 Thomas L. Martin,2025-08-18 *Literature s probative force* travels across the realm of sense in this world to what lies beyond it When we speak of what is beyond our grasp in this world we think most immediately of the world of the spirit Shakespeare famously celebrates literature s power to explore the forms of things unknown How many great works of literature guide us through a familiar world to the edge of the spiritual unknown Not only Shakespeare but Dante Milton Dostoevsky Hopkins Eliot O Connor and many others in these pages carry us there This book follows their quest Literary apologetics is the study of the characteristic moves by the authors who take readers on their journey of faith with them Most notably that tradition begins with Latin authors spreads across Europe in a continuous literary culture and extends over world literature to the present day While early apologetics is proclamation rhetoric philosophy and poetry above all it is witness to the faith manifesting itself in time The early faith community produces a distinct literary culture as Christian witness takes all these forms and more From then until now this kind of literature probes ultimate questions adumbrates numinous experience and extrapolates ethical outcomes of Christian teachings across a wide variety of literary forms The *Handbook of Literary Apologetics* provides an authoritative introduction to the scope of this tradition and its major figures **Art and Philosophy**,2025-05-05 Though a field often thought far from the center of contemporary philosophy philosophy of art perhaps more than any other field similarly situated nevertheless enjoys extensive overlap with and points of exchange at that center The last decade has seen a marked resurgence of interest in aesthetics and philosophy of art from those working outside these areas and a reciprocal resurgence of interest in other subfields from philosophers of art *Art and Philosophy*

brings together twenty one original essays at the intersection of art and philosophy These essays are intersectional in two respects Firstly the authors draw meaningful connections between art and philosophy using artworks to motivate support and shape their views Secondly the authors draw connections between the theoretical discipline of aesthetics and philosophy of art on the one hand and the rest of philosophy on the other Some chapters explore philosophical matters by examining art and other aesthetic objects whilst others bring together contemporary thought and research in aesthetics and philosophy of art with important developments in other areas of philosophy The chapters are organized into ten sections These ten sections represent the current issues best exemplifying the productive and informative exchanges that exist at these intersections The topics range from metaphysics and philosophy of language to creativity and love By placing the connection to art at the forefront Art and Philosophy is a testament to the myriad ways art and the philosophy of art intersect and overlap with issues that lie at the core of contemporary philosophy
