Slater,Gervase Rosser,2016-12-05 This volume of essays explores the interaction of Church and town in the medieval period in England Two major themes structure the book In the first part the authors explore the social and economic dimensions of the interaction in the second part the emphasis moves to the spaces and built forms of towns and their church buildings The primary emphasis of the essays is upon the urban activities of the medieval Church as a set of institutions parish diocese monastery cathedral In these various institutional roles the Church did much to shape both the origin and the development of the medieval town In exploring themes of topography marketing and law the authors show that the relationship of Church and town could be both mutually beneficial and a source of conflict **Bulletin of the John Rylands Library** John Rylands Library,1915 *An Oxford Hall in Medieval Times* Alfred Brotherston Emden,1927 **Peasant Perceptions of Landscape** Stephen Miles,Stuart Brookes,2021 This volume marks a change in the areas of landscape history and the history of everyday life offering the first sustained analysis of how ordinary medieval and early modern people experienced and perceived their material environment and constructed their identities in relation to the places they lived focussing on the area of Ewelme hundred **Medieval Schools** Nicholas Orme,2006-01-01 A sequel to Nicholas Orme s widely praised study *Medieval Children* Children have gone to school in England since Roman times By the end of the middle ages there were hundreds of schools supporting a highly literate society This book traces their history from the Romans to the Renaissance showing how they developed what they taught how they were run and who attended them Every kind of school is covered from reading schools in churches and town grammar schools to schools in monasteries and nunneries business schools and theological schools The author also shows how they fitted into a constantly changing world ending with the impacts of the Renaissance and the Reformation Medieval schools anticipated nearly all the ideas practices and institutions of schooling today Their remarkable successes in linguistic and literary work organizational development teaching large numbers of people shaped the societies that they served Only by understanding what schools achieved can we fathom the nature of the middle ages **medieval lincoln , The Agrarian History of England and Wales: Volume 2, 1042-1350** H. E. Hallam,H. P. R. Finberg,Joan Thirsk,1967 This 1988 volume examines the agrarian history of England and Wales from Edward the Confessor to the outbreak of the Black Death in 1348 *Magna Carta Ancestry: A Study in Colonial and Medieval Families, 2nd Edition, 2011 , Finance and the Crusades* Daniel Edwards,2021-11-09 This book investigates the financial aspects of crusading in the thirteenth and early fourteenth

centuries Taking the kingdom of England as a case study it explores a variety of themes such as how much crusades cost how they were financed how funds were transferred to the East and how crusaders fared financially after their return Its fundamental argument in contrast with current historiography is that it was the private fundraising of individuals not the public fundraising of the Crown and the Church that constituted the life blood of the crusade movement in the period under consideration Indeed it is likely that the crusades were only able to remain central to the religious and political life of England and indeed western Christendom because participants and those in their connection continued to be willing to sacrifice their own financial wellbeing for the interests of the Holy Land
