Bel Avenir de la Guerre Philippe Delmas, 1997-05-02 The powerful threat of nuclear holocaust kept major armed conflict in check until the end of the Cold War Now in a hard hitting cautionary work French military analyst Philippe Delmas reveals how conventional warfare is set for a terrifying resurgence and what governments must do to prevent it **Rosy Future** Catherine Lievens, When he was forced into a pregnancy Oam knew he wouldn t be **War ...** Delmas, 1995 allowed to raise his child He d made his peace with that but now King Eldar is gone and Oam is a father Tito never wanted to be a father but he can t say no when he s given his late cousin s egg She wanted him to raise her child and he will even though it takes him away from his best friend who happens to be the new Eiloren clan king when Killian needs him the most Oam and Tito both have to learn how to be parents It's easy enough when they re dealing with eggs but what will happen when the eggs hatch And when Tito and Oam fall in love Even with the war over the clan's problems aren't As if that's not enough for Tito to worry about someone is trying to take Oam's egg from him Tito won't allow that to happen but can he stop it Will Tito and Oam be able to build the family they both yearn for or will they lose their rosy future before it happens When he was forced into a pregnancy Oam knew he wouldn't be allowed to raise his child He d made his peace with that but now King Eldar is gone and Oam is a father Tito never wanted to be a father but he can t say no when he s given his late cousin s egg She wanted him to raise her child and he will even though it takes him away from his best friend who happens to be the new Eiloren clan king when Killian needs him the most Oam and Tito both have to learn how to be parents It's easy enough when they re dealing with eggs but what will happen when the eggs hatch And when Tito and Oam fall in love Even with the war over the clan's problems aren't As if that's not enough for Tito to worry about someone is trying to take Oam's egg from him Tito won t allow that to happen but can he stop it Will Tito and Oam be able to build the family they both yearn for or will they lose their rosy future before it happens Warrior's Dishonour George Kassimeris, 2016-02-17 The characteristic act of men at war is not killing It is killing by committing shocking and unspeakable atrocities when circumstances permit What drives ordinary people into hatred genocide inhumanity and evil What turns friends and neighbours against each other with such savagery Where does such barbarity come from This collection examines the anarchy cruelty and overwhelming confusion of modern warfare In particular it analyzes what happens when morality vanishes from the battlefield and why torture is endemic in modern warfare how human rights in times of war lose meaning as a set of principles whether official propaganda and enemy demonization make barbaric behaviour easier how we can develop cultures opposed to torture that damage the legitimacy of our societies Through a wealth of case studies that have been carefully selected in terms of their themes approaches and methodologies this comprehensive volume provokes discussion and enhances understanding from a variety of disciplinary perspectives The Waning of Major War Raimo Vayrynen, 2013-10-31 This book is a systematic effort by leading international scholars to map the trends in major power warfare and explore whether it is waxing or waning The

main point of departure is that major power war as a historical institution is in decline This does not mean though that wars between states are in general disappearing While there is some convergence in the conclusions by individual authors they are by no means unanimous about the trend The articles explore different causes and correlates of the declining trend in major power warfare including the impact of the international structure nuclear weapons international law multilateral institutions sovereignty and value changes Advances in Reversal Theory M.J. Apter, J.H. Kerr, S. Murgatroyd, 1993-01-01 Explores some of the recent thinking in psychology along the lines that people are inherently inconsistent over time and that the differences within an individual are as important as the differences among individuals. The 26 papers most presented at conferences since 1988 and many researchers hav Virtual War Michael Ignatieff, 2001-06-02 Virtual War describes the latest phase in modern combat war fought by remote control Kosovo was such a virtual war a war in which US and NATO forces did the fighting but only Kosovars and Serbs did the dying Ignatieff raises the troubling possibility that virtual wars so much easier to fight could become the way superpowers impose their will in the century ahead Manning the Future Legions of the United States Donald Vandergriff, 2008-10-30 An Industrial Age model continues to shape the way the Army approaches its recruiting personnel management training and education This outdated personnel management paradigm designed for an earlier era has been so intimately tied to the maintenance of Army culture that a self perpetuating cycle has formed diminishing the Army's attempts to develop adaptive leaders and institutions. This cycle can be broken only if the Army accepts rapid evolutionary change as the norm of the new era Recruiting the right people then having them step into an antiquated organization means that many of them will not stay as they find their ability to contribute and develop limited by a centralized hierarchical organization Recruiting and retention data bear this out Several factors have combined to force the Army to think about the way it develops and nurtures its leaders Yet Vandergriff maintains mere modifications to today s paradigm may not be enough Today's Army has to do more than post rhetoric about adaptability on briefing slides and in literature One cannot divorce the way the Army accesses promotes and selects its leaders from its leadership development model The Army cannot expect to maintain leaders who grasp and practice adaptability if these officers encounter an organization that is neither adaptive nor innovative Instead Army culture must become adaptive and the personnel system must evolve into one that nurtures adaptability in its policies practices and beliefs Only a detailed comprehensive plan where nothing is sacred will pave the way to cultural evolution <u>Undeclared War and the Future of U.S. Foreign Policy Kenneth</u> B. Moss, 2008-04-23 Discusses the controversy between a declared war and an undeclared war and whether or not the President and Congress has a right to send troops according to the Constitution The author suggests that to this very day almost all U S laws about the appropriate constitutional control over using force face serious challenges from developments such as future weapons technology and information technology since they originated out of the eighteenth century

Hawker's Early Jets Christopher Budgen, 2022-02-10 A study of the British manufacturer's efforts to get its Hunter aircraft into service following World War II On September 2 1947 Hawker Aircraft Ltd figuratively and literally took to the air with their first jet design the P 1040 Conceived in the latter days of the Second World War and developed in the straitened times of post war austerity the aircraft allowed Hawker to explore the new technology before moving on to more ambitious programs Rejected by the Royal Air Force subsequent development of the aircraft allowed the Royal Navy to find in it a useful role at sea As this project slowly wound its way through the government bureaucracy against a background of national insolvency Hawker continued their research into more potent forms of jet travel with their first swept wing aircraft the P 1052 their first rocket powered example the P 1072 and finally the sleek all swept P 1081 These essentially research aircraft gave the company the experience and expertise it required to produce a powerful transonic fighter with which to equip the RAF for the defense of the UK and other friendly nations at a time when the Cold War threatened to engulf the world in a truly global nuclear conflict That aircraft the P 1067 Hunter first flew in 1951 and was at the time the fastest fighter in the

world as evinced by gaining the World Airspeed Record in 1953 prior to entry into RAF service at a stroke revolutionizing the potential of the UK s air arm Such was the haste with which this occurred that many teething problems remained to be resolved as detailed here but eventually the aircraft would become the day fighter of choice for many of the world's air forces **Congressional Record** United States.
