Rotterdam fifty Years Of Reconstruction 650 Years:

Rotterdam 650 Years Hans Baaij, 1990 The Folly of the World Jesse Bullington, 2024-09-24 A flooded town in medieval Holland holds riches for an unusual trio in this darkly humorous adventure by the author of *The Enterprise of Death*. Every page is saturated with wickedness and mischief. Bullington's fans will be happy to see him bring his trademark dark humor, gritty detail, and loopy characters into a new gruesome landscape. Publishers Weekly: On a stormy night in 1421 the North Sea delivers a devastating blow to Holland: the Saint Elizabeth Flood, a deluge of biblical proportions that drowns hundreds of towns, thousands of people, and forever alters the geography of the Low Countries. Where the factions of the noble Hooks and the merchant Cods waged a literal class war but weeks before there is now only a high endless expanse of grey water, a desolate inland sea with moldering church spires jutting up like sunken tombstones. For a land already beleaguered by generations of civil war, a worse disaster could scarcely be imagined. Yet even disaster can be profitable for the right sort of individual, and into this flooded realm sail three conspirators, a deranged thug at the edge of madness, a ruthless conman on the cusp of fortune, and a half-feral girl balanced between them. With *The Folly of the World*, Jesse Bullington has woven an extraordinary new tale of the depraved and the desperate. Smart, funny, and full of wild exuberance, Lauren Beukes' *The Folly of the World* is weaved with masterful wordplay and dark humor. Bullington has perfected his voice in this novel. He was scary good before, and he just keeps getting better. Fantasy Literature. An absorbing cross-genre piece. This dark and memorable novel, complete with its dark and memorable characters, is among the more distinctive and classifiable reads around. space.time.narrative Frank den Ouden, 2016-12-05 Making exhibitions is a collaborative art producing a multi-layered unity of ideas and objects of invention and manifestation of content and form. However, there is an antagonistic dimension to it because content and form are traditionally represented by the entirely different realms of curator and designer. Future successful developments in exhibition making are dependent on whether this gap of antagonism can be bridged. Space-time narrative calls for a paradigmatic shift of focus. It puts forward a unique approach, breaking down traditional barriers and offering a wide-ranging theoretical context, redefining and expanding the parameters and the dynamics of the exhibition format in terms of an open narrative environment which at its roots displays deep similarities with performance on stage or installation in urban and rural space. The book breaks new ground by looking at the exhibition as a cultural format, firstly within a great sweep of the arts in general, weaving a web of philosophical, museological, linguistic, and media-theoretical references which expands the contextual field of the profession. It then offers unique and important insights from within, in extreme close-up, by bringing together interviews with six of the leading exhibition designers who discuss the dynamics of the medium, its interactive dimensions, the soft parameters of the exhibition, and how to get to grips with the format as a complex narrative space in which the public takes part. Curator and designer should reposition themselves.
