Lisa M. Steinman

Made In America Science Technology And American Modernist Poets:

Made in America Lisa Malinowski Steinman,1987 Analyzes the poetry of William Carlos Williams Marianne Moore and Wallace Stevens and describes their interest in science and technology **Made in America** Lisa M. Steinman,1989-08-01

Modern American Poetry and the Architectural Imagination Jo Gill,2023 Modern American Poetry and the Architectural Imagination The Harmony of Forms assesses the relationship between architectural and poetic innovation in the United States across the twentieth century Taking the work of five key poets as case studies and drawing on the work of a rich range of other writers architects artists and commentators this study proposes that by examining the sustained and productive if hitherto overlooked engagement between the two disciplines we enrich our understanding of the complexity and interrelationship of both The book begins by tracing the rise of what was conceived of as modern and often international style architecture and by showing how poetry and architecture in the early decades of the century developed in dialogue and within a shared and often transnational context It then moves on to examine the material aesthetic and social conditions that helped shape both disciplines offering new readings of familiar poems and bringing other pertinent resources to light It considers the uses to which poets of the period put the insights of architecture and vice versa In closing Gill turns to modern and contemporary architects written accounts of their own practice in memoirs and other commentaries and examines how they have assimilated or resisted the practice and vision of poetry *Modernism, Mass Culture and Professionalism* Thomas F. Strychacz,1993-07-30 A study of four modernist writers and their relationship to their critics and era *Encyclopedia of American Poetry: The Twentieth Century* Eric L. Haralson,2014-01-21 The Encyclopedia of American Poetry The Twentieth Century contains over 400 entries that treat a broad range of individual poets and poems along with many articles devoted to topics schools or periods of American verse in the century Entries fall into three main categories poet entries which provide biographical and cultural contexts for the author s career entries on individual works which offer closer explication of the most resonant poems in the 20th century canon and topical entries which offer analyses of a given period of literary production school thematically constructed category or other verse tradition that historically has been in dialogue with the poetry of the United States *The Gospel of Beauty in the Progressive Era* L. Szeffel,2011-05-09 Szeffel investigates the use of poetry in addressing political reform at the turn of the twentieth century It charts the work of poets and editors many of whom were women and minorities who created a network of organizations to nurture writers who addressed the problems wrought by Progressive era capitalism [Mechanical Occult](#) Alan Ramón Clinton,2004 In the late nineteenth and early twentieth centuries technology and spirituality formed uncanny alliances in countless manifestations of automatism From Victorian mediums to the psychiatrists who studied them from the Fordist assembly line to the Hollywood studios that adopted its practices from Surrealism on the left to Futurism and Vorticism on the right the unpredictable paths of automatic practice and ideology present a means by which to explore both the utopian and dystopian possibilities of technological and

cultural innovation Focusing on the poetry of T S Eliot Ezra Pound and William Butler Yeats Alan Ramon Clinton argues that given the wide reaching influence of automatism as much can be learned from these writers means of production as from their finished products At a time when criticism has grown polarized between political and aesthetic approaches to high modernism this book provocatively develops its own automatic procedures to explore the works of these writers as fields rich in potential choices some more spectral than others

Resistance to Science in Contemporary American Poetry Bryan Walpert, 2011-09-26 This book examines types of resistance in contemporary poetry to the authority of scientific knowledge tracing the source of these resistances to both their literary precedents and the scientific zeitgeists that helped to produce them Walpert argues that contemporary poetry offers a palimpsest of resistance using as case studies the poets Alison Hawthorne Deming Pattiann Rogers Albert Goldbarth and Joan Retallack to trace the recapitulation of romantic arguments inherited from Keats Shelly and Coleridge which in turn were produced in part in response to Newtonian physics modernist arguments inherited from Eliot and Pound arguments influenced in part by relativity and quantum theory and postmodernist arguments arguments informed by post structuralist theory e g Barthes Derrida Foucault with affinities to arguments for the limitations of science in the philosophy sociology and rhetoric of science Some of these poems reveal the discursive ideologies of scientific language reveal in other words the performativity of scientific language In doing so these poems themselves can also be read as performative acts and therefore as forms of intervention rather than representation Reading Retallack alongside science studies scholar Karen Barad the book concludes by proposing that viewing knowledge as a form of intervention rather than representation offers a bridge between contemporary poetry and science

The Films of Stan Brakhage in the American Tradition of Ezra Pound, Gertrude Stein and Charles Olson R. Bruce Elder, 2011-08-26 Since the late 1950s Stan Brakhage has been in the forefront of independent filmmaking His body of work some seventy hours is one of the largest of any filmmaker in the history of cinema and one of the most diverse Probably the most widely quoted experimental filmmaker in history his films typify the independent cinema Until now despite well deserved acclaim there has been no comprehensive study of Brakhage s oeuvre The Films of Stan Brakhage in the American Tradition fills this void R Bruce Elder delineates the aesthetic parallels between Brakhage s films and a broad spectrum of American art from the 1920s through the 1960s This book is certain to stir the passions of those interested in artistic critique and interpretation in its broadest terms

Slapstick Modernism William Solomon, 2016-06-15 Slapstick comedy landed like a pie in the face of twentieth century culture Pratfalls percolated alongside literary modernism throughout the 1920s and 1930s before slapstick found explosive expression in postwar literature experimental film and popular music William Solomon charts the origins and evolution of what he calls slapstick modernism a merging of artistic experimentation with the socially disruptive lunacy made by the likes of Charlie Chaplin Romping through texts films and theory Solomon embarks on an intellectual odyssey from the high modernism of Dos Passos and Williams to the late modernism of the Beats and Burroughs before a

head on crash into the raw power of punk rock Throughout he shows the links between the experimental writers and silent screen performers of the early century and explores the potent cultural undertaking that drew inspiration from anarchical comedy after World War II

Reviewing **Made In America Science Technology And American Modernist Poets**: Unlocking the Spellbinding Force of Linguistics

In a fast-paced world fueled by information and interconnectivity, the spellbinding force of linguistics has acquired newfound prominence.
