growth enhancing and growth constraining factors Starting from a traditional saving investment balance the paper develops a four sector macroeconomic framework It is purely illustrative and is designed to provide a roadmap for a systematic evaluation of de cashing The framework is disaggregated into the real fiscal monetary and external sectors and potential implications of de cashing are then identified in each sector Finally the paper draws a balance on possible positive and negative macroeconomic implications of de cashing and proposes policies capable of augmenting its economic and social benefits while reducing potential costs

Lectures in Macroeconomics Kazimierz Łaski, 2019-07-04 Lectures in Macroeconomics A Capitalist Economy Without Unemployment provides a systematic account of the principle of aggregate demand based on the work of Polish economist Micha Kalecki best known as one of the originators of the Keynesian Revolution in macroeconomics The lectures demonstrate the importance of aggregate demand in

determining total output and employment in the capitalist economy They show how the investment decisions of firms affect economic growth arguing that due to the unstable nature of investment it is important that the government has a central role in stabilizing the economy This English translation of Kazimierz aski s final work brings up to date fundamental concepts to give a picture of the twenty first capitalist economy and the obstacles that must be overcome in bringing it to full employment It introduces the role of money and finance in the contemporary capitalist economy as well as the central role of the labour market and wages The analysis is illustrated with statistics and discussion around the evolution of capitalist economies and the rise of economic inequality since the Second World War culminating in the 2008 crisis and the economic deflation affecting Europe since that crisis Lectures in Macroeconomics remarks critically upon the neo classical approach to economics that has brought about slow economic growth unemployment and inequality
