**Designing Memory** Sabina Tanović, 2019-11-28 This innovative study of memorial architecture investigates how design can translate memories of human loss into tangible structures creating spaces for remembering Using approaches from history psychology anthropology and sociology Sabina Tanovi explores purposes behind creating contemporary memorials in a given location their translation into architectural concepts their materialisation in the face of social and political challenges and their influence on the transmission of memory Covering the period from the First World War to the present she looks at memorials such as the Holocaust museums in Mechelen and Drancy as well as memorials for the victims of terrorist attacks

to unravel the private and public role of memorial architecture and the possibilities of architecture as a form of agency in remembering and dealing with a difficult past The result is a distinctive contribution to the literature on history and memory and on architecture as a link to the past

**National and Transnational Memories of the Kindertransport** Amy Williams, William Niven, Bill Niven, 2023 The first transnational study of the memory of the Kindertransport and the first to explore how it is represented in museums memorials and commemorations The Kindertransport the rescue of ca 10 000 Jewish children from the Nazi sphere of control and influence before the Second World War has often been framed as a British story This book recognizes that even though most of the Kinder were initially brought to the UK and many stayed it was more than that It therefore compares British memory of the Kindertransport to that of other host nations the US Canada Australia and New Zealand It is the first book to ask how the Kindertransport is remembered both in the countries of origin particularly Germany and in the host nations as well as the first to analyze how it is represented in museums memorials and commemorations Seeing memory of the Kindertransport in the host nations and in Germany as significantly different the study argues that the different national memory discourses around the Nazi persecution of Jews shape the respective countries images of the Kindertransport and that those images in turn shape the discourses especially in Britain Yet while national memory frameworks remain crucial to how the Kindertransport is remembered the book also documents the increasing significance of transnational memory trends that link the host nations with each other and with the countries from which the children originated

The Great Remembering's Penny Dreadful Collection Justin L. Smith, 2025-05-24 Follow the events that lead up to the full length novel The Great Remembering In 2022 s The Great Remembering Nazis secretly took over America and renamed it Neo Columbia They invaded Canada and Mexico The country is controlled by Oligarchs and the President is controlled by a Tech Oligarch But it didn t happen overnight Things were set in motion for decades The Penny Dreadful Collection shows the lead up to this For convenience I have simply combined the first volume of short stories into one anthology Page counts vary but the Penny Dreadful Collection should average 140 pages In chronological order but not their original publishing order Koschei s Arrow The Broken Arrow Ashley and Connie Moonlight Over Monte Carlo Operation Spring Heeled Jack Masterson s Miscalculation and Black Sheep and Black Jade All these back stories equaling a little over half of a full length novel as an anthology If you are interested in the theology I use in The Broken Arrow please me on Twitter Justin\_L\_Smith\_ I can send you a thread that explains these things in greater detail The Broken Arrow is a short story With all the information I have on this it could never all work in a short story I have had much of my series planned since 2020 Unfortunately developing Systemic Mastocytosis in late 2023 has greatly slowed me down I intended to write a Dystopian Series that felt real Like this could all really happen Sadly what was intended as a warning about Horseshoe Theory was well warranted I am currently working slowly on the sequel to The Great Remembering when I have have the strength energy and time to do so Once it is complete I will write a new series of short stories to go along with it and keep

using the ideas I amassed over the years as some of these ideas won't work in full length novels I find this is more entertaining than a wiki page to flesh out various events and characters in the world of Scabbers

**Landscape, Race and Memory** Divya Praful Tolia-Kelly, 2016-04-22 Memory is seldom explored through the experience of geographically mobile racialized populations Whilst the relationships between the political value of landscape and national memory have previously been written through there has been little mention of postcolonial diasporic racialized citizens Using both visual and material culture this book examines the value of landscape and memory for postcolonial migrants living in Britain It uses memory to examine how postcolonial citizenship in Britain is experienced through remembered citizenships of other geographies abroad By reflecting on the cultural landscapes of British Asian women the book reveals social historical narratives about migration citizenship and belonging New spaces of memory are presented as mobile and as politically charged with meaning as the more formal spaces of memorialization The book offers a refiguring of race memory as being critical to English heritage and postcolonial politics and makes an important contribution to the writings on memory race and landscape
