Mueller,2025-01-17 This book offers an

accessible framework for macroeconomic modelling rooted in the capital theory of Austrian Economics By distinguishing between the goods and monetary sides of the economy and exploring their interaction the book provides a comprehensive macroeconomic model that integrates time preference and interest rates It examines how monetary and fiscal policies can produce business cycles and how these cycles are influenced by central bank liquidity and financial market behaviour Additionally the book discusses the ways in which monetary and fiscal policies can prolong and intensify economic stagnation Through its clear exposition this book deepens the understanding of the conditions that determine the unsustainability of

credit driven economic expansions It is essential reading for students and researchers in political economy macroeconomics monetary economics and those interested in advancing Austrian Economics *Ignoring Nature No More* Marc Bekoff, 2024-05-31 For far too long humans have been ignoring nature As the most dominant overproducing overconsuming big brained big footed arrogant and invasive species ever known we are wrecking the planet at an unprecedented rate And while science is important to our understanding of the impact we have on our environment it alone does not hold the answers to the current crisis nor does it get people to act In *Ignoring Nature No More* Marc Bekoff and a host of renowned contributors argue that we need a new mind set about nature one that centers on empathy compassion and being proactive This collection of diverse essays is the first book devoted to compassionate conservation a growing global movement that translates discussions and concerns about the well being of individuals species populations and ecosystems into action Written by leading scholars in a host of disciplines including biology psychology sociology social work economics political science and philosophy as well as by locals doing fieldwork in their own countries the essays combine the most creative aspects of the current science of animal conservation with analyses of important psychological and sociocultural issues that encourage or vex stewardship The contributors tackle topics including the costs and benefits of conservation behavioral biology media coverage of animal welfare conservation psychology and scales of conservation from the local to the global Taken together the essays make a strong case for why we must replace our habits of domination and exploitation with compassionate conservation if we are to make the world a better place for nonhuman and human animals alike
