into residential abuse **Female Sexual Offenders** Theresa A. Gannon, Franca Cortoni, 2010-10-28 Featuring a collection of essays by leading experts *Female Sexual Offenders: Theory, Assessment and Treatment* is the first book to bring together current research, clinical assessment and treatment techniques of female sexual offenders into one accessible volume. Describes the most recent research data regarding female sexual offenders covering such issues as female perpetrated sexual abuse, prevalence and juvenile offenders. Includes an assessment of the risk of recidivism, international treatment initiatives and a discussion on the use of the polygraph with female sexual offenders. Features practitioner focused essays which evaluate current assessment strategies, treatment needs, effectiveness and processes for female sexual offenders.

Child Abuse, Gender and Society Jackie Turton, 2007-11-21 Traditionally child sexual abuse has been perceived as a male crime; however, recent research suggests that a significant minority of offenders are female. While recognizing the importance of male perpetrators, this groundbreaking book places the behavior of these offending women into social context, challenging conventional perceptions of female offenders, femininity and mothering. Including case studies and responses from professionals in the field, this key text highlights the problems inherent in protecting children and identifies ways in which we can develop a clearer understanding of the social processes involved through an analysis of the denial and minimisation used by female perpetrators. It offers a critical understanding of the notions of harm, the rights of the child and professional practice while defining some of the limitations and possibilities of a feminist analysis of child sexual abuse by women.

Confronting Animal Abuse Piers Beirne, 2009-07-16 *Confronting Animal Abuse* presents a powerful examination of the human-animal relationship and the laws designed to protect it. Piers Beirne, a leading scholar in the growing field of green criminology, explores the heated topic of animal abuse in agriculture, science and sport as well as what is known, if anything, about the potential for animal assault to lead to inter-human violence. He convincingly shows how, from its roots in the Irish plow fields of 1635 through today, animal rights legislation has been primarily shaped by human interest and why we must reconsider the terms of human-animal relationships. Beirne argues that if violations of animals' rights are to be taken seriously, then scholars and activists should examine why some harms to animals are defined as criminal, others as abusive but not criminal, and still others as neither criminal nor abusive. *Confronting Animal Abuse* points to the need for a more inclusive concept of harms to animals without which the meaning of animal abuse will be overwhelmingly confined to those harms that are regarded as socially unacceptable. One on one cases of animal cruelty certainly demand attention. But so too do those other and far more numerous institutionalized harms to animals where abuse is routine, invisible, ubiquitous and often defined as socially acceptable. In this pioneering pro-animal book, Beirne identifies flaws in our traditional understanding of human-animal relationships and proposes a compelling new approach. *Vulnerable Children and the Law* Rosemary Sheehan, Nicky Stanley, Helen Rhoades, 2012-03-15 This book takes an international perspective on child welfare, examining how frameworks can be adapted to address the rights and best interests of children. Synthesising the latest

research experts redefine the concept of a child in need in a world where global movement is common and children are frequently involved in the law

Creating Safer Organisations Marcus Erooga, 2012-04-30 An accessible resource to help those in organisational settings ensure that they have taken all possible steps to safeguard the children and young people they are responsible for Draws on up to date research with people who have committed sexual offences against children in organisational settings and new developments in interviewing approaches Details recent cases to illustrate points about institutional failures in protecting children Highlights the fact that those who sexually offend against children are a diverse and heterogeneous population and the approaches taken to protect children must address the range of possible risks Makes a firm commitment to the importance of multi agency and inter disciplinary collaboration and is relevant in both community and residential settings Offers clear and practical messages and measures for organisations to act on

Abuse and Violence Towards Young Children Roy Evans, 2017-10-02 Levels of violence abuse and neglect in early childhood are reported internationally as having reached epidemic proportions The prevalence of all forms of violence to children has been difficult to establish particularly in low and middle income countries However even in countries with a high GDP the sexual abuse of children and young people by predatory adults may continue undetected for decades In parts of Africa young children are mutilated and killed for religious reasons Physical beatings that injure and break bones are still common in the Western world Pornography and sexual abuse involving young children is propagated worldwide through the internet The prevention of this violence will require substantial shifts in parental and public attitudes to children and the development and support of national systems of preventive legislation The last 20 years has seen the emergence of a body of material which interrogates early childhood violence and neglect in a wider range of global settings particularly those countries with a low GDP This book aims to highlight important features of national and international initiatives which are rooted in findings from systematic research The continued abuse and neglect of children has been attributed to social acceptance not understanding the importance of reporting abuse and the limitations of child welfare systems This book will be of interest to practitioners in health care education and social work services as well as field workers implementing programmes to address all forms of abuse at family community and national level This book was originally published as a special issue of Early Child Development and Care

Men, Gender Divisions and Welfare Jeanette Edwards, Jeff Hearn, Prof Jeff Hearn, Jennie Popay, 2002-05-03 A fresh look at the balance of responsibilities and control in care giving both in the public and private spheres Using previously unpublished empirical data contributors focus on male experiences of welfare services
