major contention of this book how can responsive literature be thought of as a conceptual category What new transdisciplinary optic should be adopted to go beyond the limits of the literary and eventually include the non literary The objective of these discussions was to contribute to the larger discursive literature on disaster studies which we believe has been excessively hegemonized by concepts from the West By bringing in indigenous ideas from Bhasa Sahitya language and literature the images of samaj society samata equity and ahimsa non violence the existing literature on catastrophe and crisis studies can finally be decolonized Understanding and Evaluating Autism Theory Nick Chown,2016-10-21 As it stands there is little crossover between theoretical knowledge on autism and Asperger syndrome and autism intervention This textbook provides the first guide to all theoretical output including mainstream and alternative as well as non specific theories that can be applied to autism and Asperger syndrome
