Unravelling the Silk Road Christopher Alexander, 2023-06-15 Three textile roads tangle their way through Central Asia The famous Silk Road united east and west through trade Older still was the Wool Road of critical importance when houses made from wool enabled nomads to traverse the inhospitable winter steppes Then there was the Cotton Road marked by greed colonialism and environmental disaster At this intersection of human history fortunes were made and lost through shimmering silks life giving felts and gossamer cottons Chris Aslan who has spent fifteen years living and working in the region expertly unravels the strands of this tangled history and embroiders them with his own experiences of life in the heart of Asia *The Deserts of Central Asia* Mikhail Platonovich Petrov, 1966

historians understanding of the past both worldwide and across time The successful use of material culture in history depends on treating material things of many kinds not as illustrations but as primary evidence Each kind of material thing and there are many requires the application of interpretive skills appropriate to it These skills overlap with those acquired by scholars in disciplines that may abut history but are often relatively unfamiliar to historians including anthropology archaeology and art history Creative historians can adapt and apply the same skills they honed while studying more traditional text based documents even as they borrow methods from these fields They can think through familiar historical problems in new ways They can also deploy material culture to discover the pasts of constituencies who have left few or no traces in written records The authors of this volume contribute case studies arranged thematically in six sections that respectively address the relationship of history and material culture to cognition technology the symbolic social distinction and memory They range across time and space from Paleolithic to Punk
