

REPUBLICAN SENATE 1954-55 SEN. J. EDGAR BROWNE

AND THE  
HARVEY K. MILLER  
OF THE NEW YORK

# Roundtable Talks And The Breakdown Of Communism

**Jon Elster**

## **Roundtable Talks And The Breakdown Of Communism:**

*The Roundtable Talks and the Breakdown of Communism* Jon Elster, 1996-09 In five country specific reports senior scholars provide detailed accounts of the talks in Bulgaria Poland Hungary Czechoslovakia and the German Democratic Republic These essays capture the historical circumstances of these countries their traditions customs and the balance of influence between competing factions that often took precedence over constitutional ideals [The Roundtable Talks and the Breakdown of Communism](#) Jon Elster, 1996 **Problems of Democratic Transition and Consolidation** Juan J. Linz, Alfred Stepan, 1996-08-16 5 Actors and contexts **Annual of German and European Law** Russell A. Miller, Peer Zumbansen, 2004 Complementing the highly successful online German Law Journal this new publication aims to deepen and develop some of the issues discussed in the Journal as well as to take up new questions and directions of commentary Focusing on pressing legal questions of socio political relevance it offers scholarly articles reports book reviews and selected statutes or court decisions in English translation in all fields of German and European Law The main objective is to offer border transcending and interdisciplinary research into fast moving areas of the law often involving a complex array of institutional political and private actors [Coming in from the Cold War](#) Sabrina P. Ramet, Christine Ingebritsen, 2001-12-20 The early 1980s brought dramatic changes in East West relations The decade began with the death of Yugoslavia's Tito the birth of Poland's Solidarity trade union and the U S election of Ronald Reagan as president These key developments together with the growing financial insolvency of the Soviet bloc and shifts in power in the Kremlin culminating in the election of Mikhail Gorbachev as general secretary of the Communist Party of the Soviet Union in 1985 signalled the end of an era Since then U S relations with Europe have charted a new course influenced especially by the dissolution of the Warsaw Pact the expansion of NATO and the growing strength of the European Union This volume analyzes U S relations with Britain France Germany Spain Russia Poland and Ukraine and examines the new role for NATO in the post Cold War world and the evolving dynamics in the U S EU partnership Through their assessment of mutual perceptions evolving interests and clashing agendas the contributors offer a fresh and thoughtful exploration of the relationship between the United States and the major European states **Vaclav Havel** John Keane, 2008-01-04 This authorized biography of Havel based on unrestricted access to him his circle and even his enemies is not only the first definitive account of one of the modern world's great moral and political leaders but also a vivid panorama of the tumultuous events of his times Havel's life like that of his African counterpart Nelson Mandela has been shaped and determined by the large political shifts of the twentieth century Readers will taste the moments of joy irony farce and misfortune through which he has lived and realize that he has taught the world more about the powerful and the powerless power grabbing and power sharing than virtually anyone else on the world stage [Historical Dictionary of Bulgaria](#) Raymond Detrez, 2014-12-18 Bulgaria is a country of extraordinary beauty with high wild mountains and gentle valleys and with picturesque cities and idyllic villages It's bordered by Romania Serbia Macedonia

Greece Turkey and the Black Sea After many years of communist rule Bulgaria adopted a democratic constitution and began the process of moving toward political democracy and a market economy while combating inflation unemployment corruption and crime The country joined NATO in 2004 and the EU in 2007 This third edition of Historical Dictionary of Bulgaria covers its history through a chronology an introductory essay appendixes and an extensive bibliography The dictionary section has over 700 cross referenced entries on important personalities politics economy foreign relations religion and culture This book is an excellent access point for students researchers and anyone wanting to know more about Bulgaria

**The Walls Came Tumbling Down** Gale Stokes,2012 Gale Stokes The Walls Came Tumbling Down offered one of the most respected interpretations of the East European revolutions of 1989 for many years It provides a sweeping yet vivid narrative of the two decades of developments that led from the Prague Spring of 1968 to the collapse of communism in 1989 Highlights of that narrative include among other things discussions of Solidarity and civil society in Poland Charter 77 and the Velvet Revolution in Czechoslovakia and the bizarre regime of Romania's Nicolae Ceauescu and his violent downfall In this second edition now appropriately subtitled Collapse and Rebirth in Eastern Europe Stokes not only has revised these portions of the book in the light of recent scholarship but has added three new chapters covering the post communist period including analyses of the unification of Germany and the collapse of the Soviet Union narratives of the admission of many of the countries of the region to the European Union and discussion of the unfortunate outcomes of the Wars of Yugoslav Succession in the Western Balkans

**Democracy and Post-Communism** Graeme Gill,2003-08-27 The collapse of communism was widely heralded as the dawn of democracy across the former Soviet region However the political outcome has been much less uniform The post communist states have developed political systems from democracy to dictatorship Using examples and empirical data collected from twenty six former Soviet states Graeme Gill provides a detailed comparative analysis of the core issues of regime change the creation of civil society economic reform and the changing nature of post communism Within these individual cases it becomes clear that political outcomes have not been arbitrary but directly reflect the circumstances surrounding the birth of independence Students of Comparative Politics International Relations and Russian and Post Soviet Studies should find this book essential reading

**Triggering Communism's Collapse** Marjorie Castle,2003 Through research and interviews Castle examines the causes and consequences of Poland's collapse as a communist state and explores how today's leaders confront some of the legacies of transition

**Gender, Institutions and Political Representation** Cristina Chiva,2017-11-21 This book traces the struggles over the institutions of political representation in Central and Eastern Europe focusing on the factors that have held women back over the post communist period as well as on the growing evidence for change throughout the region Post communist Europe has long raised two puzzles for scholars of women's representation in politics First why have women been under represented in politics in every country in the region since communism's collapse Secondly why are there relatively few cases where women's advocates

have been successful in pressing for change This comparative study of Europe's new democracies argues that these puzzles are best understood as questions about male dominance that is about the mechanisms that sustain or alternatively change long established patterns of male over representation in politics over time The author covers six EU member states Bulgaria the Czech Republic Hungary Poland Romania and Slovakia during the period 1990-2016 The book will be of use to students and scholars in the fields of Comparative Politics Democracy and Democratization European Studies Gender Studies Post Communist Studies and Central and Eastern European Studies

**Central and Eastern Europe After Transition**

Wojciech Sadurski, 2016-04-08 How have national identities changed developed and reacted in the wake of transition from communism to democracy in Central and Eastern Europe Central and Eastern Europe After Transition defines and examines new autonomous differences adopted at the state and the supranational level in the post transitional phase of the post Communist area and considers their impact on constitutions democracy and legal culture With representative contributions from older and newer EU members the book provides a broad set of cultural points for reference Its comparative and interdisciplinary approach includes a useful selection of bibliographical resources specifically devoted to the Central Eastern European countries transitions

**Women's Access to Political Power in Post-Communist Europe** Richard E.

Matland, Kathleen A. Montgomery, 2003-05-01 This book considers women's access to formal positions of powers in the newly formed democracies of post communist Europe While acknowledging the relevance of recent history this book takes an important step away from the communist legacy and explicitly argues for a framework based on causal variables identified in the existing literatures from industrialized democracies on women and politics and legislative recruitment After a brief introduction the second chapter sets forth a general theoretical framework which posits that the level of female legislative representation in a given country is a function of the relative supply of and demand for female candidates After a chapter considering a broad overview of public opinion on women and politics in Eastern Europe thirteen country chapters spanning the spectrum of Eastern European democracies address and test hypotheses about the key variables affecting the supply and demand sides of the equation in individual countries Relevant aspects of the communist cultural and developmental legacy are addressed but authors give particular attention to political factors such as electoral rules and the characteristics of the emerging party systems that vary within the Eastern European countries The new democracies of Eastern Europe provide a novel context in which to test and extend our theories about the consequences of political institutions for the quality of democracy Since institutional arrangements are more malleable than developmental or cultural characteristics those variables also offer the greatest promise to scholars and practitioners wondering what can be done to improve women's access to formal arenas of political power How can we build democracies that are stable lasting and representative A careful analysis of the post communist context can help us to address issues concerning institutional design and development that has relevance well beyond the Eastern European context

**Electoral Systems and Political Transformation in**

**Post-Communist Europe** S. Birch, 2003-11-25 Electoral Systems and Political Transformation in Post Communist Europe assesses the influence of electoral systems on political change in 20 post communist European states The main finding is that electoral institutions have systematic effects on the formation of representative structures Party enabling aspects of electoral laws such as list proportional representation tend to foster popular inclusion in politics and institutionalized party systems whereas politician enabling rules such as single member districts and ballots that allow voters to select individuals often favour the development of weakly structured systems and high levels of popular exclusion from the representative process

**Preying on the State** Venelin I. Ganey, 2013-07-02 Immediately after 1989 newly emerging polities in Eastern Europe had to contend with an overbearing and dominant legacy the Soviet model of the state At that time the strength of the state looked like a massive obstacle to change less than a decade later the state s dominant characteristic was no longer its overweening powerfulness but rather its utter decrepitude Consequently the role of the central state in managing economies providing social services and maintaining infrastructure came into question Focusing on his native Bulgaria Venelin I Ganey explores in fine grained detail the weakening of the central state in post Soviet Eastern Europe Ganey starts with the structural characteristics of the Soviet satellites and in particular the forms of elite agency favored in the socialist party state As state socialism collapsed Ganey demonstrates its institutional legacy presented functionaries who had become accustomed to power with a matrix of opportunities and constraints In order to maximize their advantage under such conditions these elites did not need a robust state apparatus in fact all of the incentives under postsocialism pushed them to subvert the infrastructure of governance Throughout Preying on the State Ganey argues that the causes of state malfunctioning go much deeper than the policy preferences of free marketeers who deliberately dismantled the state He systematically analyzes the multiple dimensions implications and significance of the institutional and social processes that transformed the organizational basis of effective governance

**Minorities and Law in Czechoslovakia, 1918-1992** Jan Kuklík, René Petráš, 2017-05-01 Ethnic minority issues played an important role in the history of Czechoslovakia from 1918 during World War II and in the years immediately following it Czechoslovakia became a model for solving ethnic and minority problems and legal regulations had always played a key role in the status of minorities This book which deals with issues concerning ethnic and language minorities in Czechoslovakia from a long term perspective is primarily intended for foreign readers In recent years ethnic minority issues are once again becoming relevant in Europe and thorough knowledge of earlier problems and solutions may facilitate further examination of the current problems Health Reforms in

Post-Communist Eastern Europe Tamara Popic, 2023-01-01 This book provides the first in depth study of healthcare reforms in post communist Eastern Europe Combining insights from comparative politics and public policy analysis it examines health reforms in Slovenia the Czech Republic and Poland between 1989 and 2019 The book argues that the post communist transformation of healthcare policy has entailed a process of policy learning and that the countries reform pathways were

shaped by a series of initiatives aimed at applying market oriented policy ideas in healthcare The success of these initiatives has been influenced by three factors policy legacies political competition and institutional configurations The book offers a novel comparison of health reform in the region and policy changes more generally It will appeal to scholars and students of public policy health policy and European politics

**The Adventures of the Constituent Power** Andrew Arato, 2017-11-30

Constitutions are made in almost all transformation of regimes What are the dangers and the hopes associated with such a process What can make constitution making legitimate The Adventures of the Constituent Power explores the democratic methods by which political communities make their basic law arguing that the most advanced method developed from Spain and South Africa The first part of this book focuses on history of the idea of constitution making before and during the democratic revolutions of the eighteenth century The second part traces the notion of the constituent power in recent regime transitions that were consciously post revolutionary from Spain to South Africa With the return of revolutions or revolutionary patterns of constitution making the book examines the use and potential failure of the new ideas available The third part then proceeds to consider the type of constitution that is likely to emerge from the post sovereign process

*The Politics of a Disillusioned Europe* André Liebich, 2021-11-16

Moving from the fall of the Berlin Wall in 1989 to the present day this book traces the trajectory of the six East Central European former satellites of the Soviet Union Poland Hungary the Czech Republic Slovakia Romania Bulgaria that have joined the European Union It seeks in particular to explain these countries disenchantment with the return to Europe in spite of their significant advances The book proceeds country by country and then devotes chapters to some contemporary issues such as minorities migration and the relations of these new members with the European Union as a whole The book eschews theory and is intended for a general audience including students at all levels in political science and history classes devoted to the EU and to contemporary Europe and to an academic and practitioner audience interested in world affairs and the evolution of the European Union The book strives to fill a persistent knowledge gap in the English speaking world concerning East Central Europe and to offer fresh insights about the region in the context of contemporary geopolitics

[The Routledge Handbook of East European Politics](#) Adam Fagan, Petr Kopecký, 2017-08-15

The Routledge Handbook of East European Politics is an authoritative overview that will help a wide readership develop an understanding of the region in all its political economic and social complexity Including Central Europe the Baltic republics South Eastern Europe and the Western Balkans as well as all the countries of the former Soviet Union it is unrivalled in breadth and depth affording a comprehensive overview of Eastern European politics provided by leading experts in the fields of comparative politics international relations and public administration Through a series of cutting edge articles it seeks to explain and understand patterns of Eastern European politics today The Routledge Handbook of East European Politics will be a key reference point both for advanced level students developing knowledge about the subject researchers producing new material in the area and those interested and working in the fields of East European

Politics Russian Politics EU Politics and more broadly in European Politics Comparative Politics Democratization Studies and International Relations
