Looking After Nietzsche

Laurence A. Rickels

Looking After Nietzsche:

Looking After Nietzsche Laurence A. Rickels, 1990-01-01 This book like the post Heideggerian reception of Nietzsche rides out the splits and frays of the text offering an up to date look at international Nietzsche scholarship Included are topics such as the collaboration of German thought with the rise of National Socialism and the alliance between Nietzschean genealogy and Freudian culture criticism in regard to technology and the unconscious the status of moral imperatives from Kant to Heidegger and Heidegger s alleged rediscovery of Nietzsche as the last metaphysician *Looking After Nietzsche* is nonexclusionary in the risks it takes every thread of Nietzsche is pursued throughout its labyrinthine entanglements

Womanizing Nietzsche Kelly Oliver, 2016-02-11 In *Womanizing Nietzsche* Kelly Oliver uses an analysis of the position of woman in Nietzsche s texts to open onto the larger question of philosophy s relation to the feminine and the maternal Offering readings from Nietzsche Derrida Irigaray Kristeva Freud and Lacan Oliver builds an innovative foundation for an ontology of intersubjective relationships that suggests a new approach to ethics *Nietzsche's Animal Philosophy* Vanessa Lemm, 2009-08-25 Lemm consolidates her reputation as one of Nietzsche s most original attentive and lively readers *The Journal of Nietzsche Studies* This book explores the significance of human animality in the philosophy of Friedrich Nietzsche and provides the first systematic treatment of the animal theme in Nietzsche s body of work Vanessa Lemm argues that the animal is neither a random theme nor a metaphorical device in Nietzsche s thought Instead it stands at the center of his renewal of the practice and meaning of philosophy itself Lemm provides an original contribution to ongoing debates on the essence of humanism and its future At the center of this new interpretation stands Nietzsche s thesis that animal life and its potential for truth history and morality depends on a continuous antagonism between forgetfulness animality and memory humanity This relationship accounts for the emergence of humanity out of animality as a function of the antagonism between civilization and culture By taking the antagonism of culture and civilization to be fundamental for Nietzsche s conception of humanity and its becoming Lemm gives a new entry point into the political significance of Nietzsche s thought The opposition between civilization and culture allows for the possibility that politics is more than a set of civilizational techniques that seek to manipulate dominate and exclude the animality of the human animal By seeing the deep seated connections of politics with culture Nietzsche orients politics beyond the domination over life and instead offers the animality of the human being a positive creative role in the organization of life This book will appeal not only to those interested in Nietzsche but to anyone interested in the theme of the animal in philosophy literature cultural studies and the arts as well as those interested in the relation between biological life and politics *The Routledge Companion to Hermeneutics* Jeff Malpas, Hans-Helmuth Gander, 2014-11-20 *Hermeneutics* is a major theoretical and practical form of intellectual enquiry central not only to philosophy but many other disciplines in the humanities and social sciences With phenomenology and existentialism it is also one of the twentieth century s most important philosophical movements and includes major thinkers such as Heidegger

Gadamer and Ricoeur The Routledge Companion to Hermeneutics is an outstanding guide and reference source to the key philosophers topics and themes in this exciting subject and is the first volume of its kind Comprising over fifty chapters by a team of international contributors the Companion is divided into five parts main figures in the hermeneutical tradition movement including Heidegger Gadamer and Ricoeur main topics in hermeneutics such as language truth relativism and history the engagement of hermeneutics with central disciplines such as literature religion race and gender and art hermeneutics and world philosophies including Asian Islamic and Judaic thought hermeneutic challenges and debates such as critical theory structuralism and phenomenology **Historical Dictionary of Nietzscheanism** Carol Diethe,2013-12-19

Few philosophers have been as popular prolific and controversial as Friedrich Nietzsche who has left his imprint not only on philosophy but on all the arts Whether it is his concept of the *Übermensch* or his nihilistic view of the world Nietzsche's writings have aroused enormous interest as well as anathema in scholars for centuries This third edition of Historical Dictionary of Nietzscheanism covers the history of this philosophy through a chronology an introductory essay appendixes and an extensive bibliography The dictionary section has over 400 hundred cross referenced entries on his major writings his contemporaries and his successors This book is an excellent access point for students researchers and anyone wanting to know more about Friedrich Nietzsche Nietzsche's Corps/e Geoff Waite,1996 Appearing between two historical touchstones the alleged end of communism and the 100th anniversary of Nietzsche's death this book offers a provocative hypothesis about the philosopher's afterlife and the fate of leftist thought and culture At issue is the relation of the dead Nietzsche corpse and his written work corpus to subsequent living Nietzscheanism across the political spectrum but primarily among a leftist corps that has been programmed and manipulated by concealed dimensions of the philosopher's thought If anyone is responsible for what Geoff Waite maintains is the illusory death of communism it is Nietzsche the man and concept Waite advances his argument by bringing Marxist especially Gramscian and Althusserian theories to bear on the concept of Nietzscheanism But he also goes beyond ideological convictions to explore the vast Nietzschean influence that proliferates throughout the marketplace of contemporary philosophy political and literary theory and cultural and technocultural criticism In light of a philological reconstruction of Nietzsche's published and unpublished texts Nietzsche's Corps/e shuttles between philosophy and everyday popular culture and shows them to be equally significant in their having been influenced by Nietzsche in however distorted a form and in a way that compromises all of our best interests Controversial in its decelebration of Nietzsche this remarkable study asks whether the postcontemporary age already upon us will continue to be dominated and oriented by the haunting spectre of Nietzsche's corps/e Philosophers intellectual historians literary theorists and those interested in western Marxism popular culture Friedrich Nietzsche and the intersection of French and German thought will find this book both appealing and challenging **Nietzsche's Noontide** Friend Sheridan Hough,2010-11-01 **Nietzsche, Epistemology, and Philosophy of Science** B.E. Babich,2013-03-09

Nietzsche Epistemology and Philosophy of Science is the second volume of a collection on Nietzsche and the Sciences featuring essays addressing truth epistemology and the philosophy of science with a substantial representation of analytically schooled Nietzsche scholars This collection offers a dynamic articulation of the differing strengths of Anglo American analytic and contemporary European approaches to philosophy with translations from European specialists notably Carl Friedrich von Weizsäcker Paul Valadier and Walther Ch Zimmerli This broad collection also features a preface by Alasdair MacIntyre Contributions explore Nietzsche's contributions to the philosophy of language and epistemology and include essays on the social history of truth and the historical and cultural analyses of Serres and Baudrillard as well as new contributions to the philosophy of science including theological and hermeneutical approaches history of science the philosophy of medicine cognitive science and technology

Making Sense of Nietzsche Richard Schacht, 1995 In these essays by an acclaimed Nietzsche scholar Nietzsche emerges as no mere polemicist and iconoclast but rather as a genuine philosopher one of those rare thinkers whose thought opens the way to new understanding of things of great importance particularly with respect to human life and its enhancement Clearly explains some of the debates in Nietzsche scholarship Schacht does much to avoid professional tunnel vision and invite nonprofessionals to think about Nietzsche Kathleen Higgins author of Nietzsche's Zarathustra An excellent summary and response to the current Nietzsche wars I like the way that Schacht personally attempts to expound and explain Nietzsche and take on various would be experts and mistaken commentators Robert C Solomon Quincy Lee Centennial Professor University of Texas

Nietzsche's Engagements with Kant and the Kantian Legacy Marco Brusotti, Herman Siemens, João Constâncio, Tom Bailey, 2017-02-23 Nietzsche has often been considered a thinker independent of the philosophy of his time and radically opposed to the concerns and concepts of modern and contemporary philosophy But there is an increasing awareness of his sophisticated engagements with his contemporaries and of his philosophy's rich potential for debates with modern and contemporary thinkers Nietzsche's Engagements with Kant and the Kantian Legacy explores a significant field for such engagements Kant and Kantianism Bringing together an international team of established Nietzsche scholars who have done extensive work in Kant contributors include both senior scholars and young upcoming researchers from a broad range of countries and traditions Working from the basis that Nietzsche is better understood as thinking with and against Kant and the Kantian legacy they examine Nietzsche's explicit and implicit treatments of Kant Kantians and Kantian concepts as well as the philosophical issues that they raise for both Nietzschean and Kantian philosophy Divided into three volumes the focus is on specific areas and texts of Kant's philosophy Nietzsche Kant and the Problem of Metaphysics Nietzsche and Kantian Ethics Nietzsche and Kant on Aesthetics and Anthropology Each volume draws extensively on the flourishing recent literature from both analytic and continental traditions in English German and other languages By responding to scholarly interest in the critical relations between Nietzsche and Kant this series of volumes presents the first systematic study of the pairing of two major European thinkers

from the modern period **On Reading the Will** Jeremy Tambling, 2012 On Reading the Will studies the will will power and wilfulness the will to death or the will to power as well as lack of will It surveys many texts from Augustine Shakespeare Dickens Trollope George Eliot and D H Lawrence in order to analyse the history of its different meanings whether these imply rational or irrational drives or the sexual appetite or the testamentary will This last is a particularly interesting form of the will in that it asserts the desire to control and to have an identity beyond death Drawing on philosophies of the will in Schopenhauer and Nietzsche the book studies music as the embodied will in Wagner and Verdi Considering the law and its prohibitions as a form of the will it sees how these produce a perverse will Drawing on Freud and Lacan it studies interrelationships between the law which prohibits and the desire which wills how desire creates the law and the law desire What stands out is that the authors studied are fascinated by the will as unknowable and irresistible as rational and countermanding rationality as divided and imperious Chapters include how wills motivate plots in Shakespeare and the Victorian novel Discussion of opera and Nietzsche focuses on the will as an unconscious force Nietzsche and the Feminine Peter J. Burgard, 1994 In this innovative and wide ranging volume Peter Burgard has brought together new studies by outstanding scholars in philosophy feminism comparative literature and German studies **The Nietzsche Disappointment** Nickolas Pappas, 2005-05-05 The Nietzsche Disappointment confronts Nietzsche's recurrent symptomatic struggles with causal accounts His explanations of past and future raise high hopes when they fail they are responsible for profound disappointment **An Interpretation of Nietzsche's On the Uses and Disadvantage of History for Life** Anthony K. Jensen, 2016-05-12 With his An Interpretation of Nietzsche's On the Uses and Disadvantage of History for Life Anthony K Jensen shows how timely Nietzsche's second Untimely Meditation really is This comprehensive and insightful study contextualizes and analyzes a wide range of Nietzsche's earlier thoughts about history teleology typology psychology memory classical philology Hegelianism and the role historiography plays in modern culture On the Uses and Disadvantage of History for Life is shown to be a timely work too insofar as it weaves together a number of Nietzsche's most important influences and thematic directions at that time ancient culture science epistemology and the thought of Schopenhauer and Burckhardt Rather than dismiss it as a mere early work Jensen shows how the text resonates in Nietzsche's later perspectivism his theory of subjectivity and Eternal Recurrence And by using careful philological analysis of the text's composition history Jensen is in position to fully elucidate and evaluate Nietzsche's arguments in their proper contexts As such Jensen's Interpretation should restore Nietzsche's second Untimely Meditation to a prominent place among 19th Century philosophies of history *Remapping Reality* John A. McCarthy, 2006-01-01 This book is about intersections among science philosophy and literature It bridges the gap between the traditional cultures of science and the humanities by constituting an area of interaction that some have called a third culture By asking questions about three disciplines rather than about just two as is customary in research this inquiry breaks new ground and resists easy categorization It seeks to

answer the following questions What impact has the remapping of reality in scientific terms since the Copernican Revolution through thermodynamics relativity theory and quantum mechanics had on the way writers and thinkers conceptualized the place of human culture within the total economy of existence What influence on the other hand have writers and philosophers had on the doing of science and on scientific paradigms of the world Thirdly where does humankind fit into the total picture with its uniquely moral nature In other words rather than privileging one discipline over another this study seeks to uncover a common ground for science ethics and literary creativity Throughout this inquiry certain nodal points emerge to bond the argument cogently together and create new meaning These anchor points are the notion of movement inherent in all forms of existence the changing concepts of evil in the altered spaces of reality and the creative impulse critical to the literary work of art as well as to the expanding universe This ambitious undertaking is unified through its use of phenomena typical of chaos and complexity theory as so many leitmotifs While they first emerged to explain natural phenomena at the quantum and cosmic levels chaos and complexity are equally apt for explaining moral and aesthetic events Hence the title Remapping Reality extends to the reconfigurations of the three main spheres of human interaction the physical the ethical and the aesthetic or creative

Nietzsche and the Problem of Sovereignty Richard John White, 1997 From The Birth of Tragedy on Nietzsche worked to comprehend the nature of the individual Richard White shows how Nietzsche was inspired and guided by the question of personal sovereignty and how through his writings he sought to provoke the very sovereignty he described White argues that Nietzsche is a philosopher our contemporary age must therefore come to understand if we are ever to secure a genuinely meaningful direction for the future Profoundly relevant to our era Nietzsche's philosophy addresses a version of individuality that allows us to move beyond the self dispossession of mass society and the alternative of selfish individualism to fully understand how one becomes what one is A volume in the International Nietzsche Studies series edited by Richard Schacht

Dancing in Chains Joshua Foa Dienstag, 1997 Rejecting traditional distinctions between philosophy history and literature this book traces a broad connection between political identity and narrative in the field of political theory

Nietzsche's Naturalist Deconstruction of Truth Peter Bornedal, 2020-01-03 Nietzsche's Naturalist Deconstruction of Truth A World Fragmented in Late Nineteenth Century Epistemology offers a new interpretation of Nietzsche's discussions of truth and knowledge covering the period from his early essay On Truth and Lies in an Extra Moral Sense to his late notebooks It places these discussions in the context of the neo Kantian Naturalist Positivist and Pragmatic schools influential in Nietzsche's late nineteenth century Europe Peter Bornedal argues for a view of Nietzsche's epistemological thought as an elaboration of this paradigm proposing ideas that are anti metaphysical and anti theological in their polemic orientation and in general promoting new scientific naturalist ideals in the discussions of knowledge Bornedal suggests that the rational pursuit of these new ideals to the unencumbered mind logically leads to Nihilism in its most profound epistemological sense Nietzsche's critique of metaphysics is thus seen as having sprung from sources different from

and at times in patent opposition to more recent postmodern and deconstructionist critiques This book contextualizes Nietzsche in relation to a number of philosophical peers and juxtaposes him to contemporary thinkers in a way that resolves some of the difficulties that have plagued recent Nietzsche scholarship Lambent Traces Stanley Corngold,2009-01-10 On the night of September 22 1912 Franz Kafka wrote his story The Judgment which came out of him like a regular birth This act of creation struck him as an unmistakable sign of his literary destiny Thereafter the search of many of his characters for the Law for a home for artistic fulfillment can be understood as a figure for Kafka's own search to reproduce the ecstasy of a single night In Lambent Traces Franz Kafka the preeminent American critic and translator of Franz Kafka traces the implications of Kafka's literary breakthrough Kafka's first concern was not his responsibility to his culture but to his fate as literature which he pursued by exploring the limits of the human At the same time he kept his transcendental longings sober by noting with incomparable irony their virtual impossibility At times Kafka's passion for personal transcendence as a writer entered into a torturous and witty conflict with his desire for another sort of transcendence one driven by a modern Gnosticism This struggle prompted him continually to scrutinize different kinds of mediation such as confessional writing the dream the media the idea of marriage skepticism asceticism and the imitation of death Lambent Traces Franz Kafka concludes with a reconstruction and critique of the approaches to Kafka by such major critics as Adorno Gilman and Deleuze and Guattari Nietzsche's Zarathustra C. G. Jung,2012-01-12 As a young man growing up near Basel Jung was fascinated and disturbed by tales of Nietzsche's brilliance eccentricity and eventual decline into permanent psychosis These volumes the transcript of a previously unpublished private seminar reveal the fruits of his initial curiosity Nietzsche's works which he read as a student at the University of Basel had moved him profoundly and had a lifelong influence on his thought During the sessions the mature Jung spoke informally to members of his inner circle about a thinker whose works had not only overwhelmed him with the depth of their understanding of human nature but also provided the philosophical sources of many of his own psychological and metapsychological ideas Above all he demonstrated how the remarkable book Thus Spake Zarathustra illustrates both Nietzsche's genius and his neurotic and prepsychotic tendencies Since there was at that time no thought of the seminar notes being published Jung felt free to joke to lash out at people and events that irritated or angered him and to comment unreservedly on political economic and other public concerns of the time This seminar and others including the one recorded in Dream Analysis were given in English in Zurich during the 1920s and 1930s

Thank you extremely much for downloading **Looking After Nietzsche**. Maybe you have knowledge that, people have seen numerous times for their favorite books taking into account this Looking After Nietzsche, but stop stirring in harmful downloads.

Rather than enjoying a fine PDF afterward a cup of coffee in the afternoon, instead they juggled past some harmful virus inside their computer. **Looking After Nietzsche** is easily reached in our digital library an online access to it is set as public correspondingly you can download it instantly. Our digital library saves in combined countries, allowing you to acquire the most less latency period to download any of our books following this one. Merely said, the Looking After Nietzsche is universally compatible behind any devices to read.
