Salazar, Nelson H. H. Graburn, 2014-06-01 It is hard to imagine tourism without the creative use of seductive as well as restrictive imaginaries about peoples and places These socially shared assemblages are collaboratively produced and consumed by a diverse range of actors around the globe As a nexus of social practices through which individuals and groups establish places and peoples as credible objects of tourism tourism imaginaries have yet to be fully explored Presenting innovative conceptual approaches this volume advances ethnographic research methods and critical scholarship regarding tourism and the imaginaries that drive it The various

authors contribute methodologically as well as conceptually to anthropology's grasp of the images, forces and encounters of the contemporary world.

The State of the Environment in Asia The Japan Environmental Council, 2012-12-06 In December 1977 we published the first in this series of NGO oriented reports on Asia's environment. *Asia Kankyo Hakusho* 1997-98 This was published in English by Springer Verlag as *The State of the Environment in Asia* 1999-2000. Although only a few years have passed since then, Asia has seen tumultuous changes in the political, economic, social, environmental and other domains as well as a number of prominent trends that could be regarded as harbingers of the new century. China, for instance, could henceforth decisively affect the evolution of environmental problems not only in Asia but across the entire globe. Yet Chinese concern for and initiatives on pollution and environmental damage have increased more quickly than could have been anticipated just a few years ago. And on Taiwan, where a Democratic Progressive Party president was elected over the long ruling Nationalist Party, an attorney who has cooperated with our pollution surveys for a decade, Hsieh Chang-ting, became mayor of Taiwan's largest heavy and chemical industry city of Kaohsiung, where he has begun a Green Revolution. On the Korean Peninsula, which has for many years endured the division of its people as well as political and military tensions, there are the beginnings of a new North-South dialog. These changes are all welcome to those of us who wish to see new advances in environmental cooperation throughout Asia.
