Histories of Nationalism beyond Europe Jan Záhorský, Antonio M. Morone, 2022-07-08 This edited collection explores varying shapes of nationalism in different regional and historical settings in order to analyse the important role that nationalism has played in shaping the contemporary world Taking a global approach the collection includes case studies from the Middle East Africa Asia and North America Unique not only in its wide range of geographically diverse case studies this book is also innovative due to its comparative approach that combines different perspectives on how nations have been understood and how they came into being highlighting the transnational connections between various countries The authors examine what is meant by the concepts of nation and national identity discussing themes such as citizenship ethnicity historical symbols and the role of elites By exploring these entangled categories of nationalism the authors argue that throughout history elites have created artificial versions of nationalism through symbolism and mythology which has led to nationalism being understood through social constructivist or primordialist lenses This diverse collection will appeal to researchers studying nationalism including historians political scientists and anthropologists

Nationalisation Richard J. Grant, 1994      State And Market In Postapartheid South Africa Merle Lipton, Charles

Simkins,2019-07-11 This book argues that South Africa experienced extensive periods of trade liberalisation in the 1970s and 1980s It discusses the libertarian analysis of state failure particularly the libertarian argument that market failures are less serious and less extensive than was once thought *The Opening of the Apartheid Mind* Heribert Adam,Kogila Moodley,2023-12-22 Refusing to be governed by what is fashionable or inoffensive Heribert Adam and Kogila Moodley frankly address the passions and rationalities that drive politics in post apartheid South Africa They argue that the country's quest for democracy is widely misunderstood and that public opinion abroad relies on stereotypes of violent tribalism and false colonial analogies Adam and Moodley criticize the personality cult surrounding Nelson Mandela and the accolades accorded F W de Klerk They reject the black versus white conflict and substitute sober analysis and strategic pragmatism for the moral outrage that typifies so much writing about South Africa Believing that the best expression of solidarity emanates from sympathetic but candid criticism they pose challenging questions for the African National Congress and Nelson Mandela They give in depth coverage to political violence the ANC South African Communist Party alliance Inkatha and other controversial topics as well The authors do not propose a solution that will guarantee a genuinely democratic South Africa What they offer is an understanding of the country's social conditions and political constraints and they sketch options for both a new South Africa and a new post Cold War foreign policy for the whole of southern Africa The importance of this book is as immediate as today's headlines Refusing to be governed by what is fashionable or inoffensive Heribert Adam and Kogila Moodley frankly address the passions and rationalities that drive politics in post apartheid South Africa They argue that the country's quest for democracy is widely *Shades of Difference* Padraig O'Malley,2025-05-05 Mac Maharaj played a pivotal role in the liberation movement for nearly four decades suffering brutal tortures and twelve years imprisonment on Robben Island with Nelson Mandela It was Maharaj who smuggled out the manuscript of Mandela's autobiography and later re entered South Africa to establish a political and military underground on a mission so secret that only those at the highest levels were even aware of its existence Drawing from extensive interviews with Maharaj over eleven years and hitherto unavailable documents Padraig O Malley vividly renders a true tale of heroism and a gripping insider's look at the struggle for freedom in South Africa **Kgalema Motlanthe** Ebrahim Harvey,2012 Presenting a superb account of a man characterized by his reticence this biography offers rare and thorough insight into the life of one of South Africa's most powerful men Kgalema Motlanthe From Motlanthe's ancestral family to his political awakenings as he discovered the African National Congress this account traces Motlanthe's political path to becoming the third president of the Republic of South Africa With impeccable timing and a real sense of history this book contains wide ranging interviews with Motlanthe himself as well as with family members friends comrades and leading figures in political organizations civil society academia and the media Unsparing in its scope detailed in its revelations and rigorously critical in its analysis this biography reveals not only the complex politician but also the very human nature of the man *Ideology and Social Protests in Eastern Europe*

Veronika Stoyanova, 2018-03-13 This book argues that the recent political mobilizations in Eastern Europe have been underpinned by a class struggle between a more conservative and a more radical line of contention The latter line the book contends is designed by and for subaltern groups whose anti systemic programme calls for not just the eradication of corruption but for more participatory forms of democracy for social justice and for freedom from want The former on the other hand is designed by powerful groups of intellectuals for the middle classes whom the intellectuals see as the historical strata capable of advancing the catch up projects of modernization and Europeanization which they zealously champion Based on a critical examination of recent political struggles including a detailed case study of the 2013 protests in Bulgaria which focuses particularly on their internal antagonisms and drawing on the social theories of Antonio Gramsci and Ernst Bloch the book provides shrewd insights into class antagonisms in political mobilizations the distortive nature of ideological constructions and utopian longings and the factors which propel many people to support projects for social change

Beyond Conflict and Containment Milton J. Rosenberg, 1972-01-01 In recent years a small but growing number of social scientists have undertaken critical analyses of America s international policies and the fruits of these policies Their work has exerted considerable influence upon the policymaking process primarily by energizing the informed activism to which those in the highest councils of power must respond This book contains major contributions by scholars outside the policy establishment It examines the United States foreign aid program and delineates its disappointing and sometimes injurious consequences It probes into strategic arms policy to illuminate its special dangers and its contribution to international instability It attempts an accounting of the moral costs of interventionism Finally it discusses possibilities for change in elite leadership styles and in the roles played by social scientists as they examine the policy works of those elites Publisher
