The Devil's Doctor Philip Ball, 2006-04-18 A vibrant original portrait of a man of contradictions the Renaissance era Swiss father of modern medicine Publishers Weekly starred review Philippus Aureolus Theophrastus Bombast von Hohenheim who called himself Paracelsus stands at the cusp of medieval and modern times A contemporary of Luther an enemy of the medical establishment a scourge of the universities an alchemist an army surgeon and a radical theologian he attracted myths even before he died His fantastic journeys across Europe and beyond were said to be made on a magical white horse and he was rumored to carry the elixir of life in the pommel of his great broadsword His name was linked with Faust who bargained with the devil Who was the man behind these stories Some have accused him of being a charlatan a windbag who filled his books with wild speculations and invented words Others claim him to be the father of modern medicine Philip Ball exposes a more complex truth in The Devil's Doctor one that emerges only by entering Paracelsus's time He explores the intellectual political and religious undercurrents of the sixteenth century and looks at how doctors really practiced at how people traveled and at how wars were fought For Paracelsus was a product of an age of change and strife of renaissance and reformation And yet by uniting the diverse disciplines of medicine biology and alchemy he assisted almost despite himself in the birth of science and the emergence of the age of rationalism Praise for The Devil's Doctor An enlivening portrait that will spark interest in Paracelsus's role in the rise of science Booklist A true iconoclast Paracelsus inhabited an ideological landscape somewhere between the medieval and the modern Ball effectively places Paracelsus in the larger context of Renaissance magic and philosophy and of a turbulent period Worth the effort Kirkus

Reviews **Islam in its International Context** Chris Flood, Stephen Hutchings, Galina Miazhevich, 2011-05-25 Changing attitudes to Islam profoundly influence political cultures and national identities as well as policies regarding immigration security and multiculturalism. Given that the majority of relevant scholarly works have either adopted monocultural perspectives or approached Islam in its general non-nation-specific dimension, the need for in-depth multi-nation studies is urgent. Islam itself and responses to its rise are becoming increasingly internationalised. It is therefore important that analyses of Islam-related phenomena are sensitive to the particular cultures in which they are encountered. This volume does precisely that. Contributions, some explicitly comparative, others implicitly so, cover perspectives from across Europe, the USA and the Middle East, along with new treatments of the rich diversity to be found in Islamic art and discussions of interfaith exchanges. They also represent a range of disciplinary approaches. Among the many issues addressed are the challenges posed by the rise of Muslim radicalism to multicultural societies, various media treatments of the War on Terror, the national specificities of Islamophobic xenophobia, contemporary visual arts in Islamic societies, differing attitudes to the translation of religious texts. The authors include authoritative international experts balanced by promising younger scholars. History of the Christian Church: The Reformation, 1517-1648 George Herbert Dyer, 1903 **The Saved and the Damned** Thomas Kaufmann, 2023. Leading scholar Thomas Kaufmann argues that the main motivations behind the Reformation rest in religion itself: the Reformers were concerned with the salvation of the soul. *A History of Modern Europe from the Capture of Constantinople by the Turks to the Treaty of Berlin, 1878* Sir Richard Lodge, 1890 Antifraternalism and Anticlericalism in the German Reformation Geoffrey Dipple, 2016-12-05. Many of the leading figures of the Reformation and many of their most able opponents came from among the ranks of the Franciscan Order. This Order became the focus of attack in a pamphlet war waged against it in 1523 by converts to the Reformation. These criticisms were based on arguments by Luther in his *Judgement on Monastic Vows* and the pamphlets provided an important channel for these views. Luther's arguments were also reinforced by criticisms of the mendicant orders drawn from medieval polemical and satirical literature. The campaign of 1523 brought together both Reformation and pre-Reformation anticlerical themes. In this book, Geoffrey Dipple looks at the perception of the Franciscan order in the 15th and 16th centuries, placing the attacks firmly in the context of late medieval inter-clerical rivalries. He looks particularly at the anticlerical polemics of one of the primary participants, Johann Eberlin von G nzburg, the most vocal of the Franciscan's critics. **The Routledge History of the Devil in the Western Tradition** Richard Raiswell, Michelle D. Brock, David R. Winter, 2025-05-29. Covering a period of 2000 years, this book offers an interdisciplinary exploration of the devil's role in the Western tradition and draws from history, religion, art, literature, media studies and anthropology to provide a multifaceted view of the devil over time. *The Routledge History of the Devil in the Western Tradition* examines topics such as the devil's scriptural origins, medieval development and role in witch hunting and possession cases, as well as the influence of the demonic on contemporary issues like terrorism, political polarisation and

digital culture Collectively this volume demonstrates that the demonological imagination has served as part of the glue holding Western societies together While contexts misfortunes and anxieties have shifted according to time and place many of the dynamics that underlie the devil s construction and detection have important continuities This book then provides an innovative history of the anti West the West as seen through its anxieties fears and attempts to define and police itself and its boundaries With contributions from 28 leading scholars in the field this volume is of interest to all students and scholars of the devil in the Western world *The German revolt, 1517-1527* Mandell Creighton,1894 **Confessionalization in Europe, 1555-1700** John M. Headley,Hans J. Hillerbrand,2017-03-02 Confessionalization in Europe 1555 1700 brings together a closely focused set of essays by leading scholars from the USA UK and Europe in memory of Bodo Nischan They address what historians of the Early Modern period have recently come to define as the pre eminent issue in the history of the Reformation as they turn their emphases from the earlier part of the 16th century to the relatively neglected latter half of the century By the time of his death Bodo Nischan had distinguished himself as a significant contributor to this central problem of confessionalization The concept involves the practice of confession building which in relation to that of social disciplining promoted interrelated processes contributing decisively to the formation of confessional churches greater social cohesion and the emergence of the Early Modern absolute state Many religious practices earlier considered as adiaphora indifferent matters now became treated as marks of demarcation between the emerging Protestant confessional churches and at the same time politicized as the early modern state sought to impose greater social control Through the analysis of such liturgical ritual and ceremonial practices Nischan helped show the way towards a better understanding of the Reformation s engagement with the people These are the themes treated in this volume [A History of the Reformation](#) Thomas Martin Lindsay,1906 **History of the Christian Church** Philip Schaff,1888 **History of the Christian Church: Modern Christianity: the German reformation, 1517-1530** Philip Schaff,1910 **Pocket Dictionary of the Reformed Tradition** Kelly M.
