**Mentoring in Eighteenth-Century British Literature and Culture** Anthony W. Lee, 2016-04-22. In the first collection devoted to mentoring relationships in British literature and culture, the editor and contributors offer a fresh lens through which to observe familiar and lesser-known authors and texts. Employing a variety of critical and methodological approaches which reflect the diversity of the mentoring experiences under consideration, the collection highlights in particular the importance of mentoring in expanding print culture. Topics include John Wilmot, the Earl of Rochester's relationships to a range of role models; John Dryden's mentoring of women writers; Alexander Pope's problematic attempts at mentoring; the vexed nature of Jonathan Swift's cross-gender and cross-class mentoring relationships; Samuel Richardson's largely unsuccessful efforts to influence Urania Hill Johnson; and an examination of Elizabeth Carter and Samuel Johnson's as co-mentors of one another's work. Taken together, the essays further the case for mentoring as a globally operative critical concept, not only in the eighteenth century but in other literary periods as well.

**The Devlin Diary** Christi Phillips, 2012-12-11. London 1672. A vicious killer stalks the court of Charles II, inscribing his victims' bodies with mysterious markings. Are these the random murders of a madman? The deadly consequence of a personal vendetta? Or the grisly result of a hidden conspiracy? Cambridge 2008. A Trinity College history professor is found dead, the torn page of a seventeenth-century diary in his hand. His death appears to be an accident, but the college's newest Fellow, Claire Donovan, and historian Andrew Kent suspect otherwise. The professor's last research subject was Hannah Devlin, a physician to the king's mistress and the keeper of a diary that holds the key to a series of unsolved murders in 1670s London. Through the arcane collections of Trinity's Wren Library, the British Library, and the Royal Society, Claire and Andrew follow the clues Hannah left behind, unearthing secrets of the past and present as both stories unfold to their shocking conclusions.

British history in the period from the restoration of 1660 to the revolution of 1688 no less than in other periods has been subject to revisionism. This volume examines and analyses some of the challenging new theories relating to politics, society, religion, and culture that have attracted attention in recent years. It provides both a wide-ranging survey of the principal themes of the post-restoration era and a series of insights derived from the detailed research of individual contributors.
