The Oxford Companion to American Literature James David Hart, 1948 The Oxford Companion to American Literature James D. Hart, Phillip Leininger, 1995-10-12 For more than half a century James D Hart s The Oxford Companion to American Literature has been an unparalleled guide to America s literary culture providing one of the finest resources to this country s rich history of great writers Now this acclaimed work has been completely revised and updated to reflect current developments in the world of American letters For the sixth edition editors James D Hart and Phillip Leininger have updated the Companion in light of what has happened in American literature since 1982 To this end they have revised the entries on such established authors as Saul Bellow Norman Mailer and Joyce Carol Oates and they have added more than 180 new entries on novelists T Coraghessan Boyle Tim O Brien Louise Erdrich Don De Lillo poets Rita Dove Weldon Kees playwrights Wendy Wasserstein August Wilson popular writers Stephen King Louis L Amour historians James M McPherson David Herbert Donald William Manchester naturalists Aldo Leopold Edward Abbey and literary critics Camille Paglia Richard Ellmann In addition the Companion boasts more women s African American and ethnic voices with new entries on such luminaries as Charlotte Perkins Gilman M F K Fisher William Least Heat Moon Ursula Le Guin and Oscar Hijuelos among many others These additions represent only some of the revisions for the new edition Of course the basic qualities of the Companion that readers have grown to know and love over the years are as superb as ever With over 5 000 total entries The Oxford Companion to American Literature reflects a dynamic balance between past and contemporary literature surveying virtually every aspect of our national literature from the Pulitzer Prize to pulp fiction and from Walt Whitman to William F Buckley Jr There are over 2 000 biographical profiles of important American authors with information regarding their styles subjects and major works and influential foreign writers as well as other figures who have been important in the nation s social and cultural history There are more than 1 100 full summaries of important American novels stories essays poems with verse form noted plays biographies and autobiographies tracts narratives and histories The new edition provides historical background and astute commentary on literary schools and movements literary awards magazines newspapers and a wide variety of other matters directly related to writing in America Finally the book is thoroughly cross referenced and features an extensive and fully updated index of literary and social history Ranging from Captain John Smith to John Updike and from Anne Bradstreet to Anne Rice the sixth edition of The Oxford Companion to American Literature is up to date accurate and comprehensive a delight for both the casual browser and the serious student Criminal Poisoning John H. Trestrail, 2000-01-31 Passion poison often makes fools of clever men sometimes even makes clever men of fools La Rochefoucauld This book represents a pioneering work dealing exclusively with poi sons in the hands of the murderer tamperer and terrorist One of the oldest offensive killing weapons developed by humanity after the stick stone and fist were the poisons Yet after nearly 5000 years of recorded history I no in depth work has ever been produced dealing exclusively

with poisons as weapons for homicide The author's review of the international literature has revealed only a few scattered scientific papers dealing with the psychology of the poisoner and books on medical jurisprudence and forensic investigation have devoted only a few pages to this important subject usually stating that it is a rare occurrence How do we know the true rarity of the use of poisons for homicide All one has to do is look at the number of poisonings that are first documented only after the exhumation of the deceased to raise the logical question If we missed this one how many more have been missed If all those buried in our cemeteries who had been poisoned could raise their hands we would probably be aghast at the numbers For years the homicidal poisoner has remained shrouded in mystery
