My Medical Education Dr Pats Adventures

My Medical Education Dr Pats Adventures:

My Medical Education Pat Killeen, 2001-12-01 *My Medical Education* is the true autobiography of a woman's struggle to become a medical doctor in the sixties. It encompasses Pat's adventures during college, medical school, internship, residency, and fellowship, and triumphs when Pat becomes a pediatric radiologist. **Leadership in Anaesthesia** Berend

Mets, 2020-08-19 This history of medicine collection presents the biographies of five pioneering anesthetists through the lens of leadership. Starting with William Morton who discovered ether anesthesia in 1846, the book continues with an account of John Snow who studied both chloroform and cholera and became the world's first epidemiologist. Three previously untold complete biographies follow to illustrate the transformation of the crude practice of Anesthesia to the sophisticated medical specialty of Anesthesiology of today. Based on original archival research, the life stories of Arthur Guedel (famous for his dunked dog demonstrations), Virginia Apgar (who developed the APGAR Score) and Bjørn Ibsen (the father of intensive care) are related. The book closes with *A Leadership Reckoning*, the author's comparative analysis of each pioneer's leadership capacity based on the telling of their histories, and concludes that leadership just like beauty can manifest differently in different individuals. **The Adventurous Traveler's Guide to Health** Christopher Sanford, M.D., 2008-05-08

The *Adventurous Traveler's Guide to Health* is just what every traveler needs: a straight forward look at what you can do to stay healthy during your travels from start to finish. Whether headed to the urban centers of Africa or the jungles of southeast Asia, there are precautions to be taken even before setting foot on a plane, as well as important things to remember once your travels are over. Chris Sanford aids travelers in first finding a travel health specialist and then knowing exactly which questions to ask. The *Adventurous Traveler's Guide to Health* will also serve as a take along guide to help deal with illnesses or symptoms that may arise while you're on the road, and as a post trip reference for any delayed symptoms. Aside from infectious diseases, Sanford also looks at the more common and overlooked problems travelers are likely to encounter, such as health risks in cities, pollution, and motor vehicle accidents. For example, traveling if chronically ill or immunocompromised, and high altitude sickness. Each of the book's chapters includes a question and answer section based on real questions that Dr. Sanford's patients have asked him. General travelers, including students going abroad to study or backpack through the developing world, and travelers who want to get off the beaten path, as well as those who explore the cities of the world, will find this an invaluable resource. **Adventures of a Plastic Surgeon** Kurt J. Wagner, 2012-03-20

A popular and controversial Beverly Hills surgeon for over 30 years, this fifth generation physician and Holocaust survivor is the atypical American success story brimming with fascinating stories and chutzpah. Outspoken and flamboyant, yet driven by the need to help everyone, Kurt Wagner is clearly a man willing to take risks for his art. His breast and chin implant designs are in universal use, and his techniques and lifestyle have been the subject of many television, newspaper, and magazine pieces. Many Hollywood celebrities can be counted in his cast of over 20,000 patients, as well as a litany of plastic surgeons and their families. He is
