Copyright Office, 1925 **Contemporary Issues Facing Families** Ileana Rogobete, Alexandru Neagoe, 2014-09-26 The rapid social and economic changes together with the growing diversity and complexity of family life make it imperative for professionals to redefine the conceptual framework for understanding contemporary families towards more holistic approaches The present volume brings together the contributions of different academics and practitioners working in various fields of activity psychology psychotherapy sociology social work theology education medicine and other related disciplines The deliberate goal of this interdisciplinary dialogue is a shift in the focus of the discourse regarding families from the all too common tendency of viewing them in terms of dysfunctions and pathological symptoms towards exploring and celebrating family strengths resilience hope and transformation Transactional Analysis Journal , 1990 *The Human context* , 1972 **Femininity, Masculinity, and Sexuality in Morocco and Hollywood** Osire Glacier, 2017-05-19 This book is the first to formulate an ideology of emancipation for women in Morocco Beginning with constructs of the body femininity and masculinity it analyzes the central role played by the sociopolitical writing of sexuality in creating gender hierarchy The author focuses on Morocco while drawing parallels with Hollywood cinema one of the great producers of femininity and masculinity and conducts an exhaustive examination of constructs of femininity and masculinity in language social practices cultural productions and legal texts The objectives of this project are tripartite it exposes the dynamics that devalue women s humanity it charts the schemas of their sexual economic and sociopolitical exploitation and it advances concrete solutions for re establishing women s human dignity **Journal of the ... Assembly** League of Nations. Assembly, 1928 **Anthropos** , 1986 Exploring the Boundaries of Bodiliness Sigrid Müller, Slavomír Dlugos, Gerhard Marschütz, 2013-12-11 Recent developments in technology have given rise to the impression that the boundaries imposed by our bodiliness can somehow be overcome The increasing philosophical interest in bodiliness as an unavoidable human condition can be seen as a response to this far too comfortable impression The essays in this volume address the topic of bodiliness from a theological point of view They show that our perceptions of and relationships with one another cannot be divorced from our bodily condition and that this existential reality affects significantly how we understand our relationship with God The contributions also address how we can best deal with the fragility of our bodily condition as well as the challenges that technological and medical procedures for altering the appearance and constitution of our bodies pose Special attention is given to how liturgical experience not only offers us a means to respond to these challenges but also to deepen our understanding of Christian communities as ineluctably bodily **Journal de L'Assemblée de la Société Des Nations,**
