A Satire Anthology, 1905 *A Satire Anthology* Carolyn Wells, 2014-01-16

From the INTRODUCTION SATIRE though a form of literature familiar to everyone is difficult to define Partaking variously of sarcasm irony ridicule and burlesque it is exactly synonymous with no one of these Satire is primarily dependent on the motive of its writer Unless meant for satire it is not the real thing unconscious satire is a contradiction of terms or a mere figure of speech Secondly satire depends on the reader What seems to us satire to day may not seem so tomorrow Or what seems satire to a pessimistic mind may seem merely good natured chaff to an optimist This of course refers to the subtler forms of satire Many classic satires are direct lampoons or broadsides which admit of only one interpretation Literature numbers many satirists among its most honoured names and the best satires show intellect education and a keen appreciation of human nature Nor is satire necessarily vindictive or spiteful Often its best examples show a kindly tolerance for the vice or folly in question and even hint a tacit acceptance of the conditions condemned Again in the hands of a carping and unsympathetic critic satire is used with vitriolic effects on sins for which the writer has no mercy This lashing form of satire was doubtless the earliest type The Greeks show sardonic examples of it but the Romans allowed a broader sense of humour to soften the satirical sting Following and outstripping Lucilius Horace is the acknowledged father of satire and was himself followed and in the opinion of some outstripped by Juvenal But the works of the ancient satirists are of interest mainly to scholars and cannot be included in a collection destined for a popular audience The present volume therefore is largely made up from the products of more recent centuries From the times of Horace and Juvenal down through the mediaeval ages to the present day satires may be divided into the two classes founded by the two great masters the work of Horace's followers marked by humour and tolerance that of Juvenal's imitators by bitter invective On the one side the years have arrayed such names as Chaucer Swift Goldsmith and Thackeray on the other Langland Dryden Pope and Burns A scholarly gentleman of our own day classifies satires in three main divisions those directed at society those which ridicule political conditions and those aimed at individual characters These variations of the art of satire form a fascinating study and to one interested in the subject this small collection of representative satires can be merely a series of guide posts It is the compiler's regret that a great mass of material is necessarily omitted for lack of space other selections are discarded because of their present untimeliness which deprives them of their intrinsic interest But an endeavour has been made to represent the greatest and best satiric writers and also to include at least extracts from the masterpieces of satire It is often asked why we have no satire at the present day Many answers have been given but one reason is doubtless to be found in the acceleration of the pace of life fads and foibles follow one another so quickly that we have time neither to write nor read satiric disquisitions upon them Another reason lies in the fact that we have achieved a broader and more tolerant human outlook Again the true satirist must be possessed of earnestness and sincerity And it is a question whether the mental atmosphere of the twentieth century tends to stimulate and

foster those qualities These explanations however seem to apply to American writers more especially than to English The leisurely thinking Briton with his more personal viewpoint has produced and is even now producing satires marked by strength
