Albert of Adelaide Howard Anderson,2012-07-10 At once an old fashioned buddy novel shoot em up and a work of deliciously imagined fantasy Howard L Anderson s dazzling debut presents the haunting story of a world where something has gone horribly awry Having escaped from Australia s Adelaide Zoo an orphaned platypus named Albert embarks on a journey through the outback in search of Old Australia a rumored land of liberty promise and peace What he will find there however away from the safe confinement of his enclosure for the first time since his earliest memories proves to be a good deal more than he anticipated Alone in the outback with an empty soft drink bottle as his sole possession Albert stumbles upon pyromaniacal wombat Jack and together they spend a night drinking and gambling in Ponsby Station a rough and tumble mining town Accused of burning down the local mercantile the duo flees into menacing dingo territory and quickly go their separate ways Albert to pursue his destiny in the wastelands Jack to reconcile his past Encountering a motley assortment of characters along the way a pair of invariably drunk bandicoots a militia of kangaroos hordes of the mercurial dingoes and a former prize fighting Tasmanian devil our unlikely hero will discover a strength and skill for survival he never

suspected he possessed Told with equal parts wit and compassion Albert of Adelaide shows how it is often the unexpected route and the most improbable companions that lead us on the path to who we really are Who you journey with after all is far more important than wherever it is you are going Plants of Western New South Wales G. M. Cunningham,2011-07-28 Now back in print Plants of Western New South Wales grew from the long experience and expertise which the authors acquired during their employment with their respective organisations in the arid and semi arid pastoral areas of the State Each author became aware of the need for a comprehensive record illustrating and describing the great array of plants in the area The need was identified both for people involved in research and advisory services and particularly for the landholders who need to manage the plants for their livelihood The book is a landmark because it draws together all of the existing knowledge of plants from the area adds to it the extensive collections and research of the authors and presents the whole as a comprehensive collation and description of the plants of the dry pastoral portion of the State Because of its comprehensive nature the work is significant to pastoralists and people concerned with plants throughout Australia The 1992 edition of Plants of Western New South Wales has been reprinted and published by CSIRO PUBLISHING with a one page appendix giving website addresses of various herbaria in Australia where the reader can readily access up to date information on botanical name changes **United States Imports of Merchandise for Consumption** ,1962
