Wells, 2003 Plundering the Egyptians John J. Yeo, 2009-11-16 Plundering the Egyptians focuses on the study of the Old
Testament at Westminster Theological Seminary from 1929 to 1998 More specifically it presents the lives and academic
labors of Robert Dick Wilson 1929 1930 Edward Joseph Young 1936 1968 Raymond Bryan Dillard 1969 1993 and Tremper
Longman III 1981 1998 These featured scholars were highly influential in changing the shape of Old Testament studies at
Westminster through the introduction of novel scholarly tools and ideas that reveal methodological and theological
development Their individual historical contexts scholarly contributions and interactions with historical critical scholarship
are presented and analyzed Modifications in their respective methodologies are highlighted and often indicate significant
shifts within the Old Princeton Westminster trajectory from an anti critical stance toward a position of openness toward
historical critical methodology and its conclusions The implications of these shifts within Westminster are important because
they mirror the current changes and challenges in evangelicalism today *Learner English on Computer* Sylviane
Granger, 2014-02-04 The first book of its kind Learner English on Computer is intended to provide linguists students of
linguistics and modern languages and ELT professionals with a highly accessible and comprehensive introduction to the new
and rapidly expanding field of corpus based research into learner language Edited by the founder and co ordinator of the
International Corpus of Learner English ICLE the book contains articles on all aspects of corpus compilation design and

analysis The book is divided into three main sections in Part I the first chapter provides the reader with an overview of the field explaining links with corpus and applied linguistics second language acquisition and ELT The second chapter reviews the software tools which are currently available for analysing learner language and contains useful examples of how they can be used Part 2 contains eight case studies in which computer learner corpora are analysed for various lexical discourse and grammatical features The articles contain a wide range of methodologies with broad general application The chapters in Part 3 look at how Computer Learner Corpus CLC based studies can help improve pedagogical tools EFL grammars dictionaries writing textbooks and electronic tools Implications for classroom methodology are also discussed The comprehensive scope of this volume should be invaluable to applied linguists and corpus linguists as well as to would be learner corpus builders and analysts who wish to discover more about a new exciting and fast growing field of research
