Susan Amirian,2022-10-21 Just a Dog Arnold Arluke,2006-06-16 Psychiatrists define cruelty to animals as a psychological problem or personality disorder Legally animal cruelty is described by a list of behaviors In Just a Dog Arnold Arluke argues that our current constructs of animal cruelty are decontextualized imposed without regard to the experience of the groups committing the act Yet those who engage in animal cruelty have their own understandings of their actions and of themselves as actors In this fascinating book Arluke probes those understandings and reveals the surprising complexities of our relationships with animals Just a Dog draws from interviews with more than 250 people including humane agents who enforce cruelty laws college students who tell stories of childhood abuse of animals hoarders who chronically neglect the welfare of many animals shelter workers who cope with the ethics of euthanizing animals and public relations experts who use incidents of animal cruelty for fundraising purposes Through these case studies Arluke shows how the meaning of cruelty reflects and helps to create identities and ideologies

Live Long And . . . William Shatner, David Fisher, 2025-09-23 Star Trek legend and veteran author William Shatner discusses the meaning of life finding value in work and living well whatever your age I have always felt William Shatner says early in his newest memoir that like the great comedian George Burns who lived to 100 I couldn't die as long as I was booked And Shatner is always booked Still a brief health scare in 2016 forced him to take stock After mulling over the lessons he's learned the places he's been and all the miracles and strange occurrences he's witnessed over the course of an enduring career in Hollywood and on the stage he arrived at one simple rule for living a long and good life don't die It's the only one size fits all advice Shatner argues in *Live Long and What I Learned Along the Way* because everyone has a unique life but to help us all out he's more than willing to share stories from his unique life With a combination of pithy humor and thoughtful vulnerability Shatner lays out his journey from childhood to peak stardom and all the bumps in the road Sometimes the literal road as in the case of his 2400 mile motorcycle trip across the country with a bike that didn't function William Shatner is one of our most beloved entertainers and he intends never to stop entertaining His funny provocative and poignant reflections offer an unforgettable read about a remarkable man

Finding Jesus on Upside Down Days Jill Miller, 2022-10-24 What do you do when life seems to be topsy turvy Come to the barnyard with Jill Miller and meet her friends the animals who God uses to teach us about him and how to have peace in trusting him In this 52 week family devotional Jill Miller takes care of her animals enjoying what the Creator has made God takes her upside down soul and flips it *There Are No Sad Dogs in Heaven* Sonya Fitzpatrick, 2013-09-03 Our pets are part of the family For many they're as close as children for some they may be our only children And while most of us can expect that our children will outlive us sadly our pets almost never do Losing a pet can be as difficult as losing any other family member we grieve we miss them and mostly we want closure to know that our furry feathered or scaled friends are okay wherever they are For years animal communicator Sonya Fitzpatrick has helped pet owners cope with the loss of their beloved companions Many of them ask the same questions Is my pet happy Why did this happen Is it okay to get another pet Using her personal experiences as well as the stories of the families she's worked with Sonya sheds some light on the questions that every grieving pet owner has and assures the reader that there are in fact no sad dogs or cats or birds or turtles or horses or cows in heaven

The Wildest Game Daniel P. Mannix, Peter Ryhiner, 2015-02-24 Peter Ryhiner hero adventurer and romantic was one of the world's most active wild animal collectors Born in Basel Switzerland on January 1 1920 Peter knew by the time he was eight years old that he wanted to be a naturalist and explorer and thought about nothing else His parents listened to him with good natured amusement but were not so amused when his interests caused him to flunk out of two schools and precipitated his expulsion from a third for truancy Eventually throwing up their hands in frustration his family cut off his funds and Peter had to use all his ingenuity to figure out how to continue collecting and studying animals including breeding and developing unusual strains of mice taming adders and holding tortoise races By the age of twenty after a brief stint in the calvary during WW II and some time spent

working for Geigy a Swiss chemical company he and an associate from Geigy s began importing animals as a side venture and Peter was soon launched in the animal business His journeys led him around the globe straight through Europe South America Africa and Asia where he captured and sold thousands of animals to zoos and wildlife parks His adventures were astonishing trampled crushed chased bitten and almost drowned the animals he sought not only provided Peter with a lucrative though unpredictable career but repeatedly inspired a greater and greater curiosity and love for the wild animals of the world Peter Ryhiner rarely carried a gun his intention was not to harm but to study and learn and to educate others and in fact he was a man with a vision well ahead of his time As his success grew he was sought as a lecturer and made many television appearances Soon however currency restrictions conservation laws regulations against importing or exporting many species and transportation costs took their toll Although increased awareness and protection of wild animals was desperately needed new laws and higher costs meant that Peter Ryhiner and other wild animal collectors of the time gradually faded into oblivion

*Animals as
Guides for the Soul* Susan Chernak McElroy, 1999-08-31 In her New York Times bestseller *Animals as Teachers and Healers*
Susan Chernak McElroy movingly explored the wide and enriching horizons of human relationships with animals In this new
volume of reflections and true animal stories she invites us to broaden and deepen that relationship While living with her
husband and animals on a farm in Oregon McElroy pondered the ancient bonds that connect humans and animals the healing
gifts of animals the genius of people who talk to them and the power of animal messengers She also asked herself the tough
questions that engage every true animal lover How can we soothe our anguish and guilt when a loved animal suffers or dies
How do we atone for our mistakes When are animals prisoners and when are they fulfilled Is it moral to eat other beings And
how can we go about transforming our relationship with animals Through daily experiences with the animals around her and
those in her dreams along with compelling true stories sent to her by readers McElroy began to find answers She discovered
that animals are guides in the development of our souls A frail llama teaches lessons of joy and unconditional love a barn cat
proves that service need not be imprisonment but fulfillment a mortally injured hawk infuses a cancer patient with renewed
strength and faith an attentive rabbit awakens an abused child from a trance of sadness and a skinny white horse does more
for a damaged six year old boy in one hour than any human has done in six years In this deeply personal yet universal
testament to the profound connection between animals and humans there is wisdom and blessing As the author reminds us
the fingerprint of God is often a pawprint

Emergence in Science and Philosophy Antonella Corradini, Timothy
O'Connor, 2010-06-18 The concept of emergence has seen a significant resurgence in philosophy and the sciences yet debates
regarding emergentist and reductionist visions of the natural world continue to be hampered by imprecision or ambiguity
Emergent phenomena are said to arise out of and be sustained by more basic phenomena while at the same time exerting a
top down control upon those very sustaining processes To some critics this has the air of magic as it seems to suggest a kind
of circular causality Other critics deem the concept of emergence to be objectionably anti naturalistic Objections such as
these have led many thinkers to construe emergent phenomena instead as coarse grained patterns in the world that while
calling for distinctive concepts do not disrupt the ordinary dynamics of the finer grained more fundamental levels Yet
reconciling emergence with a presumed pervasive causal continuity at the fundamental level can seem to deflate emergence
of its initially profound significance This basic problematic is mirrored by similar controversy over how best to characterize
the opposite systematizing impulse most commonly given an equally evocative but vague term reductionism The original

essays in this volume help to clarify the alternatives inadequacies in some older formulations and arguments are exposed and new lines of argument on behalf the two visions are advanced *The Philippine Journal of Science* ,1910 A memorial number was issued with v 7 **Soul Companions** Karen Sawyer,2012-11-01 You are never alone whatever your nationality religion or belief you have a spirit guide to assist your journey through life A spirit guide doesn t have to be dead everything that lives has a spirit that could potentially be a spiritual guide including pets and animals plants and elemental and otherworldly spirit allies We can also be our own guides and be guides to other people This collection of spirit guide encounters from around the world will inspire you in your own quest for spirit guide contact with practical how to advice Learn how to recognise the signs and talk with the spirit beings guiding your life This diverse collection of over 40 experiences united in one book will inspire you on your spiritual path to know that you are not alone but that we are all one
