Higher Education Management and Development. Compendium for Managers Jeroen Huisman, Attila Pausits, 2010 Today as never before it is imperative that university managers possess the knowledge and the competencies necessary for leading modern higher education institutions Professional management enables higher education institutions to cooperate more effectively with partners ranging from local businesses to international enterprises and other stakeholders As higher education institutions grow larger and extend their reach into new areas and the functions demanded of them multiply academic administration and management become increasingly complex thus the need for skilled management and administrative personnel becomes more acute This book emerged as the product of the European Higher Education Management and Development EHEMD project a European multilateral curriculum development project under the coordination of the Danube University Krems and funded by the European Union in the framework of the Erasmus Lifelong Learning Programme Focusing not only on theoretical points of view but also on their practical applications as demonstrated in the accompanying case studies the publication covers the key aspects of modern university management The booklet is structured so that each chapter presents a particular aspect and application of university management and the entire volume reflects the core contents of the EHEMD curriculum Can higher education management be taught While we confidently say yes the answer needs some qualification The yes applies because higher education management is no different from any other subject in the social sciences The qualification is that a sound pedagogical philosophy and structure need to underpin such a programme The fundamentals of the EHEMD programme are that it is interdisciplinary that it is practice oriented and that students learn from each other and also learn independently With a strong emphasis on Central Southern and Eastern Europe this book addresses management challenges in higher education today and in the near future

Higher Education Pedagogies Walker, Melanie, 2005-11-01 What does higher education learning and teaching enable students to do and to become Which human capabilities are valued

in higher education and how do we identify them How might the human capability approach lead to improved student learning as well as to accomplished and ethical university teaching This book sets out to generate new ways of reflecting ethically about the purposes and values of contemporary higher education in relation to agency learning public values and democratic life and the pedagogies which support these It offers an alternative to human capital theory and emphasises the intrinsic as well as the economic value of higher learning Based upon the human capability approach developed by economist Amartya Sen and philosopher Martha Nussbaum the book shows the importance of justice as a value in higher education It places freedom human flourishing and students educational development at its centre Furthermore it takes up the value Sen attributes to education in the capability approach and demonstrates its relevance for higher education Higher Education Pedagogies offers illustrative narratives of capability learning and pedagogy drawing on student and lecturer voices to demonstrate how this multi dimensional approach can be developed and applied in higher education It suggests an ethical approach to higher education practice and to teaching and learning policy development and evaluation As such the book is essential reading for students and scholars of higher education as well as university lecturers managers and policy makers concerned with teaching and learning Higher Education: A Worldwide Inventory of Centers and Programs ,2007-01-01 The field of higher education studies has expanded dramatically in recent years This book provides a unique and comprehensive guide including an inventory of 199 centers programs and institutes in the field a essay analyzing the emergence and current status of higher education as an area of study and a listing of 191 journals focusing on higher education Together these three resources constitute the more comprehensive overview of the field available anywhere Philip G Altbach s essay Research and training in higher education discusses the origins of the field the central issues of concern in the research literature and trends among centers and institutes focusing on higher education worldwide The inventory which constitutes most of the book provides information on the centers and programs including the names of staff members focus of work and relevant addresses and websites The expansion in the number of journals in the field is illustrated in the journals listing which provides information about editors substantive focus and addresses of journals throughout the world This book is a unique resources and a benchmark for an emerging field Reform of Higher Education in Europe J. Enders,H.F. de Boer,D.F. Westerheijden,2011-10-21 The volume Reform of Higher Education in Europe is published in celebration of CHEPS 25th anniversary All contributors to this book are working at CHEPS and bring their extensive knowledge of the deep seated reforms and changes to the field of higher education and research over the last 25 years The chapters are each devoted to a detailed policy analysis deeply rooted in CHEPS quarter century programme of theoretical and empirical research Some contributions cover key themes of concern since CHEPS early years including state university relationships quality assurance and funding Other contributions cover more contemporary higher education policy issues including European reform initiatives innovation the Bologna Process doctoral training and the Erasmus programme and debates around higher

education institutions evolving functions including the university's third mission and the research function of universities of applied sciences. What unifies all chapters is their recognition that policy success is dependent on smart implementation grounded in a comprehensive understanding of highly complex policy processes. The book as a whole offers clear descriptions and analyses of how policy processes are implemented through co-ordinated institutional and stakeholder interventions. This volume seeks to enhance academic and policy maker understanding of Europe's evolving higher education system as it emerges as a cornerstone of the contemporary knowledge society.

The RoutledgeFalmer Reader in Education Policy and Politics Bob Lingard, Jenny Ozga, 2007-01-24 This Reader brings together selected papers from leading scholars to address the most significant recent development in educational policy and politics: the impact of globalisation. The papers discuss, document and analyse evidence of globalisation's effects on the new direction of education policies and practices and in the production of globalised agendas for the redesign of state provision and the governance of education. The Reader is organised in two parts. The first part provides a selection of articles that interrogate globalisation and its effects from a variety of analytical perspectives and explore what kind of politics are possible in the framing context of globalisation. The second part documents and discusses different types of engagement with politics and policy in a variety of settings and sectors including numerous European and Pacific Rim policy contexts. This important collection underlines the need to approach globalisation, education policy and politics from numerous perspectives and offers analytical, empirical and theoretical resources for the reframing of contemporary education politics. Students of educational policy and politics will find this Reader an invaluable resource for understanding, theorising and researching in these academic fields.

Teacher Professionalism in Further and Higher Education Jocelyn Robson, 2007-05-07 Teachers from further and higher education are rarely considered together. This book explores the differences and similarities that exist between these groups. It provides an up-to-date account of developments and brings together arguments and debates about both groups of teachers to challenge some strongly held beliefs. Focusing on aspects of teachers' professionalism, Jocelyn Robson considers what professionalism may mean and ways in which professionalism has been studied. She goes on to consider professional standards, training and qualifications, professional identities and communities, opportunities and strategies for professional development and renewal, key debates in the literature and the most significant policy developments, the main challenges currently facing the teaching profession in further and higher education.

Refugees and Higher Education Lisa Unangst, Hakan Ergin, Araz Khajarian, Tessa DeLaquil, Hans de Wit, 2020-07-13 *Refugees and Higher Education* provides a cross-disciplinary lens on one American university's approach to studying the policies, practices and experiences associated with the higher education of refugee background students. The focus is not only on refugee education as an issue of access and equity but also on this phenomenon as seen through the lens of internationalization. What competencies are called for among university faculty and staff welcoming refugee background students to their institutional contexts? How might distance learning be considered anew?

These challenges and opportunities for institutional growth will be closely considered by this group of authors from educational leadership social work curriculum development and higher education itself They address key world regions and sub topics ranging from online education in refugee camps to the Brazilian and Colombian responses to the emerging crisis in Venezuela Scholars researching refugee education cross nationally often find that refugee education literature is parsed by disciplinary field This book in contrast offers a comprehensive multi disciplinary overview of refugee education issues around the world These perspectives also provide key insights for faculty and staff at higher education institutions that currently enroll asylees or refugees as well as those that may do so in the future

Feminist Pedagogy in Higher Education Tracy Penny Light, Jane Nicholas, Renée Bondy, 2015-07-31 In this new collection contributors from a variety of disciplines provide a critical context for the relationship between feminist pedagogy and academic feminism by exploring the complex ways that critical perspectives can be brought into the classroom This book discusses the processes employed to engage learners by challenging them to ask tough questions and craft complex answers wrestle with timely problems and posit innovative solutions and grapple with ethical dilemmas for which they seek just resolutions Diverse experiences interests and perspectives together with the various teaching and learning styles that participants bring to twenty first century universities necessitate inventive and evolving pedagogical approaches and these are explored from a critical perspective The contributors collectively consider the implications of the theory practice divide which remains central within academic feminism's role as both a site of social and gender justice and as a part of the academy and map out some of the ways in which academic feminism is located within the academy today

The Transformational Potential of Higher Education Inclusion Jesús Humberto Pineda Olivieri, 2017 In the field of higher education research one of the most fascinating observations is the consistent and permanent expansion of higher education systems worldwide since the end of the Second World War Undoubtedly the predominant approach to address these developments has been through quantitative analysis as well as international comparisons The following work examines the particularities of the Venezuelan context with the aim of identifying specific features of this worldwide phenomenon in this South American case Through a combination of qualitative methods the author proposes a biographical approach for the study of higher education inclusion processes which takes into account the perspectives and experiences of those who have been targeted by an ambitious higher education expansion process The most distinctive feature of this work would be its methodological contribution to the field of higher education research One could also argue that the ethnographic account of the Bolivarian Missions of education in Chavez's Venezuela is both original and unprecedented Furthermore the writing approach bridges the interests of both academics practitioners of the field and members of the general public

Education and Society Rachel Brooks, 2018-10-04 This new textbook offers a wide ranging discussion of the key debates within the sociology of education Covering everything from policymaking and the curriculum to class ethnicity and gender and the ways that they and other social divisions intersect to

produce inequalities this timely publication provides a much needed contribution to the study of education's vital role in contemporary society. With examples drawn from such diverse contexts as Australian pre schools, Finnish higher education institutions and English further education colleges, the text presents students with an international perspective and encourages them to engage critically with some of the core questions that lie at the heart of the topic: what is the purpose of education? who decides what formal education entails and what impact does education have on both society and individuals? Rachel Brooks's extensive knowledge of decades of scholarly work in education and sociology ensures the book is academically rigorous throughout, while the final chapter on emerging educational research means it is fully up to date. The text's accessible style is ideally suited to all those new to the topic and studying the sociology of education for the first time, whether this be from departments of sociology, childhood studies, social policy or a range of other social science disciplines.
