Rosary In The Steps Of The Gospel Featuring The Mysteries Of Light:

The Rosary in the Steps of the Gospel Dom Jean Guilmard, Donald Carroll, 2003 Mary's House traces the history of a pile of sacred forgotten stones that for the first time provide precious clues to the life Mary lived after the crucifixion. The site in Ephesus, Turkey, where it is believed that John the beloved disciple took Mary after the crucifixion is revered today as a shrine for millions of Christians and Muslims. Pope Paul VI and Pope John Paul II both have made special pilgrimages to Ephesus to worship at the site which Pope Pius XII described by saying, "This holy house is unique throughout the world." With four color photographs throughout.

Mysteries of the Rosary Teresa Rhodes McGee, 2014-07-30 Catholic Neurotheology Andrew Newberg, Mary Clare Smith, 2024-07-02 The topic of neurotheology has garnered increasing attention in the academic, religious, scientific, and popular worlds. It is the field of study that explores the intersection between the brain and religious and spiritual phenomena. However, there have been no extensive attempts at exploring specifically how Catholic religious thought and experience may intersect with neurotheology. The purpose of *Catholic Neurotheology* is to fully engage this groundbreaking area. Topics are related to a neurotheological approach to the foundational Catholic beliefs derived from Scripture and Tradition; an exploration of the various elements of Catholicism; and of Catholic rituals and practices; and a review of Catholic spiritualities and mysticism. Specific Catholic scholars are considered in terms of the relationships among their ideas, teachings, and different brain processes. Catholic

Neurotheology engages these topics in an easy to read style and incorporates scientific religious philosophical and theological aspects of the emerging field of neurotheology By reviewing the concepts in a stepwise simple yet thorough discussion readers regardless of their background will be able to understand the complexities and breadth of neurotheology from a Catholic perspective More broadly issues include a review of the neurosciences and neuroscientific techniques religious and spiritual experiences theological development and analysis liturgy and ritual philosophy epistemology and ethics and social implications all from a Catholic perspective
