academically up to the point where the body politic formed by the Western classical tradition is dissipated and dispersed Comprised in a contrary unconventional manner similar to Machiavelli the basic essential factors of history religion power and authority were formulated as the four main chapters in this work by Nevio Cristante From it one can readily see the flaws today in the false praise in nostalgic historical hubris the forgetting of a brand of religion that is essential for healthy politics the overlooking of coercive forces that reduce politics to power and the loss of true authority In this book Cristante comprises Machiavelli as a virtuous unprecedented extreme humanist in stark contrast to the common incessant interpretations of him being a teacher of evil a diabolical soulless political advisor A subversive satirical interpretation of The Prince has been formed herein extending from the generated knowledge of history and the history of Machiavelli s own experience From the vivacious and unraveling Italian Renaissance a cogent force prompted Machiavelli to create his literary works in order to form an educational cure for the deteriorating human condition of his time and any time There is in Machiavelli a differing sense of newness from that which is commonly known today which circumvents its worth in this distinct educative interpretation Machiavelli goes back in time in order to produce lessons applicable to correct the shortages in his and every present day With a divergent view of the works of art and literature outlined in this analysis Machiavelli s education becomes revived today in creating a virtuous political spiritual and cultural dynamism as a battle cry to repel the ignorance and great misfortunes in our human condition Black Athena Martin Bernal,2020-02-14 Black Athena an audacious three volume series strikes at the heart of today s most heated culture wars Martin Bernal challenges Eurocentric attitudes by calling into question conventional explanations for the origins of classical civilization Provocative passionate and colossal in scope this thoughtful rewriting of history continues to stir academic and political controversy

*Amoral Politics* Ben-Ami Scharfstein, 2016-02-24 This is a study of how and why politics is amoral It deals

especially with what the author terms Machiavellism the disregard of moral scruples for political ends that leads to the justification and use of deception and force in all aspects of political life A comparative cultural study it examines the theory and practice of politics in ancient China ancient India Renaissance Italy and modern Europe as well as tribal cultures in order to test how widespread such political amorality has been throughout history Scharfstein concludes that political or ethical theories that do not view Machiavellism as inseparable from political life are inadequate to human affairs and of doubtful relevance to politics In reaching this conclusion he explores such topics as why people readily accept political violations of truthfulness and fairness whether decisive philosophical arguments have been advanced against Machiavellism whether the use of deception in politics is in politicians own best interests and whether the prevalence of Machiavellism rules out the likelihood of a better political future
