Mit In Perspective A Pictorial History Of The Massachusetts Institute Of Technology:

M.I.T. in Perspective Francis E. Wylie, 1975 Designing MIT Mark Jarzombek, 2004 Chartered in 1861 the Massachusetts Institute of Technology lay in financial crisis with an assortment of laboratories classrooms offices and student facilities scattered across Boston's Back Bay by the turn of the century But in 1912 backed by some of the country's leading financiers and industrialists MIT officials purchased an undeveloped tract of land in Cambridge launching a long and complex review of proposals for a new quadrangle Based largely on the recommendation of John D Rockefeller Jr the commission was awarded to MIT and the Ecole des Beaux Arts trained architect William Welles Bosworth known for his AT Desire Despradelle Chairman of the Department of Architecture at MIT and a leading Beaux Arts stylist Ralph Adams Cram noted for his gothic West Point campus and John Freeman one of the country's leading civil engineers Mark M Jarzombek provides a captivating cross section of the architectural debates of the time Though Bosworth's considerable social and political finesse enabled him to land the commission and balance varied competing interests he found his classically oriented vision challenged by engineer John Freeman proponent of Frederick W Taylor's new principle of Scientific Management However strained the conflict ultimately resulted in a far more innovative design than either individual approach employing new European concepts of industrialism efficiency and aesthetics in academic structures Heavily illustrated with images from MIT archives the story of Bosworth's new Tech offers more than just insight into the designing of a campus Wrought with artistic clashes bureaucratic tangles and contemporary politics Designing MIT sheds light on the academic culture in the early twentieth century the role of patronage in the world of architecture and the history of the Beaux Arts style in the United States A Widening Sphere Philip N. Alexander, 2021-08-03 How MIT's first nine presidents helped transform the Institute from a small technical school into a major research university MIT was founded in 1861 as a polytechnic institute in Boston's Back Bay overshadowed by its neighbor across the Charles River Harvard University Harvard offered a classical education to young men of America's ruling class the early MIT trained men and a few women from all parts of society as engineers for the nation's burgeoning industries Over the years MIT expanded its mission and ventured into other fields pure science social science the humanities and established itself in Cambridge as Harvard's enduring rival In A Widening Sphere Philip Alexander traces MIT's evolution from polytechnic to major research institution through the lives of its first nine presidents exploring how the ideas outlook approach and personality of each shaped the school's intellectual and social cultures Alexander describes among other things the political skill and entrepreneurial spirit of founder and first president William Rogers institutional growing pains under John Runkle Francis Walker's campaign to broaden the curriculum especially in the social sciences and to recruit first rate faculty James Crafts whose heart lay in research not administration Henry Pritchett's thwarted effort to merge with Harvard after which he decamped to the Carnegie Foundation for the Advancement of Teaching Richard Maclaurin's successful strategy to move the institute to Cambridge after considering other sites including a

golfclub in Brighton the brilliant progressive Ernest Nichols who succumbed to chronic illness and barely held office Samuel Stratton s push towards a global perspective and Karl Compton s vision for a new kind of Institute a university polarized around science and technology Through these interlocking yet independent portraits Alexander reveals the inner workings of a complex and dynamic community of innovators
