Plott, 2000-12-01

The fourth and fifth volumes of the Global History of Philosophy are designated The Period of Scholasticism part one 800 1150 part two 1150 1350 in order to stress that the scholastic method with its emphasis on thesis antithesis and attempts at synthesis became universal throughout Eurasia Scholasticism should not be taken in the pejorative sense as the juggling of arguments by straw men but in the sense of a challenge even in our own era to work for consistent and comprehensive systematic synthesis All the older traditions need to be reinterpreted in terms of modern conditions which after all is what the Eurasian scholastics of these centuries were doing for their own time The major developments of this period are Monism in Many Moods during the ninth century through Exfoliation and Elaboration of those seminal systems in the tenth and eleventh centuries until the time of the Great Summas in the twelfth and thirteenth centuries It was during this
