Entrepreneurship and Local Economic Development Bruno Dallago, Ermanno Tortia, 2018-09-05 This book focuses on the nature and role of entrepreneurship in modern developed and emerging economies and societies its relation to governments and universities and its role in the often forgotten informal economy The aim is to position entrepreneurship in the post crisis context and explore how its relation to universities and governments contributes to explain the countries and territories growth performance and resilience or vulnerability to the crisis The accent is particularly on processes and patterns at local level and in small and medium sized enterprises in local economic systems and districts local systems of innovation and the types and configurations of innovation these give origin to With globalization entrepreneurship has become fundamental for the competitiveness of territories and countries for policy management and for development The local dimension is fundamental because of agglomeration economies and effects the advantages of proximity and the nature of knowledge and information Furthermore territories carry to the centre stage tacit knowledge localized social capital embeddedness and interpersonal relations as fundamental components of their endogenous socio economic development and competitiveness When local systems are connected in a horizontal network they contribute to the strength of national and international

systems To play a constructive role from this perspective entrepreneurship must avoid local entrenchment and support the local economy to upgrade and be competitive To do this the entrepreneurs interaction and alliance with universities and governments is a must for those countries and localities wanting to emerge This requires that enterprises universities and governments create synergies and spill overs to their mutual advantage

**Growth Policy in the Age of High Technology** Jurgen Schmandt, Robert Wilson, 2018-03-29 Originally published in 1990 this book provides an authoritative and detailed account of the initiatives of US state governments with science and technology programs designed to foster economic growth Two key questions are posed Do state governments have policy instruments that are sufficiently powerful to affect the levels and growth rates of their regional economies and Are national and global economic forces so powerful that they render state action ineffective Several subsidiary themes are discussed in this context namely the most commonly used policy instruments the impacts on federalism and on governance and how well the universities and other educational institutions serve the economic activities imposed on them

Greater Boston's Blizzard of 1978 Alan R. Earls, 2008 The great blizzard of 1978 is an event seared in the memory of anyone who lived through it Most of Greater Boston was quickly overwhelmed by the storm which shut down all forms of transit stranded thousands of cars and motorists along Route 128 and virtually shut down most of the state for a week But for many coastal communities the impact of the storm which brought record high tides and pounding surf was pure devastation The common thread shared by almost everyone in the region was positive memories of neighbors and strangers helping each other and finding new bonds of community Greater Boston's Blizzard of 1978 illustrated with approximately 200 photographs from government archives and private collections brings alive the fading experiences of February 1978 for those who were there and those who can only imagine
