Copyright Office, 1953 Upstate Cauldron Joscelyn Godwin, 2015-03-06 A guide to the phenomenal crop of prophets cults and utopian communities that arose in Upstate New York from 1776 to 1914 From 1776 to 1914 an amazing collection of prophets mediums sects cults utopian communities and spiritual leaders arose in Upstate New York Along with the best known of these such as the Shakers Mormons and Spiritualists this book explores more than forty other spiritual leaders or groups some of them virtually unknown but all of them fascinating The author uncovers common threads that characterize these homegrown spiritualities including roots in Western esoteric traditions liberation from the psychological pressures of dogmatic Christianity a preoccupation with sex and involvement in the radical reform movements of the day In addition to maps and photographs of surviving buildings and monuments the book also features a gazetteer of sites listing 150 locations connected to these groups which may be used as a helpful travel guide to the region The dean of alternative spiritual history produces one of his central and most thoughtful works in Upstate Cauldron This book is more than a cauldron It is a melting pot into which Joscelyn Godwin blends the diffuse and complex religious movements that once converged in Upstate New York to show how we became a modern civilization indelibly stamped by the experience of spiritual outsiders This is both splendid history and a book of wonders in uncovering lost fragments of our world Throw away your highlighter because you won't know where to stop Mitch Horowitz author of Occult America White House Sances Ouija Circles Masons and the Secret Mystic History of Our Nation What a fascinating book Upstate Cauldron takes a refreshing and new look at the period of time when Upstate New York was the center of the Spiritualist movement in America Joscelyn Godwin has written a book that is very difficult to put down introducing us to the most wonderful and exotic individuals People like Timothy Brown who built one of the most intricate and most photographed homes in Central New York with his own hands and out of his own head Can you say spiritual guidance And we meet Kate and Maggie Fox who may have been America's earliest rap stars The fabulous Fox sisters used secret rapping sounds to convince converts that they were communicating with the other world Anthony Damiani was a spiritual godfather to many young people in the university city of Ithaca He doled out his visions of wisdom on Ithaca's main street and when done raced fifty miles to his job as a New York State Thruway toll taker These are just some of the sometimes incredible sometimes bizarre but always interesting people at the core of Upstate's Spiritualism history Godwin tells the story of a little known historical chapter of the area with insight and great liveliness As the author myself of a half dozen books about Upstate New

York I found this book irresistible and absorbing Chuck D Imperio author of Unknown Museums of Upstate New York A Guide to 50 Treasures Destined to become the definitive book on eccentric religion in this geographical area this is a fascinating account of unusual and inventive religious figures and movements Sure handed even tempered and wry Joscelyn Godwin is the ideal guide and his book is one that all readers will want to have in hand as they explore this historically rich and important region What s more it is an important book for understanding a vital part of American religious history Arthur Versluis author of American Gurus From Transcendentalism to New Age Religion LOST TRIBES AND SUNKEN CONTINENTS ,1962 *Afrocentrism* Stephen Howe,1999-08-17 For centuries racist colonial and Eurocentric bias has blocked or distorted knowledge of Africans their histories and cultures resulting in a counter mythology claiming the innate superiority of African descended peoples In this provocative study historian Stephen Howe challenges this Afrocentric rewriting of African history 16 photos Copyright Libri GmbH All rights reserved **Union List of Periodicals, 1974-1975** Cooperative Information Network (Calif.),1974 Periodicals in South African Libraries ,1972 **Bulletin of American Composers Alliance** ,1958 *American Masonic Periodicals, 1811-2001* Larissa P. Giza, the Truth Ian Lawton,Chris Ogilvie-Herald,1999 In this book authors Ian Lawton and Chris Ogilvie Herald take a fresh approach to traditional investigations as they follow a path that leads behind the scenes to a world of politics jealousy and ambition What is really happening at the Giza Plateau What is the identity of the group who call themselves The Magic Twelve and what are their motives What plans are afoot as the Millennium approaches The answers to these questions and many more will be explained as this astounding story unfolds In support of these revelations Giza The Truth is the only work to feature a fully balanced treatment of the theories surrounding the questions of who built the pyramids why how and when It also uncovers the real motives and findings of the multitude of explorations conducted at the Plateau over the last 35 years to the present day including those whose aim has been to locate the infamous Hall of Records **international association of egyptologist association unternationale des egyptologues annual egyptological bibliography** , *Alternate Currents* Justin B. Stein,2023 In the second half of the twentieth century Reiki went from an obscure therapy practiced by a few thousand Japanese and Japanese Americans to a global phenomenon By the early twenty first century people in nearly every corner of the world have undergone the initiations that authorize them to channel a cosmic energy known as Reiki to heal body mind and spirit They lay hands on themselves and others use secret symbols and incantations to send Reiki to distant recipients and strive to follow five precepts to cultivate their spiritual growth Reiki s international rise and development is due to the work of Hawayo Takata 1900 1980 a Hawai i born Japanese American woman who brought Reiki out of Japan and adapted it for thousands of students in Hawai i and North America shaping interconnections across the North Pacific region as well as cultural transformations over the transwar period spanning World War II Alternate Currents

Reiki's Circulation in the Twentieth Century North Pacific analyzes how from her training in Japan in the mid 1930s to her death in Iowa in 1980 Takata built a vast trans Pacific network that connected Japanese American laborers on Hawai'i plantations to social elites in Tokyo Hollywood and New York middle class housewives in American suburbs and off the grid tree planters in the mountains of British Columbia Using recently uncovered archival materials and original oral histories Stein examines how these relationships between healer and patient master and disciple became deeply infused with values of their time and place and how they interplayed with Reiki's circulation performance and meanings along with broader cultural shifts in the twentieth century North Pacific Highly readable and informative each chapter is structured around a period in the life of Takata the charismatic rags to riches architect of the network in which Reiki spread for decades Alternate Currents explores Reiki as an exemplary transnational spiritual therapy demonstrating how lived practices transcend artificial distinctions between religion and medicine and circulate in global systems while maintaining strong connections with the practices homeland

Education and the Ontological Question Kaustuv Roy, 2019-01-08 This book identifies and expands upon the link between ontology and education exposing a lack of ontological inquiry as the vital missing element in the study and practice of modern education today In this book Roy aims to

reintroduce ontological thinking and reasoning that grounds historical and modern educational understandings and practice. Beginning with a historical perspective, he then turns to examine the results of his scholarship into practical concerns of education such as language, dialogue, and curriculum, ultimately proposing a new way forward emphasizing a balance in the education effort between epistemic content and ontological disclosure.
