Annihilating Difference Alexander Laban Hinton, 2002-08-15 Genocide is one of the most pressing issues that confronts us today Its death toll is staggering over one hundred million dead Because of their intimate experience in the communities where genocide takes place anthropologists are uniquely positioned to explain how and why this mass annihilation occurs and the types of devastation genocide causes This ground breaking book the first collection of original essays on genocide to be published in anthropology explores a wide range of cases including Nazi Germany Cambodia Guatemala Rwanda and Bosnia Foreign Affairs Research: Projects and Centers United States. Department of State. External Research Division, 1960 Foreign Affairs Research: Projects and Centers Etats-Unis. Department of State. Bureau of Intelligence and Research, 1960 Peasants and Proletarians Robin Cohen, Peter C. W. Gutkind, Phyllis Brazier, 2023-07-07 Originally published in 1979 this book examines differing forms of international interracial working class action and the relationship between workers struggles in the periphery and those in advanced capitalist countries It analyses the nature of class alliances forged in the countryside and the urban sprawls of the developing world among workers students and the unemployed The volume draws on theoretical debates and detailed empirical studies dealing with a wide range of countries in Asia Latin America Africa and the Caribbean Each of the sections is preceded by a linking editorial comment and the editors also provide an introductory overview Reviews of the original edition of *Peasants and Proletarians* This is an important book both for historians and for social scientists It draws attention to a previously underestimated labour force that has grown into a significant indeed indispensable part of the international economic structure Lynda Shaffer *Journal of Asian Studies* 39 4 1980 This book offers a truly impressive and solid compilation of material on labour in the Third World The sheer range of scholarship concerning many different types of workers over a timescale of nearly 100 years in countries and political situations as various for example as Lagos in the 1890s Jamaica in the 1930s and socialist Algeria or Chile under Allende is sometimes bewildering but never fails to stimulate and absorb the reader Paul Kennedy *Journal of Modern African Studies* 19 4 1981 *Peasants and Proletarians* is a very major contribution The editors introduction though brief successfully raises many of these issues and outlines an approach to them The twenty one readings concerned with early forms of resistance rural workers strategies of working class action migrant workers in advanced capitalist states and contemporary struggles offer geographical and intellectual breadth in their exploration of the diversity of Third World experience Joel Samoff *ASA Review of Books* Vol 6 1980

Abu-Lughod,R. with alarm the rapidly declining condition of individual cities This book attempts to rectify this deficiency Copper Mines, Company Towns Dr. Larry R.
