Committee on Hunger, 1988 **Practical Paediatric Nutrition** E. M. E. Poskitt, 2013-10-22 Practical Paediatric Nutrition deals with conventional children s nutrition in a clinical or community setting The book reviews nutritional assessment using three complementary methods namely clinical nutritional assessment symptoms physical wasting rickets anthropometric assessment manifestations abnormal measurements skinfold thickness and biochemical assessment analysis hematology urine The text also addresses nutrition in pregnancy and its effects on the fetus The book notes that selected food supplementation has negligible effects in the mean fetal weight of malnourished populations compared with well nourished populations Placental insufficiency can also lead to fetal malnutrition The text discusses breast feeding cow s milk formulas soya based formulas and follow on formulas For low birth weight infants the choice of feeds are the infants own mothers milk expressed or banked other banked breast milk fortified human milk own mother s or banked standard infant formula or preterm infant formula The book also explores the problem of weaning and failure to gain height or weight at the expected rates The book is helpful for pediatricians obstetricians gynecologists nurses practitioners in general medicine and administrators of public health services *The Oxford Handbook of the Archaeology of Childhood* Sally Crawford, Dawn Hadley, Gillian Shepherd, 2018-05-10 Real understanding of past societies is not possible without including children and yet

they have been strangely invisible in the archaeological record Compelling explanation about past societies cannot be achieved without including and investigating children and childhood However marginal the traces of children s bodies and bricolage may seem compared to adults archaeological evidence of children and childhood can be found in the most astonishing places and spaces The archaeology of childhood is one of the most exciting and challenging areas for new discovery about past societies Children are part of every human society but childhood is a cultural construct Each society develops its own idea about what a childhood should be what children can or should do and how they are trained to take their place in the world Children also play a part in creating the archaeological record itself In this volume experts from around the world ask questions about childhood thresholds of age and growth childhood in the material culture the death of children and the intersection of the childhood and the social economic religious and political worlds of societies in the past
