Each of the twelve chapters combines extracts from two or in one case three political philosophers on a key political concept with a commentary essay. Each chapter does more than just introduce the reader to the classics; it also explains via the commentary essay the key concepts of political debate and the historical contexts which led the thinkers to their different understandings of the nature of society.

Anger Barbara H. Rosenwein, 2020-07-14 Tracing the story of anger from the Buddha to Twitter, Rosenwein provides a much needed account of our changing and contradictory understandings of this emotion. All of us think we know when we are angry and we are sure we can recognize anger in others as well. But this is only superficially true. We see anger through lenses colored by what we know, experience, and learn. Barbara H. Rosenwein traces our many conflicting ideas about and expressions of anger, taking the story from the Buddha to our own time, from anger's complete rejection to its warm reception. Rosenwein explores how anger has been characterized by gender and race, why it has been tied to violence and how that is often a false connection, how it has figured among the seven deadly sins and yet is considered a virtue, and how its interpretation, once largely the preserve of philosophers and theologians, has been gradually handed over to scientists with very mixed results. Rosenwein shows that the history of anger can help us grapple with it today.

The Routledge Guidebook to Paine's Rights of Man Frances Chiu, 2020-04-22 Upon publication in 1791-92, the two parts of Thomas Paine's *Rights of Man* proved to be both immensely popular and highly controversial. An immediate bestseller, it not only defended the French revolution but also challenged current laws, customs, and government. *The Routledge Guidebook to Paine's Rights of Man* provides the first comprehensive and fully contextualized introduction to this foundational text in the history of modern political thought, addressing its central themes, reception, and influence. The Guidebook examines the history of rights, populism, representative governments, and challenges to monarchy from the 12th through 18th century; Paine's arguments against monarchies, mixed governments, war, and state church establishments; Paine's views on constitutions; Paine's proposals regarding suffrage, inequality, poverty, and public welfare; Paine's revolution in rhetoric and style; the critical reception upon publication and influence through the centuries, as well as Paine's relevance today. *The Routledge Guidebook to Paine's Rights of Man* is essential reading for students of eighteenth-century American and British history, politics, and philosophy, and anyone approaching Paine's work for the first time.

Overcoming Tradition And Modernity Robert D. Lee, 2018-02-12 Authenticity has begun to rival development as a key to understanding

the political aspirations of the Islamic world Almost everywhere modernity has laid waste to tradition those habits and practices deemed to be timeless and true Imperialism carried European notions of progress into Muslim dominated parts of the globe and subsequently Muslims themselves espoused Western practices techniques and philosophies Regimes calling themselves liberal socialist and Arab nationalist all embraced modernity as their principal objective Most of these regimes failed to create the promised better lives their citizens desired Moreover ordinary Muslims felt despair as modernity ripped apart families exposed youngsters to the materialism and hedonism of Western entertainments heightened social expectations and undermined religious belief Even though tradition has proved itself incapable of staving off modernity the promises and premises of modern development literature have been called into question Where is the truth around which Muslims can rally Does modernity require a rejection of tradition Does the embrace of Islamic ideas necessitate turning away from modernity Robert D Lee explores these compelling questions by presenting four contemporary Muslim writers Muhammad Iqbal Sayyid Qutb Ali Shari ati and Mohammed Arkoun all of whom have refused to bow to such a dichotomy of modernity and tradition This study examines their efforts deeply influenced by European thinking to find a truth beyond tradition and modernity an authentic understanding of Islam upon which Muslims can build a future All four thinkers believe such an authentic understanding can serve as the foundation for a new politics Lee argues however that each of these versions of authenticity suffers shortcomings and falters in its efforts to move from the particularity of culture onto a grander scale of political organization appropriate for the modern world
