Lovers Rapture:

Soulific Lover Alan P Garfoot, 2010-02-19 The second of a collection of three books being a collection of poems covering topics such as romance and love the nature of the spirit the depths of the soul and the breadth of the mind *Married Love* Marie Carmichael Stopes, 2015-01-30 Example in this ebook In this little book Dr Marie Stopes deals with subjects which are generally regarded as too sacred for an entirely frank treatment Some earnest and delicate minds may feel apprehensive that such frankness in details is dangerous because the effect on prurient minds might be to give them food for their morbid fancies It is just such a fear which has been largely responsible for the silence and mystery which have for so long been wrapped round the sacred rites of mating The question now is Has this reticence been carried too far Has it been carried so far that it now tends to defeat its purpose of safeguarding public morals There are many who unhesitatingly answer such questions in the affirmative Their intimate knowledge of human lives compels them to recognise that at least as much harm is done by silence as by speaking out Everything depends on how the matter is presented Those who are shocked at the publication of such a book as this on the ground that it gives material for impure minds to sport with need only reflect that such material is already amply provided in certain comic papers in hosts of inferior novels too often on the stage and film and presented thus in coarse and demoralising guise It can do nothing but good to such minds to meet the facts they are already so familiar with in a totally new light On the other hand there are all the earnest and noble young minds who seek to know what responsibilities they are taking on themselves when they marry and how they may best meet these responsibilities How few of them have more than the vaguest ideas on the subject How few of them know how or where to obtain the help they desire They recoil from the coarse and impure sources of information which are so accessible and they hesitate to approach those they have learned to regard as virtuous and modest realising that from such they will receive so little actual information and that so veiled as to be almost useless Dr Stopes has attempted to meet the need of such seekers and her book will certainly be warmly welcomed by them It is calculated to prevent many of those mistakes which wreck the happiness of countless lovers as soon as they are actually married If it did no more than this it would be valuable indeed But there is an even more important aspect to be considered the effect on the child In all civilised lands there is a growing sense of responsibility towards the young The problems of their physical and mental nurture attract more and more attention day by day Eugenists educationists physicians politicians philanthropists and even ordinary parents discuss and ponder and discuss matters both great and small which have a bearing on the development of the child By common consent the first seven years of life are regarded as the most critical It is during these years that the foundations of the personality to be are laid well and truly or otherwise It is during these years that the deepest and most ineradicable impressions are made in the plastic constitution of the child arresting or developing this or the other instinctive trend and fixing it often for life And it is during these years above all that the parents play the most important role in the inner history of the child's life not so much

by anything they directly teach through verbal exhortations warnings or commands as by those subtler influences which are conveyed in gesture tone and facial expression The younger the child the more is it influenced through these more primitive modes of expression and quite as much when they are not directed towards itself but are employed by the parents in their intimate relations with one another in the presence of their apparently unobserving child the infant in its cot the toddling baby by the hearth the little child to all appearance absorbed in its picture book or toy To be continue in this ebook

Volition's Face Andrew Escobedo,2017-04-30 Modern readers and writers find it natural to contrast the agency of realistic fictional characters to the constrained range of action typical of literary personifications Yet no commentator before the eighteenth century suggests that prosopopoeia signals a form of reduced agency Andrew Escobedo argues that premodern writers including Spenser Marlowe and Milton understood personification as a literary expression of will an essentially energetic figure that depicted passion or concept transforming into action As the will emerged as an isolatable faculty in the Christian Middle Ages it was seen not only as the instrument of human agency but also as perversely independent of other human capacities for example intellect and moral character Renaissance accounts of the will conceived of volition both as the means to self creation and the faculty by which we lose control of ourselves After offering a brief history of the will that isolates the distinctive features of the faculty in medieval and Renaissance thought Escobedo makes his case through an examination of several personified figures in Renaissance literature Conscience in the Tudor interludes Despair in Doctor Faustus and book I of The Faerie Queen Love in books III and IV of The Faerie Queen and Sin in Paradise Lost These examples demonstrate that literary personification did not amount to a dim reflection of realistic fictional character but rather that it provided a literary means to explore the numerous conundrums posed by the premodern notion of the human will This book will be of great interest to faculty and graduate students interested in medieval studies and Renaissance literature

The Promised End Peter Mercer,2023-10-13 The Promised End explores how the endings of Shakespeare's tragedies work how in effect they resist conventional closure It looks back from the endings of five plays Romeo and Juliet Hamlet Othello Macbeth and King Lear to explore how their structures of action imagery and the interaction of different genres comedy tragedy and romance bring them to conclusions that are both inevitable and yet strangely incongruous beyond explanation and moral understanding almost too terrible to bear

Married Love Marie Stopes,2022-06-03 Marie Stopes groundbreaking work Married Love delves into the intimate aspects of marriage offering both practical advice and psychological insights into the dynamics of marital relationships Written in a clear and accessible style the book addresses taboo topics such as sexual desire contraception and communication between partners challenging social norms of the time Stopes exploration of these themes resonates with the early 20th century literary context of modernism as she seeks to push the boundaries of conventional thinking Through personal anecdotes and scientific explanations Stopes creates a narrative that is both informative and thought provoking paving the way for future discussions

on marital intimacy Marie Stopes a renowned British author and advocate for women's reproductive rights drew upon her background in science and psychology to write *Married Love* Stopes own experiences in marriage and her observations of societal expectations influenced her to embark on this pioneering work which remains relevant and influential to this day I highly recommend *Married Love* to readers interested in the intersection of literature psychology and social history Stopes insightful analysis and compassionate approach make this book a valuable resource for anyone seeking to deepen their understanding of marital relationships

Carol Ann Duffy Jane Dowson,2016-05-17 This is the only monograph to consider the entire thirty year career publications and influence of Britain's first female poet laureate It outlines her impact on trends in contemporary poetry and establishes what we mean by Duffyesque concerns and techniques Discussions of her writing and activities prove how she has championed the relevance of poetry to all areas of contemporary culture and to the life of every human being Individual chapters discuss the lyrics of love loss and longing the socially motivated poems about the 1980s the female centred volumes and poems the relationship between poetry and public life and poetry and childhood and written for children The book should whet the appetite of readers who know little of Duffy's work to find out more while providing students and scholars with an in depth analysis of the poems in their contexts It draws on a wide range of critical works and includes an extensive list of further reading

The Truth About Love Patricia Love,2001-06-05 Offering a revelatory new perspective on loving relationships the author of *Hot Monogamy* guides readers through the natural stages of love high and low and shows how not to break up before the breakthrough

The Fortune of the Rougons is the initial volume of the *Rougon Macquart* series Though it was by no means M Zola's first essay in fiction it was undoubtedly his first great bid for genuine literary fame and the foundation of what must necessarily be regarded as his life work The idea of writing the natural and social history of a family under the Second Empire extending to a score of volumes was doubtless suggested to M Zola by Balzac's immortal *Comedie Humaine* He was twenty eight years of age when this idea first occurred to him he was fifty three when he at last sent the manuscript of his concluding volume *Dr Pascal* to the press He had spent five and twenty years in working out his scheme persevering with it doggedly and
