Subcommittee on Select Education, 1977 *The Parent's Guide to Talking About Sex* Janet Rosenzweig, 2015-04-21 If your kids aren't learning about sex from you what are they learning about sex and who is teaching them Having the talk with your child does not have to be a terrifying and awkward event Armed with Dr Janet Rosenzweig's groundbreaking book you may find you never need to have the talk Dr Rosenzweig illustrates how you can help protect your children from sexual abuse trauma and bullying through your everyday interactions with them She walks you through the steps you can take to combine your own family's values with age appropriate information for children at all stages of development And you'll learn how to do so in a way that will improve the trust and communication between you and your child Dr Rosenzweig applies her decades of experience in child abuse prevention sexuality education and family services to help you identify the real threats to your children's safety and to protect them from becoming victims of sexual misinformation or exploitation From choosing a child's first daycare to meeting the multimedia challenges of adolescence *The Parent's Guide to Talking About Sex* will coach you to raise sexually safe and healthy sons and daughters

Sex Roles of Children in Contemporary Indian Society Sushila Srivastava, 1990 India has witnessed profound changes in almost every aspect of life The process of industrialization urbanisation and secularization have brought about socio psychological changes in the attitudes and values of people of this country especially among the urban population One of the changes is breaking down of traditional sex role differentiations resulting in an increased flexibility in the roles and activities considered permissible for each sex especially for girls and women Yet being still typically a traditional society the effect of these secular changes is unknown or remains a guess In this book the author attempts to answer the question as to how far these changes have affected the sex role behaviour of the Indian children The exhaustive review of empirical studies on sex roles is useful for those who wish to have a consolidated account of researches on sex roles carried out till now This book will be useful for parents teachers educators and students of Home Science Psychology Sociology and Anthropology *Children in the Global Sex Trade* Julia O'Connell Davidson, 2005 An account of the many and varied ways in which children become involved in the sex trade this work presents the global political and economic inequalities that underpin children's exploitation *Confirmation Hearings on Federal Appointments* United States. Revealing the Inner Worlds of Young Children Robert N. Emde, Dennis P. Wolf, David Oppenheim, 2003-09-25 This book reports the work of a 20 year collaboration between a multidisciplinary group of clinicians and developmental scientists who have created and investigated a new tool to elicit and analyze children's narratives This tool is the MacArthur Story Stem Battery a systematic collection of story beginnings that are referred to as stems These stems are designed to elicit information from children about their representational worlds This method is particularly exciting because using it allows developmental psychologists and others to gain information

directly from children about their emotional states and what they are able to understand and in turn to use this information to explore significant emotional differences among children This work will appeal to researchers and practitioners in developmental and clinical psychology Publishers Weekly ,1976 **Race in the Making** Lawrence A. Hirschfeld,1996 Race in the Making provides a new understanding of how people conceptualize social categories and shows why this knowledge is so readily recruited to create and maintain systems of unequal power Hirschfeld argues that knowledge of race is not derived from observations of physical difference nor does it develop in the same way as knowledge of other social categories Instead his central claim is that racial thinking is the product of a special purpose cognitive competence for understanding and representing human kinds The book also challenges the conventional wisdom that race is purely a social construction by demonstrating that a common set of abstract principles underlies all systems of racial thinking whatever other historical and cultural specificities may be associated with them Starting from the commonplace observation that race is a category of both power and the mind Race in the Making directly tackles this issue Through a sustained exploration of continuity and change in the child s notion of race and across historical variations in the race concept Hirschfeld shows that a singular commonsense theory about human kinds constrains the way racial thinking changes whether in historical time or during childhood After surveying the literature on the development of a cultural psychology of race Hirschfeld presents original studies that examine children s and occasionally adults representations of race He sketches how a jointly cultural and psychological approach to race might proceed showing how this approach yields new insights into the emergence and elaboration of racial thinking **The Publishers Weekly** ,1976 **The Living Church** ,1977-07 Jet ,1975-04-03 The weekly source of African American political and entertainment news Effect of Pornography on Women and Children United States. Congress. Senate. Committee on the Judiciary. Subcommittee on Juvenile Justice,1985 **SIECUS Report** ,1973 Handbook of Children, Culture, and Violence Nancy E. Dowd,Dorothy G. Singer,Robin Fretwell Wilson,2006 Each chapter contains recommendations for legislators policy makers researchers and families This book should be on the desk and minds of legislators attorneys social workers and other mental health professionals who encounter and wish to ameliorate the effects of violence in the lives of their young constituents clients and patients JOURNAL OF CHILD AND FAMILY STUDIES Questions relating to violence and children surround us in the media should V chips be placed in every television set How can we prevent another Columbine school shooting from occurring How should pornography on the internet be regulated The Handbook of Children Culture and Violence addresses these questions and more providing a comprehensive interdisciplinary examination of childhood violence that considers children as both consumers and perpetrators of violence as well as victims of it The Handbook offers much needed empirical evidence that will help inform debate about these important policy decisions Moreover it is the first single volume to consider situations when children are responsible for violence rather than focusing exclusively on occasions when they are victimized Providing the first

comprehensive overview of current research in the field the editors have brought together the work of a group of prominent scholars whose work is united by a common concern for the impact of violence on the lives of children The Handbook of Children Culture and Violence is poised to become the ultimate resource and reference work on children and violence for researchers teachers and students of psychology human development and family studies law communications education sociology and political science public policy It will also appeal to policymakers media professionals and special interest groups concerned with reducing violence in children s lives Law firms specializing in family law as well as think tanks will also be interested in the Handbook

The Rhetorical Power of Children's Literature John H. Saunders,2016-12-21 The Rhetorical Power of Children s Literature is an edited volume with contributions from established and new scholars of rhetoric offering case studies that analyze a full array of genres in children s literature from picture books to young adult novels Collectively this volume s contributions interrogate how children s literature is a powerful yet under examined space of rhetorical discourse that influences one of the most vulnerable segments of our population This book is singularly unique given that it will be the first collection of essays on children s literature from the distinct perspective of the field of Communication Beyond topical novelty the contributors

utilize a range of scholarly methods to analyze instances of the rhetoric of children's literature. Consequently, essays in this volume may be read for both their specific topical content and as exemplars for multiple methodological approaches to the study of the rhetoric of children's literature. Collectively, the contributors set out to contribute to our knowledge of how instances of children's literature operate as rhetorical discourses. The volume is organized by case studies approached through critical rhetorical lenses that analyze specific instances of children's literature from two distinct stages of children's developmental reading experiences, including pre-early literacy and fluent reading. Structurally, the book includes eight content chapters divided evenly, with four chapters analyzing books for young children and four chapters analyzing books targeting audiences from late childhood to adolescence. An overview of each content chapter accompanies this proposal.
