe and elsewhere without government support The first comparative study of the complicated history of relations between the state and the air transport industry in Europe the book travels from the earliest scheduled flights down to the era of liberalization and privatization in the 1990s Martin Staniland concentrates on four key countries France Germany the Netherlands and the United Kingdom exploring both the sources of support for airlines in Europe and the reasons why public ownership lost favor as the industry expanded In particular he examines links between the airlines on the one hand and national aircraft builders and ministries concerned with defense foreign policy and colonial administration on the other hand The author concludes by considering the crises and restructuring experienced by national airlines in the 1980s and 1990s and by exploring the related political battles over liberalization and privatization **The Army Lawyer**,1995 [The Road From Space: How To Find Yourself In The 21st Century](#) Seth Morris,2015-09-05 As human beings we are often plagued by worries about the future and are unsure of our place in the world Young and old we worry about being able to reclaim our destiny Some of us teeter in indecision while others are completely unsure of what steps to take and in which direction In our search for our place in this world we often have questions Why do I excel at job A and not job B I just graduated from college What do I do now What type of environment would give me the highest quality of life for my personality Astrology is the most targeted layered and accurate self help system in existence today However Self Help and Astrology are typically considered two different worlds of thought The two resources have not been married until now The Road from Space How to find yourself in the 21st century is an astrology self help book with practical application I will help to address the above questions and much much more
