have personally witnessed the devastating impact of America's opioid epidemic. For over three decades I worked in law enforcement and government often in roles closely associated with the drug crisis. I began as a federal drug prosecutor in Los Angeles and served as the Director of the Office of Counternarcotics Enforcement at the Department of Homeland Security, the Acting Administrator of the Drug Enforcement Administration (DEA) and the Director of INTERPOL Washington. With drug overdose deaths at record levels, it has become undeniably evident that change is imperative. Despite substantial investments directed at tackling this issue, a viable solution to liberate Americans from the grip of opioid addiction has remained elusive. Mike, leveraging his expertise in healthcare technology and firsthand experience in addiction treatment, has ingeniously developed technology that sets itself apart from the rest, offering a beacon of hope in the fight against opioid addiction. Uttam Dhillon, Former Acting Administrator DEA Opioid Clinical Management, is working diligently to leverage technology to reduce the impact of substance use disorders and improve mental health across our nation, a mission we share. As lead author of the landmark Mental Health Parity and Addiction Equity Act (Federal Parity Law), I have dedicated my post-congressional career to drive change in our nation's healthcare system, and Mike is just one example of how it can happen. Hon. Patrick J. Kennedy

Pediatric Nursing Care: A Concept-Based Approach with Navigate Advantage Access Luanne Linnard-Palmer, 2022-12-13

Pediatric Nursing Care: A Concept-Based Approach Second Edition provides pre-licensed nursing students the need to know information for working as a pediatric nurse in a variety of settings. The concept-based perspective information on pathologies and diagnoses unique to children and focus on family-centered care set it apart from other pediatric nursing textbooks. The Second Edition was updated to offer the latest information on family education, current research, safety, and pharmacology. Chapters unique to this text include those focusing on symptoms assessment and management for children, working and communicating in interdisciplinary teams, caring for children across healthcare settings, cultural care models, essential safety models, and pediatric-specific skills. *Pediatric Nursing Care: A Concept-Based Approach* Second Edition is a helpful guide and reference for attaining a deeper understanding of the unique aspects of pediatric nursing. **Littell's Living Age** Eliakim Littell, Robert S. Littell, 1894 *Littell's Living Age*, 1894 *The Living Age*, 1894 *Mental Health in Nursing - E-Book Epub* Kim Foster, Peta Marks, Anthony O'Brien, John Hurley, 2024-08-26

Holistic overview of mental health for nurses in a practice setting. All nurses play an important role in supporting mental health as part of holistic care provision. This book is designed to help students and novice clinicians to develop the knowledge, skills, and attitudes they need to care for people across a wide range of specialist and non-specialist practice settings. Written by a highly experienced team of mental health nursing experts, the book covers all the common mental health conditions nurses are likely to encounter in practice. It provides essential information on assessing for and identifying people experiencing mental illness, as well as how to provide appropriate responses, support, and referral across the numerous contexts in which nurses work. Fully updated and expanded, the sixth edition includes a wealth of lived experience perspectives designed to provide a critical perspective and a

way of thinking about the issues more deeply building empathy and understanding High quality evidence based content developed specifically to meet the learning needs of students and novice clinicians in Australia and New Zealand Describes the foundational principles and core mental health skills required by all nurses Covers generalist health settings content is relevant for nursing students across their curriculum Focuses on mental health not mental illness an emphasis on recovery oriented practice trauma informed care and the value of building therapeutic relationships Articulates and demonstrates the expert knowledge and skills of mental health nurses and includes information on professional self care for all nurses Covers how to assess manage and treat the major mental health problems people commonly experience Provides scenarios for mental health screening assessment referral and support across a range of clinical settings Key points anecdotes critical thinking exercises tables and references in every chapter support learning Online resources for nurses in the workplace including videos and clinical scenarios Commentaries by experts by Lived Experience in all chapters understand what s helpful and what s not New to this edition New First Peoples chapters from both New Zealand and Australia how to provide cultural safety New chapter on preparing for mental health clinical placements More content on suicide More content on the impact of trauma adverse childhood events on mental health and addictions
