Beyond the Magic Bullet Raymond Chang, 2012-05-17 While scientists win occasional skirmishes in the battle against cancer the overall war continues to go badly Stories abound about revolutionary drugs that may be available in the future but offer no real help to those who have cancer today At present conventional approaches continue to rely on a narrowly focused strategy of treatments with doctors using at best only one or two drugs or other therapies at a time While this may be acceptable in a laboratory setting or a clinical trial it has done little to diminish the number of people who die each year from this dread disease Recently however conventional medicine s core strategy has been re examined and a new potentially more effective approach has emerged one that combines the best of Eastern wisdom with Western science

Beyond the Magic Bullet The Anti Cancer Cocktail by Dr Raymond Chang takes a penetrating look at this bold new way of treating cancer The book begins by examining modern medicine s use of surgery radiation chemotherapy hormone therapy and targeted drugs in the war against cancer It then offers a new therapy based on the knowledge that certain off label drugs nutrients and therapies are each somewhat effective against cancer By combining these therapeutic agents into a cocktail doctors have found that they can attack the cancer all at once on many different levels and at several different angles with the goal of overwhelming the disease Dr Chang not only discusses the effectiveness of the cocktail but also provides an examination of the most valuable agents available For over a thousand years Traditional Chinese Medicine has used the cocktail approach to safely and effectively fight disease Throughout the world the most successful treatments for HIV and Hepatitis C are based on this strategy

Beyond the Magic Bullet The Anti Cancer Cocktail leads the way to a bright new future of hope and healing
