Exploring Megalithic Europe Julian Heath, 2019-11-07 Abundant prehistoric remains survive in the wide landscapes of Europe but none are arguably as fascinating or awe inspiring as the megalithic after the Greek megas great and lithos stone monuments built by the people who lived here during the three hugely important periods of European prehistory known respectively as the Neolithic the Copper Age and the Bronze Age These huge prehistoric stone structures can still be found

scattered in their thousands across Europe and provide a tentative but evocative link to their builders and to Europe's distant past. From the Mediterranean islands to the colder climes of Scandinavia, *Exploring Megalithic Europe* takes readers to many European countries, examining both famous and lesser-known megalithic monuments and looking at what insights these remarkable reminders of prehistoric life may provide into the ancient communities responsible for their construction.

Runes Michael P. Barnes, 2012. Offers a full introduction to and survey of runes and runology: their history, how they were used, and their interpretation. Runes, often considered magical symbols of mystery and power, are in fact an alphabetic form of writing. Derived from one or more Mediterranean prototypes, they were used by Germanic peoples to write different kinds of Germanic language, principally Anglo-Saxon and the various Scandinavian idioms, and were carved into stone, wood, bone, metal, and other hard surfaces. Types of inscription range from memorials to the dead through Christian prayers and everyday messages to crude graffiti. First reliably attested in the second century AD, runes were in due course supplanted by the Roman alphabet, though in Anglo-Saxon England they continued in use until the early eleventh century, in Scandinavia until the fifteenth, and later still in one or two outlying areas. This book provides an accessible general account of runes and runic writing from their inception to their final demise. It also covers modern uses of runes and deals with such topics as encoded texts, rune names, how runic inscriptions were made, runological method, and the history of runic research. A final chapter explains where those keen to see runic inscriptions can most easily find them. Professor MICHAEL P. BARNES is Emeritus Professor of Scandinavian Studies, University College London.

Art and Architecture in Neolithic Orkney Antonia Thomas, 2016-09-26. This book offers a groundbreaking analysis of Neolithic art and architecture in Orkney, focussing upon the incredible collection of hundreds of decorated stones being revealed by the current excavations at the Ness of Brodgar.
