North American Indian Tribes of the Great Lakes Michael G Johnson, 2011-04-19 The Great Lakes were the main arena for the fur trade in colonial North America which drew European explorers and trappers deep into the northern USA and Canada from the 17th century onwards The desire to control the supply of this luxury item sparked wars between Britain and France as well as conflicts between rival tribes and the newly formed United States of America which

continued until 1840 The main tribes of the area were the Huron Dakota Sauk and Fox Miami and Shawnee All were drawn into the conflicts throughout the Great Lakes region during the French Indian War 1754 1763 as well as the American Revolution These conflicts culminated in Black Hawk s War of 1832 as Native American tribes attempted to resist the loss of their lands to white settlers in what is now Illinois Iowa and Wisconsin The defeat of these tribes forever altered the climate of the central American states This new addition to Osprey s coverage of Native American tribes details the growth of the fur trade in the Great Lakes area the various skirmishes battles and wars that were fought to control this vital trade and important trade area With specially commissioned plates as well as photographs of locations and or artifacts where available expert author Michael Johnson also details the lives and material culture including clothing equipment and weaponry of the local tribes themselves before their circumstances were irrevocably altered
