shaped the early medieval and medieval kingdoms of northern Europe **Courtyard Housing** Brian Edwards, 2006 This book demonstrates through discussions on sustainability and regional identity and via a series of case studies that the courtyard housing form has a future as well as a past **Power and Place in Europe in the Early Middle Ages** Jayne Carroll, Andrew Reynolds, Barbara Yorke, 2019-12-17 This book reveals a high degree of organisational capacity in early medieval societies It outlines a new agenda for assessing and interpreting early medieval power how it was formed how it functioned and how it developed across time providing the basis for the kingdoms of the European Middle Ages **The Halle Orphanage as Scientific Community** Kelly Joan Whitmer, 2015-05-12 Founded around 1700 by a group of German Lutherans known as Pietists the Halle Orphanage became the institutional headquarters of a universal seminar that still stands largely intact today It was the base of an educational charitable and scientific community and consisted of an elite school for the sons of noblemen schools for the sons of artisans soldiers and preachers a hospital an apothecary a bookshop a botanical garden and a cabinet of curiosity containing architectural models naturalia and scientific instruments Yet its reputation as a Pietist enclave inhabited largely by young people has prevented the organization from being taken seriously as a kind of scientific academy even though Kelly Joan Whitmer shows this is precisely what it was The Halle Orphanage as Scientific Community calls into question a long standing tendency to view German Pietists as anti science and anti Enlightenment arguing that these tendencies have drawn attention away from what was actually going on inside the orphanage Whitmer shows how the orphanage s identity as a scientific community hinged on its promotion of philosophical eclecticism as a tool for assimilating perspectives and observations and working to perfect one s abilities to observe methodically Because of the link between eclecticism and observation Whitmer reveals those teaching and training in Halle s Orphanage contributed to the transformation of scientific observation and its related activities in this period *The Courtyard Houses* Jørn Utzon, 2004 By looking at how people lived I quickly discovered that all the small gardens were filled with tool sheds and hobby sheds and old cars stood there and pleasure craft etc And so I designed a town plan and a house type that accepted that within their own area people could do as they pleased in their leisure time without upsetting their neighbours and without having any special easements such a house and such a town plan that respected this or assumed the individual right to enjoy private life but at the same time the resulting part of the town was then to have a common character as seen from outside so that it became a small community Soft City David Sim, 2019-08-20 Imagine waking up to the gentle noises of the city and moving through your day with complete confidence that you will get where you need to go quickly and efficiently Soft City is about ease and comfort where density has a human dimension adapting to our ever changing needs nurturing relationships and accommodating the pleasures of everyday life How do we move from the current reality in most cities separated uses and lengthy commutes in single occupancy vehicles that drain human environmental and community resources to support a soft city approach In *Soft City* David Sim partner and creative director at Gehl shows how

this is possible presenting ideas and graphic examples from around the globe He draws from his vast design experience to make a case for a dense and diverse built environment at a human scale which he presents through a series of observations of older and newer places and a range of simple built phenomena some traditional and some totally new inventions Sim shows that increasing density is not enough The soft city must consider the organization and layout of the built environment for more fluid movement and comfort a diversity of building types and thoughtful design to ensure a sustainable urban environment and society Soft City begins with the big ideas of happiness and quality of life and then shows how they are tied to the way we live The heart of the book is highly visual and shows the building blocks for neighborhoods building types and their organization and orientation how we can get along as we get around a city and living with the weather As every citizen deals with the reality of a changing climate Soft City explores how the built environment can adapt and respond Soft City offers inspiration ideas and guidance for anyone interested in city building Sim shows how to make any city more efficient more livable and better connected to the environment

Building Jewish in the Roman East Peter Richardson, 2004

Archaeology has unearthed the glories of ancient Jewish buildings throughout the Mediterranean but what has remained shrouded is what these buildings meant Building Jewish first surveys the architecture of small rural villages in the Galilee in the early Roman period before examining the development of synagogues as Jewish associations Finally Building Jewish explores Jerusalem s flurry of building activity under Herod the Great in the first century BCE Richardson s careful work not only documents the culture that forms the background to any study of Second Temple Judaism and early Christianity but also succeeds in demonstrating how architecture itself like a text conveys meaning and thus directly illuminates daily life and religious thought and practice in the ancient world

Peasant and Empire in Christian North Africa Leslie Dossey, 2010 This remarkable history foregrounds the most marginal sector of the Roman population the provincial peasantry to paint a fascinating new picture of peasant society Making use of detailed archaeological and textual evidence Leslie Dossey examines the peasantry in relation to the upper classes in Christian North Africa tracing that region s social and cultural history from the Punic times to the eve of the Islamic conquest She demonstrates that during the period when Christianity was spreading to both city and countryside in North Africa a convergence of economic interests narrowed the gap between the rustici and the urbani creating a consumer revolution of sorts among the peasants This book s postcolonial perspective points to the empowerment of the North African peasants and gives voice to lower social classes across the Roman world
