Methodism and the Southern Mind, 1770-1810 Cynthia Lynn Lyerly, 1998-09-24 This book looks at the role of Methodism in the Revolutionary and early national South When the Methodists first arrived in the South Lyerly argues they were critics of the social order By advocating values traditionally deemed feminine treating white women and African Americans with considerable equality and preaching against wealth and slavery Methodism challenged Southern secular mores For this reason Methodism evoked sustained opposition especially from elite white men Lyerly analyzes the public denunciations domestic assaults on Methodist women and children and mob violence against black Methodists These attacks Lyerly argues served to bind Methodists more closely to one another they were sustained by the belief that suffering was salutary and that persecution was a mark of true faith

Dividing the Faith Richard J. famous black Christian of the colonial era Though her experiences and accomplishments were unique her religious affiliation with a predominantly white church was quite ordinary Dividing the Faith argues that contrary to the traditional scholarly consensus a significant portion of northern Protestants worshipped in interracial contexts during the eighteenth century Yet in another fifty years such an affiliation would become increasingly rare as churches were by and large segregated Richard Boles draws from the records of over four hundred congregations to scrutinize the factors that made different Christian traditions either accessible or inaccessible to African American and American Indian peoples By including Indians Afro Indians and black people in the study of race and religion in the North this research breaks new ground and uses patterns of church participation to illuminate broader social histories Overall it explains the dynamic history of racial integration and segregation in northern colonies and states

Becoming African in America James Sidbury, 2007-09-27 Publisher description **Autobiographical Reflections on Southern Religious History** John B. Boles, 2001 Invoking the strong ties they sense between the courses of their lives and their careers the sixteen historians of religion who have contributed to *Autobiographical Reflections on Southern Religious History* share their thoughts and motivations In these highly personal essays both pioneering and promising young scholars discuss their work and interests as they recall how the circumstances of their upbringing and education steered them toward religious history They tell of their own time and place and of their growing awareness of how religion ties into larger social issues gender class and most notably race Indeed one essay begins I was asked to write about why I came to study religion in the South It was then I realized that it was because my grandfather had been lynched Lutheran Jewish Catholic Methodist and Episcopal viewpoints are represented as of course are Baptist Some contributors have stood in the pulpit others at least commenced their higher education with that aim While some contributors were born and reared and now work in the Bible Belt others are outsiders physically philosophically or both Some came from intellectual traditions others were the first in their family to attend college Despite their common interest in its history southern religion is anything but an intellectual abstraction for the contributors to this book It is a potent force and here sixteen men and women offer themselves as proof of its power to shape lives

Without Benefit of Clergy Karin Erdevig Gedge, 2003 Publisher description **Bodies of Belief** Janet Moore

Lindman, 2011-09-16 The American Baptist church originated in British North America as little tabernacles in the wilderness isolated seventeenth century congregations that had grown into a mainstream denomination by the early nineteenth century The common view of this transition casts these evangelicals as radicals who were on society's fringe during the colonial period only to become conservative by the nineteenth century after they had achieved social acceptance In *Bodies of Belief* Janet Moore Lindman challenges this accepted if oversimplified characterization of early American Baptists by arguing that they struggled with issues of equity and power within the church during the colonial period and that evangelical religion was both radical and conservative from its beginning *Bodies of Belief* traces the paradoxical evolution of the Baptist religion including the struggles of early settlement and church building the varieties of theology and worship and the multivalent meaning of conversation ritual and godly community Lindman demonstrates how the body both individual bodies and the collective body of believers was central to the Baptist definition and maintenance of faith The Baptist religion galvanized believers through a visceral transformation of religious conversion which was then maintained through ritual Yet the Baptist body was differentiated by race and gender Although all believers were spiritual equals white men remained at the top of a rigid church hierarchy Drawing on church books associational records diaries letters sermon notes ministerial accounts and early histories from the mid Atlantic and the Chesapeake as well as New England this innovative study of early American religion asserts that the Baptist religion was predicated simultaneously on a radical spiritual ethos and a conservative social outlook *A Coat of Many Colors* Walter Conser, 2006-09-04 While religious diversity is often considered a recent

ethnic groups that call the Cape Fear region home From early Native American traditions to the establishment of the first churches cathedrals synagogues mosques and temples *A Coat of Many Colors* offers a comprehensive view of the religious and ethnic diversity that have characterized Cape Fear throughout its history Through the lens of regional history Conser explores how this area s rich religious and racial diversity can be seen as a microcosm for the South and he examines the ways in which religion can affect such diverse aspects of life as architecture and race relations

Noll, 2002-10-03

Religious life in early America is often equated with the fire and brimstone Puritanism best embodied by the theology of Cotton Mather Yet by the nineteenth century American theology had shifted dramatically away from the severe European traditions directly descended from the Protestant Reformation of which Puritanism was in the United States the most influential In its place arose a singularly American set of beliefs In *America's God* Mark Noll has written a biography of this new American ethos In the 125 years preceding the outbreak of the Civil War theology played an extraordinarily important role in American public and private life Its evolution had a profound impact on America's self definition The changes taking place in American theology during this period were marked by heightened spiritual inwardness a new confidence in individual reason and an attentiveness to the economic and market realities of Western life Vividly set in the social and political events of the age *America's God* is replete with the figures who made up the early American intellectual landscape from theologians such as Jonathan Edwards Nathaniel W Taylor William Ellery Channing and Charles Hodge and religiously inspired writers such as Harriet Beecher Stowe and Catherine Stowe to dominant political leaders of the day like Washington Jefferson and Lincoln The contributions of these thinkers combined with the religious revival of the 1740s colonial warfare with France the consuming struggle for independence and the rise of evangelical Protestantism to form a common intellectual coinage based on a rising republicanism and commonsense principles As this Christian republicanism affirmed itself it imbued in dedicated Christians a conviction that the Bible supported their beliefs over those of all others Tragically this sense of religious purpose set the stage for the Civil War as the conviction of Christians both North and South that God was on their side served to deepen a schism that would soon rend the young nation asunder Mark Noll has given us the definitive history of Christian theology in America from the time of Jonathan Edwards to the presidency of Abraham Lincoln It is a story of a flexible and creative theological energy that over time forged a guiding national ideology the legacies of which remain with us to this day
