America during the 1960s exploded Antiwar protesters wearing bell bottom jeans and long hair hurled taunts and rocks at another group of young Americans National Guardsmen sporting gas masks and rifles At half past noon violence unfolded with chaotic speed as guardsmen many of whom had joined the Guard to escape the draft opened fire on the students Two reductive narratives ensued one that lethal state violence targeted Americans who spoke their minds the other that law enforcement gave troublemakers the comeuppance they deserved For over fifty years little middle ground has been found due to incomplete and sometimes contradictory evidence Kent State meticulously re creates the divided cultural landscape of America during the Vietnam War and heightened popular anxieties around the country On college campuses teach ins sit down strikes and demonstrations exposed the growing rift between the left and the right Many students opposed the war as unnecessary and unjust and were uneasy over poor and working class kids drafted and sent to Vietnam in their place Some developed a hatred for the military the police and everything associated with authority while others resolved to uphold law and order at any cost Focusing on the thirteen victims of the Kent State shooting and a painstaking reconstruction of the days surrounding it historian Brian VanDeMark draws on crucial new research and interviews including for the first time the perspective of guardsmen who were there The result is a complete reckoning with the tragedy that marked the end of the sixties
